Hi everyone! Friendly heads up — not sure we will have any community guests in the morning. I will plan on being there at 9am as usual and, regardless, will look forward to seeing you all.

Thank you for your continued partnership.

coffee meeting with Councilmember O'Farrell and Larchmont Charter School parents

Jennifer and Kelsey,

Thanks again for your participation last week, and for all your help and support thus far as we work on the proposal for the bridge housing facility on Schrader Blvd in Hollywood.

As I may have mentioned, the #1 group that needs more outreach right away is Larchmont Charter School (LCS). We are engaging with them with FAQs, etc online, but we need to do an in-person discussion.

We've confirmed **Thursday 5/24 at 8:00 AM** with the school for a "coffee meeting" with Councilmember O'Farrell and LCS parents. Confirmed to join us thus far are the Mayor's Office, CAO (Meg Barclay), and United Way. I've also invited Rudy Salinas from The Center. Think of this as a more focused version of last week's open house, but the only audience is the parents.

If possible, I would like to include both of you as well, to fill essentially the same role as last time -- the experts who know how these types of facilities are run, and can help assuage concerns folks may have about operations.

I know we/I keep asking a lot of your time, but your support has been so critical, and we want to keep the momentum going and the ball rolling in a positive way!

And as I mentioned, there will be coffee. :)

Please confirm... as always, many thanks!

Marian,

Fantastic! We will look forward to seeing you and your guest this coming Wednesday, August 29th, at 9:00 AM at The Center at Blessed Sacrament - 6360 Selma Ave (across the street from LCS).

I'm CCing Rudy and Kevin from The Center, and Stephen from PATH, whom you will meet on Wednesday.

Rudy, Kevin, and Stephen -- Marian Bell is a founding board member of Larchmont Charter School. She has been supportive of the proposed bridge housing on Schrader Blvd, and will be attending on Wednesday with a guest.

Dear Guests:

Thanks again for being a part of our final Community Conference! We so appreciate you taking time out of your Saturday morning to join us.

I wanted to touch base with you before this Saturday with some additional information, to help make this process as seamless as possible.

Please see all of the points below:

- **STAFF CONTACTS:** I will be on-site early, at 8:00 AM to help set up and make sure everything is running smoothly. I will be your primary staff contact for the morning of the event, should you have any questions. My colleague Dan will be the other point of contact, in the event that you are unable to reach me.
    - **PRIMARY CONTACT - GEORGE HAKOPIANTS: 213-261-1467**
    - **SECONDARY CONTACT - DANIEL HALDEN: (213) 254-7214**
- **RESOURCE TABLE CALL TIME: Please arrive by 8:45 AM.** We will have pastries and coffee available for you in the morning! Guests are expected to begin trickling in by 9:30 AM. Your tables will be set up for you outside, so all you need to bring is your materials. Please check in with me when you arrive so that I can show you to your table.
- **PANELIST CALL TIME:** Unless you are also staffing a resource table outside in addition to being a panelist, **please arrive by 9:15 AM.** The panels will be taking place on the 3rd floor of the Student Union building. Please check in with me when you arrive so that I can guide you to where you need to be.
- **PARKING:** Free parking is available at **Lot 4**, located on 770 N. Heliotrope Drive. Once you park in the structure, the Student Union is a short trek away.
- **TECH SPECS:** If you are a panelist, please be sure to have a **VGA Adapter.** An A/V Technician will be on-site throughout the day to assist with all tech matters. His name is Stan Woo, and he can be reached at woosy@lacitycollege.edu **or 323-953-4000 x 2872** if you have additional questions related to tech.

Please let me know if you have any questions.

Thanks again, looking forward to meeting and seeing you all again this Saturday!

Best,
George

Hi all:

Here is some additional tech information for tomorrow's event:

Below please find the school's WiFi configuration:

- **Username: laccevent1**
- **Pswd: netaccess128**

Also, to clarify, we will only need 1 VGA adapter per session room. To make things as convenient as possible, I will have one on-hand and provide them to each session, so that you can connect your computer to the projector for your presentation.

Thanks in advance, and I look forward to seeing and meeting you tomorrow!

Best,
George

Thank you all for participating in the 5/8/18 community open house! We'd like to hold a "debrief" call to discuss how things went. We will keep this to 30 minutes.

We will be discussing feedback received at the open house, identifying common threads/themes, and next steps.

Please RSVP:

Hi!

I may not be able to join – but I thought the folks I spoke with had good questions (asking about cueing outside and how the "waitlist" would work - a lot of folks asked about a waitlist so not sure where that may have been heard). In general I think they were engaged and supported the process, but had questions about how it would impact the neighborhood. I think it went really well and people went away with really good information.

Thanks again!

Confirming Weekly "Coffees with the Community" re: 1533 Schrader Proposed Temp. Bridge Housing

Hello, friends from The Center and PATH!

Following up on our conversations, I'd like to **confirm** that **beginning next Wednesday, August 22nd at 9:00 AM,** we will start holding our weekly "Coffee with the Community" at The Center.

This will be an opportunity for members of the public to interact with reps from The Center and PATH, and learn more about the planned operations for the proposed bridge housing at 1533 Schrader.

I will be sending out this email below later today or tomorrow. Please take a look and let me know your thoughts ASAP.

Also, **please confirm** that The Center and PATH will have the appropriate reps at these weekly coffees, every Wednesday at 9:00 AM until further notice. I will also be there with you each week, and will manage the RSVP list.

Thank you!
Dan

Neighbors,

I hope you have all had a great summer. As we enter the fall, Councilmember O'Farrell asked me to share some important updates regarding the proposal to build a temporary bridge housing facility on City Parking Lot 649, located at 1533 Schrader Boulevard in Hollywood. This facility would be built through Mayor Garcetti's "A Bridge Home" program.

- **Current Status:** The proposal is still being studied and is not yet an approved project. However, we expect the formal study to make its way back to City Council soon. You can subscribe to updates by following this link and clicking the "envelope" icon at the top of the page, where you will be asked to enter and verify your email address.
- **Updated Design:** The proposal has been modified to reflect feedback from neighbors, service providers, and other stakeholders. I am including the latest DRAFT designs here.
- **Recommended Provider(s):** As part of the proposal, the Los Angeles Homeless Services Authority (LAHSA) will be recommending that the facility be jointly operated by People Assisting The Homeless (PATH), which manages several similar sites throughout California; and The Center at Blessed Sacrament, which is located in the immediate neighborhood and currently provides services to local homeless individuals on a daily basis.
- **Upcoming Outreach:** As this proposal makes its way through the process, we want to make sure all interested stakeholders have the opportunity continue to ask questions and learn more, and to dialogue directly with PATH and The Center. Accordingly, The Center will be hosting **weekly "Coffees with the Community" on an ongoing basis.** These discussions will be open to the public on a first-come, first-serve basis, and will be held **every Wednesday morning, 9:00 AM, at The Center: 6636 Selma Avenue.** The first Coffee will be held **next Wednesday, August 22nd, at 9:00 AM.** There will be a limit of 10 guests each week, and you may RSVP for yourself plus one additional guest, max. To RSVP, please contact Dan Halden at daniel.halden@lacity.org or **(213) 207-3015.**
- **More Information:** Please feel free to check out the Hollywood 4WRD website devoted to this proposal. Hollywood 4WRD is a coalition of service providers in the area that has offered important feedback, guidance, and support for this proposal.

Please let me know if you have any questions and feel free to contact me at any time.

Warm Regards,

Dan Halden

Hi Brigid,

It was nice talking to you too. I am looping in our Community Representative for Sanitation who might be able to help with your request.

Blad,

PATH is hosting a neighborhood watch meeting and would like if SAN could attend and present to the community.

Thank you both for all your help.

Thank you, Juan!

Bladimir,

Every quarter, PATH hosts a Neighborhood Watch Committee meeting with the businesses and residents in the area. We try to provide educational presentations from entities that provide resources and services to our neighborhood.

We would greatly appreciate a presentation from LA Sanitation regarding your work and activities in the region. Given that our neighborhood frequently submits requests for cleanup, your perspective would be greatly appreciated.

We have the equipment to display a PowerPoint, if needed.

Details for Thursday 5/24 8am Coffee with the Parents at Larchmont Charter School

Dan Halden <daniel.halden@lacity.org> Wed, May 23, 2018 at 2:29 PM
To: Jeanne Min <jeanne.min@lacity.org>, Tony Arranaga <tony.arranaga@lacity.org>, Edwin Guerra <38136@lapd.online>, Apryle Brodie <abrodie@lahsa.org>, Jacquelyn Lawson <jacquelyn.lawson@lacity.org>, Jennifer Hark-Dietz <JenniferD@epath.org>, Lisa Payne <lisa.payne@lacity.org>, Robert Park <robert.park@lacity.org>, Rudy Salinas <rudy@thecenterinhollywood.org>, Kelsey Madigan <KMadigan@lafh.org>, Meg Barclay <meg.barclay@lacity.org>, "Rysman, Molly" <mrysman@bos.lacounty.gov>, Frank Romero <fromero@unitedwayla.org>

Hi everyone,

Thanks again for participating in our "coffee with the parents" tomorrow, **Thursday May 24th,** at Larchmont Charter School. The event will begin at **8:00 AM; please arrive a few minutes early** to accommodate for parking, etc.

Dan Halden's cell: 213-254-7214 ***(text is preferable)***

Address: 6611 Selma Avenue, LA CA 90028
The entrance to the Larchmont Charter School campus is just to the ***right*** of the main entrance to Selma Elementary. There is a BUZZER. Please see the attached PDF; I've circled the entrance for you. It is essentially right at the intersection of Selma Ave and Cassil Pl. It's also visible here.

Upon entering the school, please advise them that you are there for the coffee with the parents (with Councilmember O'Farrell) and you will be directed to the Selma Elementary School **library.**

Parking: Your best bet is probably going to be street parking. There are some meters on Cassil Pl, just south of the school, that open at 8:00 AM (it is a tow-away zone prior to 8:00 AM). There are also meters on Selma Ave. **Please avoid parking directly in front of the school (it's a school parking only zone), or on Sunset Blvd (it's a tow-away zone).**

Public Transportation: The school is located roughly in between the two Metro Red Line stations in Hollywood -- Hollywood/Highland and Hollywood/Vine. It is slightly closer to Hollywood/Highland. Please allow for a walk of 10-15 minutes.

Partners:
CD13 - Councilmember O'Farrell, Tony Arranaga, Dan Halden
Mayor's Office - Lisa Payne, Robert Park
Sup. Kuehl - Molly Rysman
CAO - Meg Barclay
City Attorney - Jackie Lawson
LAPD - SLO Eddie Guerra
LAHSA - Apryle Brodie
United Way - Frank Romero
LAFH - Kelsey Madigan
PATH - Jennifer Hark-Dietz
The Center - Rudy Salinas

Agenda:
8:00 AM
-Welcome from Amy Held (LCS executive director)
8:02 AM
-Councilmember O'Farrell introduces himself and community partners (self-introductions)
8:05 AM - 8:15 AM
-Councilmember O'Farrell speaks, provides some history on the project
-Mayor's Office (Lisa/Robert) speaks, provides info on "A Bridge Home"
-Molly Rysman speaks, provides County context; children/schools, etc.
8:15-8:50 AM - Q&A

Following this, we can open it up to questions. I will be helping to moderate and collect questions as people come in. We will try to gauge what the overall "mood" is, and if there are any common or pressing questions that need to be addressed. Apryle, Jennifer, Kelsey, Rudy - I have a feeling we may be starting with you all as people may have questions regarding what they can expect from the potential operator of the bridge housing facility.
8:50 AM - Wrap-Up

Talking Points:

- Approximate number of beds: 70+
- Male/female, adults only
- Programmatic model: "Bridge Housing" (not what folks think of as a typical "shelter")
- Though we do not yet have an operator, residents are pre-placed into the program. It will not be the type of program where people line up and are waiting to get in.
- **CD13 IDEAL:** Focus will be made on homeless population **within the immediate area** of Hollywood.
- The program will be temporary (until 2021, when the State Law governing declaration of a shelter crisis sunsets).
- Long-term, Councilmember O'Farrell envisions **housing** on the site (affordable or permanent-supportive).
- **Operations:** A recurring question is, "Will residents be forced to leave during the day, causing people to loiter in the neighborhood?" This is TBD, based on the operator; however, this type of operation would run contrary to CD13 goals for the facility, especially given the design emphasis on "recreational space."
- 24/7 on-site security
- Outside drugs/alcohol. This question will likely come up. **Service providers,** we will defer to you - how does this work in similar facilities?
- On-site case management, restrooms, laundry, pet area
- **Neighborhood Security:** Once the facility is in place, the surrounding area, ***including the school***, will receive a CSI cleanup 1x/week, and HOPE team 4x/week.

Please let me know if you have any questions. Thanks again for your support and participation!

Brian,

I would like to introduce you to Stephen Fiechter from PATH. They will be operating the Bridge Home program north of your property.

When we met you mentioned that you may be able to assist with up to 5 parking spaces for them to use, as long as it could be reviewed on a monthly basis based on availability.

Stephen,

Brian owns the building at 6565 Sunset and has been a huge supporter of the project from the beginning.

I will let the two of you work out the details.

Parking enforcement at Schrader

Hi Sean! Not sure how to address this. When the folks from BOE were touring they said that the reason they painted the curb in front red was so that we could park, use for deliveries, etc.

I'm not sure parking enforcement got the memo on that. They have been intermittently giving us a hard time 😁

Can you help?

Rikki...hi, and apologies for my super-delayed response.

Would love to connect with you—the other day I brought a couple of pairs of sneakers to the Goodwill and was met out front by some of the residents of our new Bridge to Home site on Schrader asking if they could have them! Needless to say, there's a need ☺

I'm including our Director of Development at PATH on this response too, because, well, basically, we're really interested in forming partnerships—Georgeanne Barrett will be a great contact in terms of coordinating across PATH programs and figuring out how we can best connect. (Georgeanne, meet Rikki--https://havasole.com/about/) ☺

Rikki, my role at PATH is to oversee our programming in the core Metro LA area...so on a given day my teams are doing outreach to folks experiencing homelessness on the streets or in encampments, serving folks living in one of our four Interim Housing sites in Metro LA, getting folks reconnected to permanent housing rapidly and also helping those folks who are in permanent homes who continue to benefit from ongoing case management support.

The Schrader *A Bridge Home* site is 72 beds (44 men & 28 women) serving folks who have experienced chronic homelessness on the streets of Hollywood. We also operate another site in Hollywood at the Hollywood Studio Club (YWCA) on Lodi Place: 63 beds for women.

I'd be happy to figure out a time to connect—if you want to take a look at the site that could work, or we can connect via email or phone...whatever works best.

Thanks so much for your patience! Hope we can chat soon,

-Steve

Hi Diego – I wanted to introduce you to Sean Starkey, who is the new Field Deputy for Councilmember Mitch O'Farrell. Hopefully he can also help us address your issue with the encampments around your property (Sean: he's with AMPAS, the Pickford Center is at 1313 Vine Street, near all the new construction around Cahuenga and DeLongpre).

Dr Anthony. At JFK airport

I've been following some of the process with the Cahuenga Alley project because it is one I care about. I am hoping you will work with Rich and Sean and sign the petition so they can make progress on calming down the alley. It is a good move to get the gate up. I am copying them here - I know they want to work collaboratively with you.

Also. Connecting my blog I have started for this trip - I hope you will follow it.

NOTICE OF STREET WORK

Starting approximately, **Saturday, April 13, 2019 and Sunday, April 14, 2019,** the City of Los Angeles, Department of Public Works, and Bureau of Street Services will begin roadway improvements on:

Cahuenga Boulevard, Fountain Avenue to Santa Monica Boulevard

The **first phase** will require the preparation of the existing roadway by cold milling the street. The **final phase** will require the paving of the existing roadway and resurfacing the street. The work will be scheduled so that the project will be completed within **two days**, provided no extenuating circumstances arise. If the project length is delayed, you will be notified of the reason for the delay and of the revised completion date.

While the project is in progress, "Temporary No Parking Signs" will be posted on the street. The signs will be posted at least 24 hours before the actual work begins to provide notice to residents and business owners. Please have all vehicles removed from the street to protect them from damage by construction debris and to prevent interference with the planned work. When work is not in progress between the preparation and resurfacing phases the signs will be reversed to allow for vehicular parking.

Vehicles will have access during the cold milling of the project. However, it is requested that driving be limited within the project area to avoid possible damage to your vehicle. The only time that access will be restricted within the project area is when the street is coated with liquid asphalt, prior to the resurfacing of the street.

When the crews are working, there will be construction equipment and trucks in the area. This equipment may be of interest to children. Remind residents to be careful and ask children to avoid the equipment and work-site area.

Thank you for your understanding and patience during this project. Persons with mobility impediments and their caregivers can request assistance if the scheduled street work limits their use (including ingress or egress) of the public right of way. If you have questions or need to request an accommodation, contact the supervisor on the project site or call (323) 266-5964 or (213) 847-3200.

Please note: If you are planning any improvements to your business or residence that require an excavation in the street, please call one of the above numbers immediately. Once the street is resurfaced, any excavations within one year after the date of the paving will be prohibited; or will require the resurfacing of the entire block or intersection, depending on the location of the excavation, by the entity performing the excavation and at their cost. If the street excavation is performed beyond the one-year moratorium period, a graduated fee will apply. (Street Damage Restoration Fee per LAMC 62.06).

Sean –

See below from a note regarding some confusion about enforcement within the SEZ. I thought LAPD was partnering with Streets Services & LAHSA within the zone? I'd like to ensure that I am communicating good information to the sender, and that our security is better prepared to answer accurately.

Subject: Confusion about the new "Special Enforcement Zone"
Importance: High

Kris –

LAPD said we should call the BID Security and report infractions by transients within the new "Special Enforcement Zone" that started just today.

But when I just tried to do that, I was told by the Andrews person who answered that that was "wrong," that Andrews has no new authority yet to enforce code violations by transients within the "Special Enforcement

Zone."

Wonder if you can get it sorted out and see if Andrews will be helping LAPD enforce the "Special Enforcement Zone," or if this is just going to all fall on LAPD? Hope this new "Special Enforcement Zone" isn't going to just be all smoke and mirrors and won't be enforced.

Winston – thank you for your email, and for sharing your experience. It's a bit of a new day with the Enforcement Zone going into effect, so we're all learning the new protocol together.

Your email prompted me to reach out to Sean Starkey (copied), the Field Deputy to Hollywood from Council Member O'Farrell's office. He provided me with the following instructions for such situations moving forward:

- The Council Office should be your primary contact for enforcement requests of individuals sleeping / in tents within the zone. Sean is copied, and his cell is 213-261-1545.

- The enforcement zone does not allow sleeping or tents between the hours of 6 AM – 9 PM.

- Once you notify Sean, he will make the Department of Sanitation and LAPD aware of the infraction and coordinate the response.

- Outside of the 6 AM – 9 PM prohibition, people are not allowed to sleep / camp within 10 feet of a doorway or in a tent that blocks ADA clearance. Please call Sean if you experience infractions during this period too, and he can coordinate with LAPD accordingly.

We'll work to educate our BID patrol about this communication protocol. My apologies if they weren't helpful during this interaction, and we'll do our best to ensure they are equipped with better information about the enforcement zone moving forward.

Tree Trimming in the Hollywood BID

Hi Sean,

If possible, can we have any of the palm trees on Cahuenga Blvd. from Hollywood to Sunset Blvd. trimmed? The BID trimmed the ficus trees on the south west corner of Vine and Sunset a few months ago and would love to see the city services directed elsewhere.

Thank you,

Kevin,

Could you provide the addresses for the two unpermitted loading zones? It would help get the issue resolved quickly.

Subject: Re: Loading Zone

Hi Devin, the illegal 'yellow' loading zone is on your side of the street in front of a souvenir and market, second store before you get to Las Palmas that has a Tour company booth in front. The same person who painted it the same morning went directly across the street at 10 AM and painted the yellow stripe also in front the Rock and Roll T-shirt store next to Stephano's Pizza. Rock T-shirt owner photographed the van and license plate. The 'White stripe in front near Starbucks is a different scenario. All of Hollywood Blvd from Las Palmas to McCadden was painted red, on the north side of the street. Because of safety issues it was suppose to be all 'red'...with the new traffic light installed. But Jeff the Startrack tour company owner cried to another person....oh well. So with the illegal vendors in front of Starbucks eating up every inch of the sidewalk there and next to the fire hydrant and directly next to the intersection with umbrellas hitting tourists in the head, somebody soon will be hurt.

To: Sean Starkey <sean.starkey@lacity.org>

Hi Mr. Starkey, the first picture was taken at 6705-6707 Hollywood Blvd. The owner of Rock Shop T-Shirts at 6707 took the van and license plate when he quickly pulled up and rushed to painted the curb around 10 AM. He then went to the address0 6672 Hollywood Blvd across the street and continued to paint the curb. The complaint was culled in that moment and the next day the city authorities came out and within 48 hours repainted the north side of the street at 6705-7. But the southside address 6672 was never attended...and they have truly have enjoyed the abuse as you can see.

The only tour company to use/abuse the original loading zone at 6705 before it was painted red was the tour company at 6672 who daily illegally still park their buses on Las Palmas south of Hollywood Blvd on the side Miceli's, 2 to 3 buses. Making the issue more problematic is that there are no tour company podiums at the corner of 6700 which is a magnet for illegal tour flier persons, up to 3 persons diverting potential customers from the market store on that corner.
Thank you,
Kevin Donan

Hi Dan,

I noticed new crosswalks went in on Hollywood Boulevard – they look great and are definitely doing their job of prioritizing pedestrians. Thank you for getting these installed for us!

Do you have a complete list of the new crosswalks that were added? I noted the following:

Hollywood/Hudson

Hollywood/Schrader

Hollywood/Cherokee

I'm going to give kudos to CD13/DOT at our board meeting on Thursday.

Thanks again!

Thanks! Your list looks accurate so far. I haven't been able to make it over to El Cerrito Place recently to check out one of the other ones that was requested.

McCadden will be upgraded as part of the new signal, and I believe El Centro should be upgraded once the 6200 Hollywood Blvd project is finished.

Along these lines, I'd like to start compiling a list of ALL intersections of Hollywood Blvd from La Brea all the way to Western that could use a continental crosswalk. Much of that includes the HED. Let me know if anything jumps out at you.

Hollywood & Vine will be getting a scramble, and Hollywood & Argyle will get continentals as part of that project. So we're well on our way - but I want to do the whole thing!

Thanks,

Dan, I am working on setting up the meeting re/ the North Cahuenga alley on Dec 11 at 9 a.m.

Talked with Dr. Anthony yesterday – he asked about a "no parking" sign that the city was going to provide for the wall in the alley? I don't recall that conversation, but was that something you were going to try to track down for him?

Neighbors,

As many of you know, this summer (June through August 2018) construction will take place on **Selma Avenue, between Las Palmas Ave and Schrader Blvd,** as part of the City's "Safe Routes to School" pedestrian safety project on the street. The goal of the project is to make this a safer corridor for people -- particularly children and families -- in the area.

Work will begin approximately June 11, 2018, and will last until approximately August 14, 2018. The work has been specifically scheduled so it takes place during the summer, when school is not regularly in session.

During the first phase of work (approximately five weeks), construction will take place on the **NORTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, eastbound traffic only.**

During the second phase of work (approximately five weeks), construction will take place on the **SOUTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, westbound traffic only.**

Please see attached for Construction Notices in English and Espanol. These notices will also be distributed in-person to the neighborhood over the next several days. Please feel free to share.

For questions directly related to construction, please contact the contractor, Louis Perez, at (818) 262-9881 or louisperez@cometelectric.com. Please also feel free to contact me as well.

Thank you for your patience and understanding as the City brings this improvement to the neighborhood.

Best Regards,

Tony and David,

Wanted to let you know that I did a telephone interview this morning with Aaron Schrank of NPR – working on a Marketplace segment re/ the city's sidewalk vending ordinance. I know he did spend some time on the street here in Hollywood viewing the situation, and also spoke with one of the kiosk vendors on the H/H side of the terrazzo. Her monthly rent is $5,000 to run that business.

Old Parking Signs

Rich,

With the new, amazing looking, way finding signs all over Hollywood it may be a good idea to begin the process of removing all the old, non-amazing looking, parking signs.

Do you have a list of where the new signs went that we can use as a base on where to look for the old signs?

Hi Sean,

Thank you!!! I have a map that I have attached for those oh so gorgeous mid-90s wayfinding signs. They are in red on the map. I thought that LADOT or some other party was going to take them down, but I don't think that will happen. Thoughts on having them taken down? They wouldn't be hard to have removed and it would not take much time, so I feel like we can outsource if need be.

Let me know your thoughts!

Palm Trees

To: Daniel Halden <Daniel.Halden@lacity.org>

Hi Dan,

There are about 121 palm trees on Hollywood Blvd that are not currently lit. Using the $350.00 estimate for each tree, it would be $42,350 total. From McCadden to Ivar, there are about 40 palm trees ($14,000 total). From Orange to La Brea, there are about 81 palm trees ($28,350.00 total).

Did you want me to get an estimate for lighting the Ficus trees as well?

I wonder if it would be fruitful to get ALL the property owners (or their reps) together for a follow-up meeting, so everyone can be compelled to get on the same page. What do you think?

TO: Board of Directors

Now that CleanStreet is up and running, we are looking at ways to help increase their efficiency. One issue involves the parking of their trucks. To our neighborhood, CleanStreet brings: one street sweeper, three pressure washers and one trash truck. In the past, we did have access to parking lots during the day to park these vehicles, and, as a trade, CleanStreet would provide extra street sweeping of your lot, or pressure washing.

Does anyone have access to any spots for these vehicles (even just one) – to avoid them having to drive back and forth to Gardena?

Many thanks –please let Rich know if you have any ideas (could even be outside of the BID).

Pave-Gen installed this weekend at H/H -- potential consideration for WOF in the future

Greetings friends,

(Jackie: could you please forward this email to the members of the Trust, since I don't have their emails)

You'll recall earlier this year when our Coro Fellow researched various ways to protect the Walk of Fame, he stumbled upon a rather remarkable technology which has been installed in cities across the globe – Pave-Gen. If you recall from the presentation, this is a surface that is installed and can do four things:

- Capture data from every footstep – which can be useful for pedestrian studies
- The finish is durable and slip resistant. Broken tiles can be easily replaced
- The tiles can be configured in any way for the client
- The footsteps generate energy which can be attached to light sources and advertising or messaging

Serendipitously, Pave-Gen has been brought in for an installed exhibit at Hollywood & Highland through Sunday night. This is being installed right in front of the Dolby Theatre. If you have a chance to go by this weekend, you'll be able to inspect it closely and walk on it. (See photos.)

One of the thoughts we had was to test this surface for future consideration -- would Pave-Gen be willing to install a test section? In conversations we've had with various community leaders here was a suggestion: could a test area be installed just off the Walk of Fame, in front of the Chase Bank on Sunset Blvd (there is terrazzo there, but it is not part of the official WOF). If Pave-Gen could do a prototype installation – we could take a couple years to see how it wears and tears with all the pedestrian traffic.

Rich has been keeping in touch with this company ever since the Coro project, and it appears the CEO might be here on Monday, and maybe we could do a very quick meet and greet for about 30 minutes.

So, please try to take a look at this this weekend. If we can get the CEO in here on Monday, would anyone be interested in meeting him?

Kerry

P.S. If you look closer on their website, you can see a lot of photos from the travelling exhibition they are doing right now to promote Bank of the West.

Pitch re/ Center Reserve Fund

Hi Molly and Dan,

I've mentioned to both of you that I've been working with Hudson Properties to host a "pitch" event to raise awareness about the importance of fortifying the cash reserve fund at The Center so that it is in a better position to compete for Meausre H grants and other government funding.

I'm passing along a draft of The Pitch for you to review.

It would be important for me to have the two of you there to lend credibility to the reality of this situation – and the fact that The Center has the very real possibility to be involved in the service provision for the Bridge Facility, and possibly the E-6 team. My hope is to get about 15 business leaders in the room to help us bring the cash reserve to $300,000.

Would this date work for you:

Thursday Aug 30 at 8:30 a.m. at Sunset Bronson Studios. One hour is what I need.

Hi folks,

Per our conversations, the report on the proposed temporary bridge housing at 1533 Schrader will be heard in **Budget & Finance Committee this coming Monday, September 17th, at 2:00 PM.**

If approved by Budget & Finance, it will be head to City Council on Tuesday, September 18th, which would then vote to fully approve the proposal.

This Monday, at Budget & Finance Committee, **there will be public comment on the item.** Please let me know if you will be attending and if you'll be bringing any guests either from your organization or elsewhere.

Thank you,

Greetings everyone,

I am writing in order to start (or re-start) a conversation about public restrooms in Hollywood. I know this has been discussed before, but with new leadership in Hollywood of both the BID and Chamber, and the newly implemented Tourism District Overlay Zone, I have been tasked with looking into the feasibility of installing public restrooms in Hollywood, specifically in the tourism zone near Hollywood and Highland. I know there are public restrooms in other locations of the city, such as the ones near the Metro Red Line station at North Hollywood. I would like to know what the requirements would be, who would or could fund them, and how they are maintained.

Thank you so much!

Dan,

Do you know who I would talk to about public restrooms? Is that through the JC Decaux contract, or do they not do that anymore (I think they did the ones in NoHo)?

I was also reading about the ones on Skid Row, but those were apparently $450,000.

https://www.latimes.com/local/lanow/la-me-skid-row-toilets-20171204-story.html

I just want to get some general pricing and feasibility to report back to the TDOZ at their committee meeting on Wednesday.

Thanks!

Devin,

We should be OK for 10 tables and 50 chairs for Old Hollywood Locals Night. Please confirm A) it's a FREE event, and B) if AAA tries to get out of picking them up that night (as they did before), please push back and refer them to Gigi Galias. :)

CCing Steve J. here who will process the request once the above is confirmed.

If we could get 10 table and however many chairs (50?) that would be great! Attached is the flyer for the event – it's called United We Dance. I've also attached the Sunset & Dine flyer. Do you think your office can help get the word out?

Thanks!

Hi Devin,

Two things:

1) We just received that Hollywood BID ballot in the mail. Please confirm the docs we recently sent you was our ballot submission.

2) I saw your name on the "Proposed Crisis/Bridge Housing on Schrader St" invite. We sent a representative to the meeting, but it was so crowded we were not able to get any of our questions answered. Are you able to direct us to the best point of contact for this proposed project?

Hi Devin,

I have signed the HED petition and will mail 2- day air today. We have been in business at this location for about 15 years and have witnessed the tremendous benefit from this organization. One question, I see our assessment will be $3,847.15, however I could not find our parcel number anywhere in the District Plan? Why is this?

Hi, David -- happy to answer any questions you might have. I'm attaching all the relevant information as well as a link to a Google Doc, which also has the documents, as well as the opportunity to ask more questions. Please let us know!

Google Forms

I've invited you to fill out a form:

Proposed Temporary Bridge Housing Facility at 1533 Schrader Boulevard

Homelessness is at crisis levels, increasing by 23% in the last year alone. The City of Los Angeles has been working very hard to identify locations to establish temporary crisis and bridge housing options via Mayor Garcetti's "A Bridge Home" initiative. This is a unique opportunity to utilize this program, coupled with funding from voter-approved Measure H, to bring a temporary bridge housing facility to an area in need.

A community open house was held on May 8, 2018 to provide initial details about the proposal, but we are seeking additional feedback. Please complete and submit the below questionnaire. If you have additional questions, you may also contact Dan Halden at Councilmember Mitch O'Farrell's office: daniel.halden@lacity.org or (213) 207-3015.

David – we do not want to be a difficult customer for you. Could you please advise where the public chargers are? If you are thinking about chargers for EV – this is not what powers a Taylor Dunn. We need a standard electrical outlet. We are happy to walk the garage with you to look for a solution.

Hi David,

I just met with Rich re/ this situation in the Cherokee garage.

I wanted to see if you could work with us on a solution. As you know, the property owners who support this BID are spending in excess of $1.3M to keep this part of Hollywood clean. These two particular spots have access to the electrical plug which allows our team to charge their Taylor Dunn vehicles to go out and pick up trash throughout the neighborhood. When those cones are not there, people will park in those spaces (despite the fact that there are many open spaces in the garage). When we cannot charge these vehicles, our ability to pick up trash is severely hampered.

That said, we are bidding out our maintenance contract and we will NOT be using electrical vehicles in the new year, for precisely this reason. This has been a very frustrating equipment problem for us.

Can we work something out for the remainder of the year – or could you help us get access to electrical outlets with reserved parking spaces in either the Vine Street garage or the H/H garage between now and the end of the year so we can finish out the current maintenance contract with their equipment?

Thanks for your partnerhip.

Joe/Matt:

Please note that we are once again noticing that some of the spaces on the second level of the Cherokee garage are being blocked off with cones. We have had issues with your contractor blocking off these spaces in the past for his vehicles. These are the prime spaces in the garage directly adjacent to the stairs and elevator and cannot be removed from public use. We have informed our Parking Operator to immediately remove and confiscate any unauthorized cones from the garage. Please note that if your contractor is reserving space for his vehicles, it could result in the revocation of monthly parking privileges.

Again, your contractor is welcome to use the public chargers in the garage under the posted terms and conditions and DOT is willing to allow them reserved parking in a less-utilized portion of the garage.

I, too, trust things will be better next year, and soon we must turn our attention to the city's need to build more affordable housing, just as a general policy matter. It never ends – but let's take this holiday to rest a bit, count our blessings and press on in the new year!

TO CITY CLERK FOR PLACEMENT ON NEXT

#54

MOTION

The Hollywood Property Owners Alliance ("HPOA") has offered to donate to the City a digital wireless surveillance camera for the Hollywood Entertainment District. The system is comprised of digital wireless video camera and Fluid Mesh antennae.

An existing surveillance system was donated to the City by the HPOA over a period from 2004 to 2009, and updated in 2014. The new system now also includes one camera at the SW corner of the following intersection:

a) Hollywood and Las Palmas

The camera utilizes the existing repeater at 6255 Sunset Boulevard and the monitors are located at the LAPD Hollywood station.

The system is intended for the exclusive use of the Los Angeles Police Department. The HPOA plans on paying for ongoing maintenance of the equipment after the one-year warranty is expired. With the installation of the original donated cameras, the Police Department had documented a resulting drop in crime. The cameras have proven to be a continued effective tool to increase public safety.

Action is needed to accept the donation (estimated value of $15,000 for the equipment) and thank the donors.

I THEREFORE MOVE that the Council accept the donation by the Hollywood Property Owners Alliance of the new Las Palmas digital surveillance camera (estimated value of $15,000) comprised of a digital wireless video camera and Fluid Mesh antennae, for use by the Los Angeles Police Department for the Hollywood Entertainment District as further described in the text of this motion.

I FURTHER MOVE that the Police Department be instructed to record the donated equipment on the Department's inventory list and to thank the donors on behalf of the City.

Hi Lorena,

I'm reaching out to see how we can go about getting a crosswalk installed across Hollywood Blvd. at El Centro. The property owner is willing to pay for it "within means" and I'd love to start progress on this before the property opens to the public. Please let me know which steps to take or how to go about doing this. If you'd like, you can reach me on my cell: 323.873.9775

The map below is where the requested crosswalk would be.

Thank you so much!

Dan. We have been in touch with him this week. He sent us a similar email also. I called him back. Told him Cole was a priority area for all of us. I am trying to reach the new Sgt for LAPD that we met (Shannon) to help coordinate something but we should probably do a quick conference call re this on Monday to ascertain next steps.

Hi Dan,

Please see the attached proposals for Cahuenga String Lights and Holiday Decorations from St. Nick's.

- Holiday Decorations (palm tree lights and holiday decorations for poles) were fabricated and purchased by the Chamber for a total of $95,950.00. First year of installation and storage cost $65,500 total and the following four years to install, remove and store cost $38,950.
- Cahuenga String Lights cost $17,094.00 total for fabrication and installation.

Additionally, the utility box artwork we installed cost $1,000.00 to wrap all four sides of one box if you want to request more funding 🙂 The original artist is a friend of mine and he has been dying to create more for the Blvd

Let me know if you have any questions.

Hi Rich,

Our office received your requests about the traffic signal cabinets covered with green paint. LADOT approved Council District 13's request for decorative displays on ten traffic signal cabinets on Hollywood Blvd. The artist(s) should be painting soon. See attached letters for more information. Please let me know if you have any questions.

Thanks.

Megan,

Great speaking to you earlier. Per our conversation, I wanted to introduce you to Kris Larson, the President/CEO of the Hollywood Entertainment District BID. As you know, Kris and I have been working to envision a possible lighting "master plan" for Hollywood.

Kris — Megan Hackney is the Bureau of Street Lighting (BSL) Assistant Director. Megan and the Bureau have been very helpful and supportive of the Cahuenga Blvd string lighting project.

I thought it would be prudent to introduce you to each other, and perhaps for us to hop on a phone call together to further discuss the visioning and mechanics of how such a plan could work. I wanted to make sure BSL is aware of all the details, prior to things moving too far down the pike.

Are you all available for a phone call next week? My best availability is next Tuesday 4/16 in the afternoon, with the exception of 2-2:30 (when I have a brief meeting).

Thank you!

Marty, thanks for bringing this to my attention. Sorry I did not respond last Friday – I was downtown for meetings and didn't see this.

I really want to meet Brett Porter – but tomorrow I will be out doing a field trip with LAPD looking at different video surveillance installations. I will be back by 2:30. If it is possible to meet then, I would very much appreciate it.

In the meantime, I am looping in Jimmy Shaw, owner of a local restaurant here in the "mid-BID" – Loteria. With recent construction taking away a nearby surface parking lot, his patrons are finding it harder to park nearby. The Cherokee parking lot also has some challenges, and is sometimes full. (And, I believe there are cars from Honda of Hollywood stored on the entire top floor of that structure, taking parking spaces away from neighboring businesses.) What Jimmy is experiencing is a good case study of nearby businesses, and he has some ideas he'd like to share. I hope you can stop in and visit with him for a few minutes between 1 and 2 p.m.

I've included him on this email.

Let me know if 2:30 will work.

Downtown Center BID - Market Report

Marty – thank you for raising this topic, and for circulating the example from DCBID.

In many communities, the BID emerges as a trusted market expert for the area that it serves. This relationship is often complementary to the region's Chamber or other lead economic development organization. These roles often evolve over time, growing in terms of sophistication and intentionality – moving from the anecdotal to the analytical.

To that end, I thought I'd share a couple of examples of similar work I've had the honor of leading at my two previous posts. This type of work builds off a foundation of comprehensive data collection and transitions to the utility of the data to shape an dynamic understanding of the submarket relative to the broader community. In Raleigh's State of Downtown Report, we graphically illustrated the relative tax contribution from Downtown relative to the remainder of the city, helping to demonstrate the proportion of taxes generated by the center city as a way of qualifying the importance of the place to the City (see pages 10-11 in the linked report above).

Similarly, the International Downtown Association (the trade association for the BIDs) developed the Value of Downtowns project to help communities express their value in different, not exclusively economic terms – recognizing that policy and resource allocation decisions quite frequently involve many different dimensions. The IDA has completed 24 such research projects, including this one for my former post in Grand Rapids. In that project, we developed a methodology for measuring everything from a community's identity to its resiliency.

What does this mean for Hollywood and the HPOA? That's hard to answer in the moment. However, we do plan to explore the HPOA's potential role in local economic development as a component of our upcoming organizational strategic planning process which kicks off in April and concludes in August. I hope you and others on this thread will share your insights and expertise as a part of the effort.

Additionally, I have discussed with the HPOA Board Chair the prospect of bringing the Value of Downtowns initiative to Hollywood to help us build a baseline for local data and research. He is supportive of taking the opportunity to the Board at their meeting next month.

Thanks for indulging me in this detailed response – you managed to hit a topic that really speaks to me, as I've seen time after time how critical good information is to decision making.

Best,

Kris

Brian, they are a very credible organization, and do good work for the county. They are involved with the Housing for Health program, which links homeless people with chronic medical conditions to housing.

One thing they also do is rehab properties to turn into supportive housing. They have a real estate specialist who will scope out properties for conversion or rehab. If we had any candidates in the Hollywood area, they would be open to coming out here.

Hi Dan,

I know you're swamped today and hope the festivities go well! I wanted to chat with you about the Farmers Market. I did some sleuthing Sunday morning and they are most definitely not following the rules. Give me a call tomorrow when you can!

Talk to you then.

Hi friends,

I don't want to make a habit of this, but Julie Hudman has asked if I could present to her board on Friday Feb 2 – they are having a board retreat, and she wants me to give them the 4-1-1- on the homeless situation.

Would it be possible for us to move our FF to Feb 9?

Sounds good.

I'll have til about 9:40.

From me:

1. Homeless issues update
2. Scramble
3. Wayfinding signage - status?

Hello BID folks:

Please see attached. Please make sure this goes out to the BID stakeholders, particularly the Sunset BID, which has voted to support a project of this nature. This proposed project is within the Sunset BID.

Next Tuesday's open house is also immediately following (and around the corner from) the Sunset BID board meeting, so it should be convenient for people to attend.

Neighbors,

Happy New Year and I hope this email finds you well. As promised, I am setting up a meeting to follow-up on our previous discussion(s) regarding Hollywood Blvd between Highland Ave and Orange Drive. This meeting will also include representatives from LAPD, LAFD, and LADOT.

The meeting will be held on **Wednesday, January 23rd, at 10:30 AM, at Hollywood City Hall - 6501 Fountain Avenue.**

I want to keep the discussion focused so attendance will be open to the folks on this thread -- immediate stakeholders, plus Chamber and BID reps. If you are unable to attend but would like to send someone in your stead, please check with me first.

If you plan to attend, please confirm your RSVP directly with me.

Thank you, and I hope to see you on January 23rd.

Greetings Board,

As you know, we had intended to hold the All Property Owners meeting on December 12 as a open house reception with a brief report on news from the BID. Given that is the evening of the event celebrating Leron, we have decided to hold this **directly after your regular board meeting on Thursday December 20**. So, please plan to stay after the board meeting. We will have hors d'oeuvres, wine, beer and refreshments. We will invite the property owners – for a little bit of holiday cheer and a report-out on the work-product of this busy year.

- We will introduce them to the merged board and the new officers
- We will present the new maintenance and security vendors
- We may have information about the new staff leadership (!?)

Thanks for hanging back that evening – and we look forward to toasting to all the accomplishments of this very busy year!

FW: City contract - Termination Section 15 *TIME SENSITIVE*

Kerry Morrison <Kerry@hollywoodbid.org> Thu, Aug 16, 2018 at 12:04 PM
To: Holly Wolcott <holly.wolcott@lacity.org>
Cc: Jeanne Min <jeanne.min@lacity.org>, Daniel Halden <Daniel.Halden@lacity.org>, Rita Moreno <rita.moreno@lacity.org>, Lorin Lappin <Lorin@hollywoodbid.org>

Holly – can we have a conversation today before 4 p.m? I have a board meeting for Hollywood Property Owners Alliance, and we have an action item to review/approve the city contract. As I've laid out in the email below, we have strong reservations about the change in the termination clause -- the attached file shows what is in our current contract as compared to the one we were presented last week.

I would respectfully ask that we return to the version we've operated under for the last ten years (and possibly longer). Are you able to authorize that.

Rita did explain the Lorin the rationale for the 30-day for convenience, but I doubt our board will sign this contract since so much is at stake.

I am available all afternoon to talk. If there is a city attorney assigned to this, I'd appreciate having them involved and I could involve our attorney also on a conference call.

Time is of the essence, as the board won't meet again until September.

Many thanks

Kerry

Subject: FW: City contract - Termination Section 15

Jeanne,

I want to bring you into the loop on an issue pending with the City Clerk – time is of the essence, so I may need you or the Councilmember to weigh in.

I am attaching our draft city contract (between HPOA and City of Los Angeles) to manage the HED for 2019-28. It is pretty boilerplate, and we are fine with it, except we noticed that the termination clause has changed rather drastically from the last version we signed 10 years ago. I have attached that comparison.

For the city to have a 30-day out for convenience puts us in a very unstable situation – for a $7.4M BID which is involved in service contracts to do the work here in Hollywood. You can read the logic of this argument in the thread below. This would also jeopardize employment contracts and similar legal obligations.

The Hollywood board meets tomorrow – we were hoping to seek authorization to sign the contract, so we can proceed with the planning for 2019. I may be able to get a motion to sign if this provision can be reinstated to its previous version – otherwise we'll have to wait until September. Our normal City Clerk reps (Rick Scott and Miranda Paster) are both out on medical leave, so I think my best bet is to get directly to Holly.

Let me know your thoughts.

Subject: RE: City contract - Termination Section 15

Rita, one of the things we would want to discuss with Holly is that when we enter into a contract with a service provider, they are often investing in equipment that has to be amortized over a minimum of three years. For example, we are currently bidding out the security and maintenance contracts for the BID – and will very likely be hiring new vendors. For the maintenance contract, they are proposing a street sweeper, several pressure washing trucks, trash hauling truck and the like. We also have to rent space for their operations. They are hiring up to 25 people.

A similar situation exists for security. We will also be investing in a new radio system with repeaters.

To have the risk of a 30 day termination for convenience puts many things into jeopardy. Let's set up a conference call with Holly and the city attorney assigned to the BID contracts to flesh this out.

Many thanks.

Kerry

Hey Dan - April is out today, so I wondered if you could clarify this discrepancy in the date for the Cultural Parade.

Please tell me Bantufest is not a new, separate event?

Hi Devin,

The Cultural cluster parade that happens.

Could you clarify the date?

Navigate has it 5/12

http://onlyinhollywood.org/?post_type=alerts&p=8393

Their website has it June 29

https://www.laculturefestival.com/events-2

Or are they totally different events?

Thanks, luv

Audio: Rats, roaches, bedbugs, mold: Why thousands of LA's homeless shelter beds sit

empty each night | 89.3 KPCC

Every night, some 43,000 people sleep on the streets of Los Angeles County in tents, cars and makeshift structures. So why do thousands of beds run by the biggest homeless agencies go empty at night?

A KPCC investigation found reports of bedbugs, rats, foul odors, poor lighting, harassment, lax care in medical wards and even a "chicken incubator" in a room where homeless people were sleeping.

Public documents — including monitoring reports from the Los Angeles Homeless Services Authority (LAHSA), health department inspections, coroner reports, surveys from the Department of Mental Health and police reports — reveal safety and sanitation problems in shelters around the county.

Reviews conducted at 60 shelters funded by LAHSA last year found more than half — 33 — were not filling all of their beds. Overall, LAHSA-funded shelters had a 78 percent utilization rate, well below the 90 percent required in their contracts. Monitors also found that 25 of those facilities were failing to meet the minimum standards required by their contracts to get people off the streets for good.

KPCC found that negative monitoring reports, health citations and grievance complaints rarely result in a shelter being shut down.

Some shelters raise philanthropic dollars on their own to improve living conditions in their buildings. Those that don't receive public dollars operate with little to no public accountability at all.

The lack of accountability for meeting quality and service benchmarks raises questions about what taxpayers are paying for with the hundreds of millions of dollars in Measure H funding now flowing through LAHSA and other public agencies.

Who is looking out for the people officials say they are trying to help?

There are about 16,600 shelter beds in L.A. County. They're almost always run by private nonprofit and faith organizations. Many have contracts with federal, local, and state government agencies that pay for beds for mental health clients, veterans, and other populations they serve.

The result is a patchwork system of oversight. No single public entity is charged with making sure shelters are clean, safe places to stay.

LAHSA officials told KPCC the agency has plans to improve shelter quality in L.A. The status quo, however, is not pretty.

Rats, roaches, bedbugs, mold

Craig Aslin tried the whole homeless shelter thing, he said.

Specifically, he tried The House of Hope, a boarding home in Jefferson Park.

"It sucked," he said. "I got [eaten] up with bedbugs."

So Aslin left and ended up in a tent on a hilly median off Franklin and Vine in Hollywood. Why? He says his tent is cleaner, he doesn't have to deal with people he doesn't like, and he can come and go as he pleases.

"I live better now than I did then, I mean for real," he said.

Tents are pitched near an offramp and freeway in Hollywood, California, on Friday, March 16, 2018. Residents there say they prefer living outside to using a homeless shelter where couples will have to be separated and strict scheduling is enforced.

A 2017 public health inspection of The House of Hope, the shelter Aslin left, did not find bed bugs. It did find 17 other health code violations, including evidence of rats, roaches, suspected mold and issues with waste storage and disposal.

The public health department said it does follow-up inspections and sends compliance letters to shelters. It does not, however, shut shelters down.

"If compliance is not met, enforcement proceeds to the city or district attorney requesting a criminal complaint," the public affairs department said in an email.

The House of Hope is one of many emergency housing options in the county that does not rely on government dollars; that means it's operating with very little in the way of oversight.

Even in shelters that do receive public dollars, complaints of unsanitary conditions, vermin and pests are common.

At a shelter run by Volunteers of America on Skid Row, LAHSA monitors found "water leaking from the walls and underneath the toilets" in the bathroom, toilets that were "not secured," and a broken, leaking faucet.

Another VOA shelter in South L.A. was found to have visible damage on floors and the walls and ceilings.

One center also did not have grievance forms for clients to complain about its conditions — a requirement of its contract.

Orlando Ward, executive director of external affairs at the VOA-Greater Los Angeles said the organization has made improvements after having recently taken over the shelter space from another organization.

"We house close to 400 people between the two shelters," he said. " As you can imagine with such high traffic numbers, maintenance and cleaning was and is a resource-intense undertaking."

Sanitation, he said, has improved in the past year. And new funds from Measure H have helped the organization make changes in its shelters, including staying open 24 hours a day and offering more services on site.

At the Russ Hotel in Downtown L.A., a Department of Mental Health client reported bathrooms that were "trashed daily" with toilets that "don't flush." Another client reported cockroaches.

A client at the Testimonial Community Love Center in South L.A. complained of cockroaches in August 2017.

In an LA Family Housing Shelter, LAHSA monitors found "unacceptable conditions" and "a lack of supervision over rooms." In one Boyle Heights shelter, monitors found the "walls were covered with Crayola and/or marker writing" and a chicken incubator. Another room was "extremely dirty." A third had "foul odors" coming from it.

LA Family Housing has since cleared those complaints with the agency.

Eve Garrow, who works on homeless issues for the American Civil Liberties Union, said she's heard complaints of homeless people getting sick in shelters with body lice, head lice and other communicable diseases, like MRSA, an infection that is resistant to treatment with many antibiotics.

"Mold in the bathrooms, blood on the walls, just a variety of issues that are really unacceptable," she said. "People with disabilities may try to use shelters and very quickly decide they're unable to manage their mental health conditions in those shelter spaces."

'Dangerous as heck'

Lorenna Taylor went to Samoshel, a Santa Monica shelter that resembles a large tent, in 2016 after having neck surgery.

Almost immediately, she said, another client harassed her. The woman, Taylor said, would follow her to the bathroom and started telling other people in the shelter Taylor was actually a man.

"I would have left, but I could barely walk," she said.

She complained to staff, but "they told me, you need to be the bigger person," Taylor said.

Eventually, there was a physical altercation between the two of them outside of the shelter. Neither woman was convicted of a crime in a subsequent court case. But Taylor said the entire experience left her with trauma.

"There's no safety," she said.

Living in close quarters can breed conflict, said John Maceri of The People Concern, which runs Samoshel. He said his staff intervened multiple times in Taylor's case.

Many homeless people told KPCC they were victims of theft, harassment and even assault by other clients in shelters, and that staff were either indifferent to or untrained to handle the conflict.

"The shelters are dangerous as heck," said Pepper Pilar, who rides a bike covered with Dr. Pepper stickers around Hollywood. "At least out here I have friends to watch my back. In there, they [will steal] your stuff."

Pepper Pilar talks about experiencing homelessness and spending time in a shelter on Friday, March 16, 2018. Pilar ended up homeless after a series of hardships and a relationship that ended left no other options.

Los Angeles Police Department records show that some shelters are visited frequently by officers. A VOA shelter on Broadway in South L.A. had 138 LAPD visits between Jan. 1, 2017 and the end of April 2018. Another VOA shelter had 197 visits.

"The LAPD visits are largely due to client crisis situations as well as calls from shelter staff when client safety is compromised," said Ward of VOA. "Some would argue that is better that people experience trauma at a staffed facility than on the streets where the outcome is less predictable."

'No one noticed'

Safety and violence are just one concern about quality of care. Former shelter residents also told KPCC they didn't have faith in medical services.

Andria McFerson, a former Samoshel resident, said that clients in the "medical ward," where people with severe medical needs are housed in proximity to a staff nurse, are not checked on regularly.

"My friend died there and no one noticed," she said.

Her friend was Charles Waldron, a Vietnam War veteran. An L.A. Coroner's report found that he died of a heart attack at the shelter on Jan. 24, 2016.

Waldron was staying in the medical ward, a room with six metal twin-sized beds. He'd been at the shelter about seven months.

"Staff saw decedent on 1/23/2016 around midnight in the common area of the shelter," the report said. At noon the next day, "staff discovered the decedent unresponsive and dialed 911."

Paramedics, who found Waldron with red foam coming out of his mouth, beyond resuscitation, pronounced him dead 11 minutes later.

Maceri of The People Concern said it's not unusual for clients to skip a meal. He said Waldron's medical needs were not severe enough where he needed to be checked by medical professionals daily.

"There would not have been a medical reason to force Mr. Waldron to wake up from what staff assumed was him sleeping in after being up late the night before," he said.

The coroner's report described his corpse as in the stage of "early decomposition."

No recourse and fears of retaliation

Other homeless people said shelters didn't work out for them because they were told to leave, often after running into problems. And they said they had no recourse.

Robbin Nugent was kicked out of Samoshel in March after not showing up at the shelter for 68 of the 170 days she was a client. If she wasn't going to use her bed, the program told her, they'd need it for someone else.

The problem: her boyfriend, with whom she's four months pregnant with twins, was also homeless. He'd just graduated from a drug rehab program and was back on the streets.

"If I wasn't with him at night, I think he would mess up," she said.

Robbin Nugent was asked to leave a Santa Monica shelter for not utilizing her bed enough, so she packed her belongings into a rolling trash can. Nugent is pregnant with twins.

Rina Palta / KPCC

So she left the shelter to stay with him.

"They were like, 'What's it going to take to get you back into the program?' And I was like, 'Get him off the street!'" Nugent said. "It's my babies' dad. If he messes up, then all things go to hell."

She said Samoshel told her they didn't have room for him and didn't offer any referrals to shelters that might.

Nugent, still pregnant, and her boyfriend are now staying in a tent in an alley behind a Santa Monica restaurant.

Maceri said clients are expected to use their beds the majority of nights they're in the program and that shelter "staff spent nearly six months attempting to work with Ms. Nugent to help her be more comfortable in the shelter."

The decision to kick someone out of a shelter should be subject to outside review, said Olga Zurawska.

Zurawska, a filmmaker who found herself homeless several years ago, said she herself was kicked out of Turning Point, a Santa Monica shelter, in 2016.

Now an activist for the rights of homeless people, she said she was targeted for speaking up about shelter quality issues. People Concern, which runs the shelter, said it helped place her in permanent housing and her allegations are untrue and have been thoroughly investigated by multiple agencies, which found them to have no merit.

She said behind the dispute about her stay at Turning Point, is a bigger issue: there wasn't an outside body to step in and provide a neutral assessment.

It goes to the patchwork nature of oversight in an industry — homeless services — that is growing rapidly. Because the shelter she stayed in didn't receive LAHSA funding, the grievance she filed with the agency bounced back. Turning Point did receive Department of Mental Health funding, but Zurawska was not a mental health client. That meant she did not have recourse with that agency. Eventually she complained to the city of Santa Monica, which helps fund Turning Point, but she said that was a dead end.

Alisa Orduña, Santa Monica's senior advisor on homelessness, said complaints about the shelters it funds are taken seriously. But first clients are required to exhaust whatever internal complaint system the shelter has before turning to the city.

Zurawska said the grievance process was confusing and hard to navigate.

"This population has no rights and no voice, really, and somebody has to do something about it," she said.

Garrow of the ACLU agrees that clients need an accessible, visible, neutral third party to appeal to if shelters are going to be more effective going forward.

"Staff really have too much power over clients and clients really have no recourse when staff treat them in a denigrating or disrespectful manner other than to submit a complaint to the very organization that's mistreating them," she said.

For its part, LAHSA, which administers the majority of homeless service contracts in the county, does not have a uniform policy on when it is appropriate to terminate a client from a program. The agency does review each shelter's policy, if it funds the shelter, said Chris Callandrillo, director of procurement and performance management. It does not have reliable data on how many people are kicked out of shelters.

Shelters do improve — when they want to

The startling claim was deep into a client satisfaction report filed on Jan. 5, 2018 by a Department of Mental Health client. The client gave the shelter run by the nonprofit LA Family Housing largely high marks when asked whether to agree or disagree with statements like, "I have generally positive interactions with staff" and "I receive toiletries when I need them."

Then in the comments section, the client wrote, "Someone got stabbed in their room. This place feels like a jail with an open door."

Stephanie Klasky-Gamer, the president of LA Family Housing, confirmed the stabbing.

"It was an incredibly sad — and scary — but sad day here," she said.

It was also a learning opportunity. The shelter switched security companies — bags were already searched and people searched with a wand on entry, but a knife had gotten in.

The agency also revamped its procedures for checking clients, from "every person, every day," to "every room, every day" — meaning staff members now need to enter every room on the property on a daily basis to check on clients.

"It also allowed us to see things that were getting in that shouldn't have," she said.

None of those changes were required by the myriad agencies that monitor LA Family Housing: the Veterans Administration, LAHSA, the L.A. County Department of Mental Health, L.A. County Department of Health Services, several individual cities and the U.S. Department of Housing and Urban Development.

Other shelters may also want to improve, she said, but might not have the expertise or resources to do so.

"I would not say that any of our colleagues don't care," she said. "I think when you have really limited resources, there are places you cut back."

Klasky-Gamer said auditors visit the shelters roughly three times a week, generally performing one of three types of check: financial audits, programmatic audits and physical audits. There's so much monitoring that the space-crunched agency even has a room dedicated to files in its main campus building in North Hollywood.

She said she wishes one agency was tasked with taking the lead on auditing.

"But I don't begrudge oversight," she said. "These are public dollars and this is a public benefit."

Some major issues are not addressed, however, in all the monitoring.

LAHSA reports do not directly address safety issues beyond emergency evacuation plans, fire extinguishers and cleanliness. The agency said it requires shelters to report incidents of violence and then passes that information to whatever entity — like the city or county or federal government — that funds the shelter's contract.

Orlando Ward of the VOA said the decentralized system for regulating shelters can be frustrating.

"We may suffer from not only a lack of a uniform set of standards, but differing levels of accountability and, in some instances, a lack of direction," he said.

New York City, Philadelphia, and San Francisco have "cabinet level" officers dedicated to addressing homelessness, he said, which helps them organize and build a common mission and set of best practices.

L.A. has nothing comparable. There's more coordination than ever before in L.A. but not enough.

"We still must build a common vision with 15 council districts, a mayor and five county supervisors," Ward said.

Callandrillo said such a system would be hard to reproduce in decentralized Los Angeles, with its numerous municipalities, multiple funding sources for shelters and wide geography.

"With the small city of San Francisco, it's doable," he said. "Within a region like L.A. County, which is 400 square miles, it's just not a manageable model. And to do it regionally, like we do other services, would probably cost a lot of money."

It's unclear what it takes for a shelter to lose its contract with LAHSA, which works with dozens of agencies. Callandrillo said that it's happened three times in the past four years. Even as thousands of beds sit empty, the overall number of available beds is too small to risk losing them.

"Typically a shelter provider owns the site or holds the lease for a site, so if we're cancelling a contract, often we're cancelling the availability of shelter beds in an environment where we have very few shelter beds," he said. "We try to work with our providers to not have to do it."

Alice Myles, 61, used to be a nurse before becoming homeless. She tried living in shelters, she said, but her belongings were stolen and she didn't like being around fights.

Susanica Tam/For KPCC

Callandrillo said the problem of unused beds is "systemic," and less about an individual shelter than how people get and find beds.

"It's not for lack of need," he said. "One of the main issues is connecting people to available shelter beds."

A person might walk into a shelter in Santa Monica that's full, while across town, there's an available bed.

LAHSA is working on a way to better track available beds so that providers can immediately direct clients to them, Callandrillo said.

He said LAHSA has posted a position to create that system, but has not hired for it yet.

What happens next?

As these conditions persist, the push is on to rapidly expand L.A.'s shelter system to accommodate a growing population of homeless people — all amidst a housing market that makes the region's larger goal of finding everyone a long-term, affordable place to live more challenging by the day.

L.A. County and the city of L.A., through Proposition HHH and a new developer fee for affordable housing, are putting hundreds of millions of dollars into the construction of permanent housing. Providers, however, are still struggling to find enough spots for clients, and construction will take time.

In the meantime, L.A. Mayor Eric Garcetti has proposed funneling $20 million in city funds into creating "temporary" homeless shelters in each of the city's 15 council districts. A neighborhood that accepts a shelter, in turn, has been promised additional sanitation resources and police attention to ensure that it stays free of encampments.

"Every homeless Angeleno needs a safe, clean, place to sleep at night," Anna Bahr, the mayor's deputy press secretary, said. "Each new site will have unprecedented service delivery: 24/7 security, mental health professionals, employment specialists, and anti-addiction experts. The mayor's office will be monitoring each site closely, to ensure they remain safe and clean."

L.A. County is also poised to shift more funds from Measure H, a new quarter-cent sales tax for homeless services, into interim housing like shelters.

LAHSA has recently upped the rate it pays shelters to improve quality. That money is intended to fund more robust services and amenities on site — what the industry calls "bridge housing."

It's a key change if the goal remains finding permanent housing and jobs for as many of the region's homeless people as possible.

The move appears to have merit. LAHSA figures show that for the past year, about 39 percent of those in bridge housing have moved on to permanent homes. For those in traditional shelters, the number was 17 percent.

About 2,000 clients were in bridge housing during that period, while 12,000 lived in standard shelters. In all, close to 60,000 people lack permanent housing in the county.

The ACLU's Garrow says the goal of getting people back on their feet and into permanent housing is not easy. That makes conditions in shelters that much more important.

"The promise is that they're temporary, but so often it's a broken promise," Garrow said. "We have to ensure that shelters are humane and held to the highest possible standards because people will be living in them for a long time."

Alex Derosier contributed to this report. This story was made possible with help from the Fund for Investigative Reporting.

Good morning! We need CD13 assistance with parking enforcement. Our food service MUST be able to unload/drop off in front of the building and they are giving us a hard time.

Can you please assist?

Thank you!!

Hi Juan,

There was some significant dumping that took place on Madison Ave and Beverly.

We submitted a 311 request (#1-954750501).

Hoping to put this on your radar - we're concerned there might be hazardous materials within the dumping area.

Thank you!

Hi Lakesha and Tescia,

I hope all is well.

There are currently a some tenants that might be getting evicted soon. Many of them state that their only option is going to be homelessness if they are evicted.

What resources can we make available to them as they are going through the process?

Could we possibly coordinate a meeting/outreach to inform the tenants of the resources that would be available to them?

Many have children so if there is anything we can do to help or provide information it would be appreciated.

Please let me know if either of you could jump on a quick call to discuss possible next steps.

Thank you both for your help and attention to the matter.

We thank you in advance for all your help.

Hi There!

Yes, PATH has a prevention program to assist folks who are being evicted for non-payment of rent. Jesus Torres is our point of contact for that program and he can also triage/refer families to our family program prevention department. Jesus could you please give Juan the information of how folks can connect to our program? Thank you so much!

Hi Dave,

No worries. I'm CCing some experts on this subject -- Jennifer Hark-Dietz with PATH (People Assisting the Homeless), and Kelsey Madigan with LAFH (LA Family Housing).

Jennifer and Kelsey,

Dave Proulx works for USA Hostels which owns a property up the street from 1533 Schrader Blvd. Dave and I had a great conversation the other day regarding the proposed temporary bridge housing facility on Schrader. Please see below for his question regarding how one gets placed into bridge housing. Could you shed some of your expertise on this?

Good Morning,

Thanks for reaching out - typically Bridge Housing means they have a housing subsidy matched to them already (could be Section 8, rapid re-housing, etc.). I am not sure if that would be a requirement of the Bridge to Home initiative, but the idea is that they work closely with their supportive services team to identify housing as soon as possible.

Hope that helps, please feel free to reach out if you have additional questions.

Thank you,
Jennifer

Hello Allan, Christina, and Jennifer,

I am not sure if this process has taken place, but I would like to ensure that PATH (service provider) for the Schrader temp shelter project is included in conversations moving forward with the final tent design.

- Allan or Christina, please advise on next steps so that Jennifer and her staff can provide their feedback. Should we touch base on a quick conference call this week?

- Jennifer, can you let me know your availability between tomorrow and next Tuesday? I would like to discuss next steps with the contracting process. ***Note: This call will also include Dan and Christina.***

Hi Juan,

I wanted to thank you for joining our meeting last week, I know we are all looking for solutions to help increase safety in our neighborhood.

I also wanted to make sure you were aware of a fire in the encampment that occurred on Friday evening at approximately 7:30pm. After discussing with the individuals living on the street they shared that two tents were set on fire as part of the ongoing gang activity we have been experiencing. The fire department responded and no one was hurt, but we continue to feel the increased violence on Madison and Oakwood.

I know Veronica Perez may have shared this with your department yesterday, but I also wanted to send details via email.

Please let me know if you have any questions.

Thank you,

Jennifer

Hi Jennifer,

Thank you for hosting the meeting. We did get the update from Veronica and we have spoken with LAPD about the incident/s. We are all scheduled for a meeting next week to further discuss this area and the safety concerns.

I still do not have a service date from Sanitation but as they confirm I will pass along the information.

See you both soon.

For 9am Call - DRAFT Talking Points re: Schrader Lot & Thurs 5/24 Coffee with Parents

Dan Halden <daniel.halden@lacity.org> Tue, May 22, 2018 at 8:48 AM

Hi all,

For reference for our call in a few minutes. Subject to change/be amended based on the call. (I'll send out an updated list after the call.)

DRAFT TALKING POINTS

- Approximate number of beds: 70+
  - o Male/female, adults only

- Programmatic model: "Bridge Housing"
  - o Residents are pre-placed into the program. It will not be the type of program where people line up and are waiting to get in.

  - o **CD13 IDEAL:** Focus will be made on homeless population **within the immediate area** of Hollywood.

  - o A recurring question is, "Will residents be forced to leave during the day, causing people to loiter in the neighborhood?" This is TBD, based on the operator; however, this type of operation would run contrary to CD13 goals for the facility, especially given the design emphasis on "recreational space."

- 24/7 on-site security

- **Need clarification re:** Outside drugs/alcohol

- On-site case management, restrooms, laundry, pet area

- **Neighborhood Security:**
  - o Once the facility is in place, the surrounding area, including the school, will receive the following resources:
    - § CSI cleanup 1x/week
    - § HOPE team 4x/week

- **Voluntary Storage:**
  - o We are investigating possibilities for voluntary storage that are not necessarily on the Schrader lot itself. We have inquired with Blessed Sacrament (nearby parking lot) but this would likely have to go through the Archdiocese – a lengthy process. There is also the possibility of mobile storage.

Hi everyone! Please see the below information that I will use as a guide for our call in a few minutes.

Homelessness Session

TIME ALLOTTED: 1 HOUR

WHO:

- LAPD - Monique Contreras
- LASAN - Gabriel Miranda
- CAO - Meg Barclay
- United Way - Tommy Newman
- PATH - Tescia Uribe
- Safe Parking LA - Scott Sale

PURPOSE: The purpose of this sessions is to inform and address resident concerns surrounding homelessness in East Hollywood/Hollywood.

OUTCOME: By the end of the session, guests will have a better understanding of:

- How to report an encampment, and what legal restrictions exist when reporting
    - The encampment removal process
- The causes of homelessness - what is adding to the problem.
- What is being done to mitigate homelessness in CD13 and the City.

PROCESS: To do this, we intend on holding a panel discussion, followed by a Q&A Session. The panel should follow the following format:

- **5 Min** - Overview of how to report an encampment - ***LASAN***
- **10 Min** - Overview of larger strategies (Measure H, Measure HHH, A Bridge Home, etc.) - ***CAO / United Way***
- **5 Min** - Overview of how CD13 fits into these larger strategies (PATH expansion; Schrader; Safe Parking in Hollywood and Echo Park, etc.) - ***CD13***
- **40 Min** - Questions from audience - ***CD13 to facilitate/moderate***

QUESTIONS FOR FACILITATION/CONSIDERATION:

- When a resident sees an encampment, how does he/she report it?
- If an encampment persists for an extended period of time, which agency should stakeholders engage with to get answers?
- What are some examples of Measure H, Measure HHH, or A Bridge Home already paying dividends?
- Can PATH share some specifics on its two new bridge housing sites in Hollywood - YWCA and Schrader - as well as its expanded PSH on Madison?
- Other than providing space for people living in their vehicles, does Safe Parking work with service providers as well?
- What is the effect, if any, of Safe Parking on the surrounding neighborhood?
- Generally speaking, if a citizen wants to "get involved" or be part of the situation, where should he/she start?

Fire Started by homeless encampment infront of our property

Hi Juan,

I am writing on behalf of a concerned business owner. Sunday night an electrical pole infront of our property at 310 N Madison was set on fire. We discovered it when we came to work this morning. Our internet is down and Spectrum came out and alerted us to the down power lines.

I have attached photos below.

Madison Ave and Oakwood have been increasing dangerous we've had shootings and now are being threatened by fire.

This was directly infront of our property and I found burnt embers in our parking lot next to our business owners car.

All the businesses on the street have been affected and it's a scary situation.

I wanted to let the city know. These encampment are growing we feel pretty powerless in the face of the increasing threatening environment.

Hi Carmel,

This location is scheduled for another service day on Thursday. I will flag the debris to Sanitation to see if they can address before then. We are working closely with PATH in addressing the on going issues in the area and more resources have been allocated.

I am available to schedule a call if you wish to further discuss. Let me know what works best for your schedule and I should be able to accommodate.

Thank you for reaching out to our office, I hope you can make the next Neighborhood watch meeting to discuss some of the updates we have been working on .

Hi Juan,
Thank you for responding. Maybe we can set up a phone call the first week of May. I am on the east coast and won't be back until May 2nd.

Do you know if the city is going to replace the light pole? I am afraid it's been weakened by the fire and could fall or be less stable in the case of future vandalism.

Thanks for looking into this,
Carmel Ni

Hi Brandon,

Please see the attached petitions for the one way along Oakwood.

Can you please review and let us know what the next steps would be?

Thanks for all your help.

Hi Juan,

It was great seeing you on Friday!

I've attached the signatures we've gathered for the one-way on Oakwood.

The major group of people we're missing is the owner of the complex on Oakwood between Westmoreland and Virgil (there may be multiple owners). Do you know who that might be?

The quality of the PDF isn't great, so please let me know if I need to circle back with anyone to get new signatures.

Thank you!

Subject: Problems in my neighborhood
To: "councilmember.ofarrell@lacity.org" <councilmember.ofarrell@lacity.org>

Mr. O'Farrell;

I live in the building at 346 N. Vermont Avenue, and I remember the meeting you set up with my building awhile back as you were gaining this office. The "Homeless Cops" crew came and many tenants in my 80 unit building were there for the talk.

Sir, the homeless problem here is worse than ever. The vacant bulding across the street from me has caught fire several times, as the homeless set up camp inside and start fires. A large portion of that derelict building is now burnt through, and the sun shines into the top floor, with all the windows broken out. This building is right next to the Vermont/Beverly Metro station. I would point out that three days before the big fire I called LAPD front desk and reported that there was no front door on that building, it had been ripped off and people were coming and going through the building. Lot of good my call did, huh?

But, out my west facing window I see at least fifteen tents up the sidewalk on Oakwood, the street that feeds onto the 101 freeway on ramp. That block is a gigantic trash heap, and the people in those tents walk all over Oakwood like it was an open plaza, paying no attention whatsoever to the traffic on the street trying to get on the freeway. Meanwhile the blocks behind my building are lined also with tents and heaps of garbage, not to mention the drugs and crime and car break-ins. I saw a man standing on the sidewalk in front of the Ron Hubbard building shooting up one night, standing on the sidewalk on Vermont Avenue with his sleeve rolled up, holding the syringe and injecting drugs.

I LIVE HERE!!! My rent just went up again, and this neighborhood has become utterly disgusting, unhealthy and unsafe.
I sympathize and understand that these people are people. I cannot do anything to help them, as a private citizen living on a Disability income. But to allow them all to live out there, with none of the amenities of a housed person they inflict all their problems on the neighborhood, including mental illness and crimes.

I hope your office can look into this. Ironically, there is a PACE building two blocks east of here, and the streets surrounding are all lined with filthy tents and garbage.

John Glazar

Hi John,

My name is Juan Fregoso, Field Deputy for Councilmember O'Farrell here in Rampart. He asked that I follow up on your email. I was at the meeting with the LAPD Hope Team. I understand the tents are still there but we have been working with Sanitation to get additional resources please PATH has been working to keep some of the trash in order.

The homeless situation throughout the City is the number one issue we are working on. I will work on getting this area scheduled for another clean, but please keep reporting the encampment to 311. They have additional resources to help with clean ups.

We are looking at overall changes we can make to the area to help with the issue, but we are still working on identifying funding.

I would encourage you to join the Neighborhood watch meetings with some of your neighbors, the next meeting is in June. Please follow up with Brigid Kelly <BrigidK@epath.org> regarding more information about joining the Neighborhood watch and getting updates to what we are all working on.

If you want to schedule call to further discuss please send me some dates/times that work for you next week and I should be able to accommodate your schedule.

Thank you again for reaching out. I look forward to seeing you at the next Neighborhood Watch meeting.

Hello Hollywood Outreach Collaborative,

The VA has reached out to our area. They have a Veteran who is part of their VASH program (VA Supportive Housing) who was about to be housed, but went M.I.A. His daughter reports that the veteran is potentially staying under a bridge in Hollywood. Unfortunately, that's the only info they have been able to gather. He does have an HMIS/Clarity profile with a picture, so you can see what he looks like. If anyone encounters him, please let me know, so we can provide his location to his VA VASH team.

Hello, partners --

I hope you are having a good week! I am reaching out to see if you are able to participate in our final CD13 "Community Conference" taking place on **Saturday, November 17th, 2018 at Los Angeles City College from 9:30 AM until 12:30 PM.**

The Community Conference is a forum that gives folks the opportunity to hear directly from City Departments and other agencies on issues impacting Hollywood and East Hollywood. To do this, we will be hosting two panel discussions: one on housing issues, and the other on the situation surrounding **homelessness**. I'd like for the homelessness session to focus heavily on our efforts to bring the Bridge Housing project to 1533 Schrader Blvd, which is why I'd be thrilled to have participation from all of you: **LAPD, LASAN, Hollywood 4WRD, PATH, The Center, and United Way!**

In addition to the two panel discussions, we will have tables and booths set up for residents to ask representatives of City Departments questions about things like planning, sanitation, sidewalk improvements, pending legislation, traffic issues, etc.

Please let us know if you can join us for the homelessness session, and I will be in touch with you to coordinate logistics at a later time. We anticipate **the panel to last from approximately 11:00 AM to 12:00 PM.**

Keep me posted... Thank you! :)

Hi Brittany,

Thank you for the update regarding the Rodriguez family. As I mentioned, I will be out of town starting Thursday through the 22nd.

I wanted to loop you in to our Planning Director Craig Bullock. He has been working with me on regarding this case and will be a great resource while I am out of the office.

Craig,

Emeet Brittany Hewitt, she is the caseworker who has been helpling the Rodriguez family in finding housing. She provided the following update regarding the housing search:

Tomorrow I'm going with Robert Rodriguez to tour and apply to affordable housing units for seniors. Our tentative plan is to apply to multiple of those units and move him into temporary housing until he is off that wait list. Temporary housing in which *we can get him and Maria a 1B apt and pay for security and utility deposits and 5 months rent.*

Tomorrow I will further present this plan to Robert.

She has been great throughout the process. I hope you two can connect soon over the phone to touch base.

Thank you both for your help. Ill be available tomorrow if either of you want to connect.

Good evening,

Thank you for the introduction, Juan, and please do enjoy your vacation!

It is nice to meet you, Craig. As written in my message to Juan, Robert Rodriguez and his wife Maria toured two units for elders affordable housing. The plan still stands as applying to various senior affordable housing sites and secure interim housing while awaiting a spot off of the wait list. Robert and Maria loved the senior living site called Reflections on Brittania.

Some of the barriers for finding housing thus far, just to keep you in the loop, include that both Robert and his wife are adamant on securing a 1B apartment. This is why we have turned to affordable housing to accommodate this need. Although they are in their 80s, they would like to live somewhere cosmopolitan and close to public transit as well. They have ACCESS cards too. Through much discussion, the Rodriguez family's budget for a 1B is now $1,300.00. The PATH Prevention team has them in mind for a Section 8 voucher when HACLA provides some for PATH in the next month or so, however there are many applicants, even within PATH.

I will work closely with these senior living affordable housing sites property managers to see wait list status. It would be ideal for them to be off the wait list in the next few weeks, sign a lease and then PATH can provide a hotel for Maria and Robert as they await a vacancy, however the more likely route is finding interim housing in the meantime.

Please feel free to reach out with any questions or concerns, either via e-mail or by phone at 323 – 578 – 2160, as I am here to help! I can also further explain the PATH Homeless Prevention program that they are enrolled in.

Have a great weekend,

Brittany Hewitt

Friends,

I have some news to share with you this morning. The office of Councilmember O'Farrell is pleased to announce *HEART of Hollywood*, a new long-term strategic and creative initiative which will focus on promoting economic growth, world-class design, and a strong sense of place and community in the historic core of Hollywood.

I encourage you to read our press release below, which has some initial details on this initiative. You can also check out this article:https://beverlypress.com/2018/10/ofarrell-announces-heart-of-hollywood-project/

We will have more to share soon, over the coming weeks and months. But the main detail I can provide now is that, after four and a half years as your Hollywood field deputy, I will be moving on from my current position and transitioning into a new role as the Director of *HEART of Hollywood*.

Serving as your field deputy has been an enormous privilege, and I am very proud of the work we have done together. Though any change can be bittersweet, I am excited to be able to continue and build upon our accomplishments in my new role, with this new initiative.

What does "HEART" mean, you might be wondering? It means that our focus will be on the literal and figurative *heart* of Hollywood, and that the priorities of this initiative will be to value our **History**, grow our **Economy**, celebrate the **Arts** and **Architecture**, and achieve **Results Together.**

As always, please feel free to contact me at any time. In the meantime, I'll see you around the neighborhood. :)

Warm Regards,

Dan Halden

COUNCILMEMBER O'FARRELL ANNOUNCES "HEART OF HOLLYWOOD" INITIATIVE

New strategic plan will focus on cultivating opportunities in housing, economy, and the arts in the heart of Hollywood

HOLLYWOOD - Los Angeles City Councilmember Mitch O'Farrell announced Thursday the creation of *HEART of Hollywood*, a long-term strategic and creative initiative to promote economic growth, world-class design, and a strong sense of place and community in the historic core of Hollywood.

"Hollywood is an iconic destination known the world over, but it is also a regional economic engine helping create good jobs and healthy neighborhoods," said Councilmember O'Farrell. "I've been working to ensure that Hollywood evolves into a future worthy of its rich history with a priority focus on its residents, businesses, and its signature entertainment industry, as well as its rightful place as a world tourist destination."

HEART of Hollywood will harness the converging interests in the area and zero in on Councilmember O'Farrell's priorities, including: preserving and revitalizing the historic core of Hollywood Boulevard; more housing; attracting quality investment; improving the built environment; and creating a sustainable, vibrant neighborhood where people can live, work, and have quality experiences. Leading the initiative as its Director will be Dan Halden, O'Farrell's longtime field deputy for the neighborhood, who will officially start in his new role on December 1st.

"*HEART of Hollywood* will be our long-term blueprint and ensure that our efforts are thoughtful, coordinated, and dedicated to serving the community's overall needs," said Halden. "Hollywood has a lot going for it with more than 10,000 units of housing and 800,000 square feet of commercial office space proposed or under construction. In my time with Councilmember O'Farrell's office, we have built multiple pedestrian safety improvements and preserved several historic cultural landmarks. I want to continue this forward momentum, with a focus on the shared belief that Hollywood can better serve the people who live and work here."

"Dan is passionate about all things Hollywood, including pedestrian safety, the arts, and housing," said Councilmember O'Farrell. "He has shown caring and compassionate leadership on housing our homeless, and understands Hollywood's complex challenges and opportunities. I can't think of a better person to lead *HEART of Hollywood*, which will value our *History*, grow our *Economy*, celebrate the *Arts* and *Architecture*, and achieve *Results Together*."

Hey guys. Here are contacts for Jump (Uber) and Lyft Scooters. I realized I haven't actually made contact with Wheels Bikes, which seems to be the most egregious right now in terms of deploying on the WOF. But I just sent a message via their website so I will let you know as soon as I hear back from someone.

Hello ladies!

We are planning a special SURPRISE celebration to honor our executive director, Kerry Morrison, and the President and CEO of the Hollywood Chamber, Leron Gubler. As you may know, they are both leaving their positions in the coming months and the council office has a very special honor to bestow upon them both on December 13th. We wanted to kick off the festivities with a champagne toast, cheese and crackers, at 11am. I wanted to check in with you to see if Soul might be willing to host us. It will be about 40 people and just for a short time – we will most likely leave at 11:30/11:45 to get on a Starline bus. Let me know if Soul would be available that day, and what you would charge for champagne, crackers and cheese (or similar appetizers).

Thanks!

Sean –

See below from a note regarding some confusion about enforcement within the SEZ. I thought LAPD was partnering with Streets Services & LAHSA within the zone? I'd like to ensure that I am communicating good information to the sender, and that our security is better prepared to answer accurately.

Kris –

LAPD said we should call the BID Security and report infractions by transients within the new "Special Enforcement Zone" that started just today.

But when I just tried to do that, I was told by the Andrews person who answered that that was "wrong," that Andrews has no new authority yet to enforce code violations by transients within the "Special Enforcement

Zone."

Wonder if you can get it sorted out and see if Andrews will be helping LAPD enforce the "Special Enforcement Zone," or if this is just going to all fall on LAPD? Hope this new "Special Enforcement Zone" isn't going to just be all smoke and mirrors and won't be enforced.

Dan, I forwarded everything I had to David…we did everything for them – created bylaws, and a membership list, etc. They never formed the association. I paid for an articles of incorporation filing with my credit card – sent him that. None of that was ever followed up on. He says he has an association – but it is not memorialized in any legal way. Nor does it meet – with respect to including the totality of who owns property along that alley. And, the gate has been locked now for a couple months; its not being used.

From the perspective of what the city chose to do with CRA funds – invest hundreds of thousands of dollars into creating a pedestrian alley – the vision is not being realized. I think tomorrow we should talk about how to resurrect that. The revocable permits he has only allow for tables and chairs, and they specifically say they must be placed in such a way as to ensure 7 ft. of pedestrian access.

Hi Carlee! So good to hear from you! How are you?!

Yes, unfortunately the BID ends at the 101 FWY as our eastern boundary. The area you're talking about is kind of in between our BID and the East Hollywood BID, and as far as I know, is not included in a BID at the moment. I would recommend contacting Dan Halden in Councilmember Mitch O'Farrell's Office. He is the director of the HEART of Hollywood program, and their team often does neighborhood clean-ups, so maybe they could arrange something? Sorry I can't be of more help!

Dan can be reached at: daniel.halden@lacity.org or (213) 207-3015.

Hello!

I hope you are having a wonderful start to your year. I wanted to reach out because I'm fairly certain that LaTerra Development is a member of the BID; however, our site is just outside both boundaries in terms of the CLEAN program. Do you have any recommendations on what we can do? There is an excessive amount of graffiti on Western in between Sunset Blvd and the 101; particularly along Western and Fernwood. Please see photos below. I'd love your advice on how best to address. Thank you for your time,

Hi Kerry

We can't add them to our report if we don't have them and the Committee report cannot add them if they don't have them in time. I think the option, if you believe necessary, would be for your Councilperson to amend the report on the Council floor adding the MTA parcels to the petition level. That assumes my office has them in time to verify by the time it hits Council. You would need to reach out to your Council Office to see if they would be willing.

This incorporates subway related properties, along with W Hotel and 1600 Vine, both of which are supportive (and pay their assessments through pass throughs). Our Economic Development Committee hearing is April 24. Could the MTA petitions be added to the amount as the ordinance of intention heads to council, which will be after the April 26 MTA hearing?

Kerry,

We can accept petitions up until the time this is approved, signed and submitted to Council.

I don't want to mess this up. To be on the safe-side, we can accept petitions until this Thursday (4/12/18) at the latest unless Shannon or Holly tell me differently.

We absolutely have to be on the April 24th Economic Development Committee's agenda and have everything approved, signed and in place prior to their agenda setting meeting which could be as early as next Monday but we have to have staff and others available to verify the petitions and approve the final documents before submission.

We also have a big mailout for the Arts District Los Angeles PBID renewal during at this same time (in Council today for its ordinance of intention). Also, Fashion District and 5 other BIDs are right along side yours right now. With so many this late in their renewals we're stretched very thin.

Thanks.

Dave and staff,

I mentioned this to you a couple week ago – I had seen this demo-ed at the IDA Trade Show in San Antonio. It is very cool – but they are somehow blocked out of entering the LA market due to the city's contract with J.C. Decaux for street furniture, information kiosks etc.

This is a web-based system to allow for interactive communications for visitors/customers to direct to a whole host of resources – public and private. You can also do online surveys, pedestrian counts, photos, etc.

However, they are trying to make inroads into the LA market– and there might even be opportunities (as we discussed in the meeting) to put these interactive kiosks on private property.

They have a demo set up in West Hollywood this week – Dave, it would be great if you could go as a board member. Rich and/or Devin, would love for you to see this also. Here is a link to their website, and the little video they have provides a quick overview of the capabilities. Dan, I'm copying you because they specifically said they had showed this to Mitch at the League of Cities Conference….maybe someone from the council office might want to take a look

https://www.ikesmartcity.com/

You can see the hours they will be at the Pacific Design Center below – Tuesday through Wednesday.

Hello Kerry,

I hope you had a great time away from the office. I am writing to follow up on the below discussion to demonstrate IKE for members of your staff. We will have the kiosk set up at the Pacific Design Center, Blue Building, on Tuesday and Wednesday. A member of our team will be there all day on both days, so please let us know what time during those two days will work for members of your staff and we'll be happy to demonstrate the kiosk to them.

Additional Details:

Blue Pacific Design Center building at 8687 Melrose Ave, West Hollywood, CA 90069 in the Conference Center located on the 2nd Floor.

Guests can park at PDC and we will validate parking. The demo will be available from 8:00am on Tuesday the 11th until 6:00pm on Wednesday the 12th.

Hi Jibran, so glad we bumped into each other last evening. What would be the most convenient parameters during the Dec 11-12 timeframe to bring a few folks by to see this in West Hollywood?

It's a busy week – but if you could isolate two choices where there might be an hour to stop by, I can make something happen.

Hello Kerry,

It was great meeting you last night. Thank you again for the kind words about IKE. We actually demonstrated the kiosk for Councilman O'Farrell in November at the National League of Cities and he expressed great enthusiasm for the project as well.

As we discussed, we are working to build stakeholder support for IKE in LA and counting the Hollywood BID among our supporters would be a great accomplishment for the project. We will be bringing a kiosk to WeHo on December 11 and 12 to do demonstrations for City Council members. Could we schedule some times to have you and members of your staff come by during those days to get a demonstration as well?

Also, you can see a short video about IKE at the following link, in case you want to share: www.ikesmartcity.com.

Hi Dan,
Katie Seymour is now working in management at Eastown (she was formerly with the Sunset + Vine Apartments and served on the Sunset & Vine BID board in that capacity). They are having issues with tour vendors setting up kiosks in front of their property on the Walk of Fame. Is there something we can do about this? They're not supposed to be placing umbrellas and kiosks on the Walk of Fame, as far as I know.
Thanks!

Hi Dan,

Is there a way you can advise people who want to close the boulevard about the fee (donation) to Navigate Hollywood for the alert system? As you can see, there was a closure that didn't know about it and the production has closed so they won't be able to pay it. I know this used to be an issue because we don't bill until after the closure and even then we usually only bill quarterly so sometimes a lot of time goes by from the date of the closure to when we send the bill. It's best if they can be informed up front about it.

Thanks!

Devin

Hi April,

Thank you for reaching out, however my show is wrapped for the season, and there is no way to get this paid. Since this is the first I am hearing about this, I did not plan for this in the location dept budget.

I am not against the idea or principle of this, and in fact support local community organizations, but due to the fact that my show is no longer in production there is nothing I am able to do at this time. I wish I would have been notified before the shoot date or when we went before the Hollywood Closure Committee, so we could plan to make donation. I will remember the HPOA for future shows. I would suggest reaching out to Film LA to make sure that the HPOA is known not only to location managers and scouts, but to also to permit coordinators so that this organization can get on the radar and be made part of the process.

Best,

David

Hi Devin, the illegal 'yellow' loading zone is on your side of the street in front of a souvenir and market, second store before you get to Las Palmas that has a Tour company booth in front. The same person who painted it the same morning went directly across the street at 10 AM and painted the yellow stripe also in front the Rock and Roll T-shirt store next to Stephano's Pizza. Rock T-shirt owner photographed the van and license plate. The 'White stripe in front near Starbucks is a different scenario. All of Hollywood Blvd from Las Palmas to McCadden was painted red, on the north side of the street. Because of safety issues it was suppose to be all 'red'...with the new traffic light installed. But Jeff the Startrack tour company owner cried to another person....oh well. So with the illegal vendors in front of Starbucks eating up every inch of the sidewalk there and next to the fire hydrant and directly next to the intersection with umbrellas hitting tourists in the head, somebody soon will be hurt.

Hi Kevin,

I have been looking into the issue of the loading zone on the curb near the entrance to your store. I am having the council office verify, but they seem to think the white passenger loading zone, located right in front of 6741 Hollywood Blvd., is a legitimate loading zone. Was that what you were talking about? If it's a legitimate loading zone, I don't know that there's any problem that we can solve here…

The white zone near Starbucks was told by us that because of the new installation of the traffic light, "by law", that there could not be a zone. Jeff of the StarTrek tour company cried cried. And the next thing we knew it was (law?) changed.

Hello,

The Los Angeles Promise Zone and Youth Policy Institute (YPI) is excited to partner again with the Los Angeles Homeless Service Authority (LAHSA) to coordinate the Greater Los Angeles Homeless Count in **Hollywood** this year! YPI has coordinated the count in Hollywood for three straight years, making this their fourth year leading the efforts in Hollywood. You may have received our e-blasts and newsletters in the past weeks, but we wanted to contact our LA Promise Zone partners directly and ask that you volunteer for the 2018 Hollywood Homeless Count!

Every year LAHSA conducts a point in time count across LA County to determine how many individuals are living in the streets and experiencing homelessness. The data we gather from these counts will help LAHSA and other institutions make informed decisions about the programs, services and policies they administer. With your help, we will inform our communities on the state of homelessness, bring vital community resources, and increase engagement bringing together leaders, residents, and stakeholders.

Date/Time: January 25, 2018 at 10 PM

Location: Hollywood City Hall

6501 Fountain Ave., Los Angeles, CA 90028
Parking will be provided for those who drive, however we suggest carpooling.

Sign up to volunteer HERE!

There will be a short training the night of the count.

Please consider the weather and wear comfortable clothing.

Please share our flyer (attached) with your colleagues and friends!

If you have any questions, please feel free to reach to me or Samuel Park (samuel.park@lacity.org).

Subject: Meeting re/ Hollywood Boulevard District Urban Design Plan - Feb 7 at 10 a.m. at BID office.

To: Property Owners

You may be aware that the city is in the process of updating the Hollywood Community Plan, a plan that has not been updated since the 1980's. This is an important process that will help to shape the land use and zoning policies to support the anticipated growth in Hollywood over the next 20 years.

Additionally, we were recently made aware that a remnant of the CRA, the **Hollywood Boulevard District Urban Design Plan** must also be completed. Care is being taken to ensure that there is no contradiction between policies in the Hollywood Community Plan and this Urban Design Plan. However, we wanted to ensure that you as property owners within the affected plan area for the Urban Design Plan are aware of what is in this plan, and can weigh in on it.

To that end, I'd like to invite you to a meeting at the BID office

Thursday February 7, 2019

10:00 to 11:30 a.m.

6562 Hollywood Blvd.

The consultant who has been retained by the CRA (yes, it still exists) will be on hand to present this plan update. His name is John Kaliski with John Kaliski Architects.

Please RSVP at to your attendance to

Aziz, I heard back from everyone – didn't hear from you, but Dec 11 at 9 a.m. works for everyone else.

I trust you can be there – and it would be good for you to bring Danny also. Dan and I feel that having too many unilateral conversations with people about how to best secure and make more safe the north ally is not efficient – we need everyone in the room at the same time.

Please confirm that you and Danny can be there. Dr. Anthony has offered to make his conference room available for this.

Subject: Meeting re/ North EaCa Alley

Morning — to come to consensus on some solutions to bring a sense of safety and order to the north alley, Dan and I thought it best to bring the neighboring property owners together to collaborate together. It appears that we have issues related to parking, trash, parties, noise, homeless encampments, public urination and more. We know you all would like to see a sense of calm be restored to that alley, and we know you also would like to gate it to protect it.

It would be most productive to have everyone in the room at the same time to come up with a plan to move forward.

Here are some dates for us to meet — and I think its important we all be in attendance so we can come up with a plan once and for all.

Tues Dec 4 - 9 a.m.

Wed Dec 5 - 9 a.m.

Thur Dec 6 - 9 a.m.

Tues Dec 11 - 9 a.m.

We can meet in Dr. Anthony's conference room. Please let me know if any or all of these dates work for you, and I'll get this meeting scheduled.

Thank you all,

Kerry

Subject: CCA Reflects: Mitchell v. City of Los Angeles – It's Time to Stand Up - August 2018

CCA Reflects

August 2018

CCALA.org

CCA Reflects is a monthly series where we share our insights on what is happening in DTLA and the region.

Mitchell v. City of Los Angeles – It's Time to Stand Up

Homelessness affects us all. We see every day that our city is in the middle of a crisis and that we are struggling to meet our collective responsibilities. There has been an abundance of media coverage that has thoroughly examined the issue. For example, *Dateline*'s recent special on homelessness called "City of Angels" showcased the state of our streets with a special focus on Downtown Los Angeles. Homelessness is a complicated issue and there are many reasons for the growing epidemic and why it is so difficult to solve. One of the hardships we face is the series of legal actions that has kept the City's hands tied from properly managing our sidewalks. We need to end the cycle that further entrenches the status quo of people living on the street and instead push comprehensive and thoughtful solutions that move people to interim and permanent housing.

Mitchell v. City of Los Angeles is a case filed against the City of Los Angeles in the Central District of California by the Legal Aid Foundation of Los Angeles. In April 2016, the district court issued a preliminary injunction against the City, which effectively eliminates any limits on personal goods on the public right of way, and applied the injunction only to Downtown, specifically from Spring to Alameda and 3rd to 8th Streets. The court accepted the plaintiffs' allegations as true for the purpose of formulating its order, and it held that the alleged conduct of the City raised Fourth Amendment privacy and Fourteenth Amendment Due Process concerns.

The City Council will be discussing this lawsuit and deciding how to proceed before the February 2019 trial date. The City has a few options: (1) settle the *Mitchell* case in accordance with the current injunction so it only applies to Downtown, (2) enter into a citywide settlement or (3) go to trial. **We are strongly advocating for the City to go to trial and not settle on terms that would decrease the quality of life for the homeless population in Downtown.**

Settling the case so that the terms only apply to Downtown would be devastating. This could permanently remove the 60-gallon limit on the amount of personal property established in LA Municipal Code 56.11 (Storage of Personal Goods) only in Downtown. Eliminating this limit will result in further densification of the Downtown homeless population and make it more challenging to provide housing, services and facilities to meet the current need. This will also prevent people from seeking services, reconciling with family or significant others, or actively pursuing housing and other life opportunities by making life on the sidewalk permanent.

Homeless services, facilities and housing are the answers to ending homelessness, not the precursors to allowing unlimited goods on the public right of way. The Downtown area included in *Mitchell* has the highest concentration of homeless individuals, housing and facilities. **What precedent does it set for building homeless housing and the City's "A Bridge Home" initiative if the area with the most homeless services and housing is the place without limits on goods on the public right of way?**

A Downtown-only settlement implies that those who currently have housing or are engaged in services to get off the streets in Downtown deserve less than those who live in the rest of the city. Why should people in one neighborhood be treated differently? **It is bad public policy to deny people in Downtown the same rights that we provide to other residents in the city.**

In addition, **we are very concerned that permanently setting a different standard in one neighborhood is unconstitutional and would set the City up for litigation in other neighborhoods**. Singling out Downtown is not the solution.

We believe that the City has a strong case for going to trial. For the preliminary injunction phase of *Mitchell*, Judge Otero of the Central District of California did not have to review the City's evidence. If the case goes to trial, he will have to enter the trying of facts phase and consider the City's conflicting evidence.

Judge Otero also needs to hear about the tremendous progress the City has made on homelessness since the injunction was issued in 2016. We've passed Proposition HHH and Measure H, identified interim housing sites and opened a storage facility, sobering center and the Refresh spot. We also are waiting for the $85 million for interim housing from the State surplus budget that we fought for. $20 million of this will go to Downtown, and two sites have already been identified in Downtown. **All of this progress is not recognized in *Mitchell*, and a trial would give the City the opportunity to stand up and showcase this work.**

We are at a unique inflection point where all parties are working toward the same goal of ending homelessness, and the City is at the cusp of making significant progress. We cannot let another court case get in the way.

CCA has built a diverse coalition of civic, business and community leaders – including The LA Area Chamber of Commerce, The Midnight Mission, United Way, Weingart and others – to voice our opinion on this issue and submitted a letter to the City. We will continue to share our thoughts with our elected officials, especially as we prepare for the case to be discussed at Homelessness and Poverty Committee on October 3 (tentative). Please let us know if you are interested in joining our coalition.

FW: Request for exemption from alley assessment

David and Aziz,

It looks like we won't be able to meet next week re/ the alley assessment exemption you have requested. Dan is out of town on Thursday, and John is out of town on Friday.

I'm asking April on our team to find another day, next month, when we could meet for about an hour. I want to have John Tronson there, as he was involved with the BID formation effort when the alley assessment zone was created. I also would like one current board member involved (either Chad or Even, who both served on the current BID formation committee). Dan Halden needs to be there also, because of the city's role in granting revocable permits.

I understand you may be travelling – so please let us know your schedule, and I'll have April work from there.

Thank you for your patience.

Subject: Request for exemption from alley assessment -- Meet 3 p.m. April 19?

Dave and Aziz,

I received your letter in the mail on Friday relative to the alley assessment and the request for exemption of your property.

Thank you for taking the time to put your question in writing and submit your revocables.

As you know, the staff's interpretation of what constitutes the appropriate revocable permit to be exempt from the alley assessment is different than yours. To that end, I'd like to broaden the discussion, because I don't feel authorized to make this decision on my own. I'd like to include John Tronson, who was chair of the BID Renewal Steering Committee ten years ago when the alley assessment was created, and Dan Halden, because of his understanding of this alley asset for the city, and the range of revocable permits that can be issued by the city. I'm also copying Chad Lewis, chair of the HPOA.

I appreciate that you have both signed your petitions, and we can move forward, as there is a lot on the table to try to get this BID formed. However, if the group's assessment (or the board, if that is required) is to exempt your properties from the alley assessment, we can pursue a refund.

I know Dan is out of town for Spring vacation, and I'm thinking that with Chad's travel schedule, that perhaps we try to hold a face-to-face meeting just before the next board meeting on April 19.

Let me know if that is acceptable to you, and I'll work on everyone's schedule, and see if that would be a good time.

>
> Over Permit Exclusion
>
> WHAT: Hollywood street vendors will hold a press conference to protest the designation of Hollywood Blvd as a "no vending" area within LA City's Proposed Sidewalk Vending Program. Street vendors will then collect petitions of support from visitors and tourist on the Walk of Fame.
>
> WHEN: Wednesday, June 6, 2018 at 5:00 pm
>
> WHERE: Corner of Hollywood & Highland- In front of Forever 21
>
> WHY: On Tuesday, April 17th, 2018, the Los Angeles City Council voted 11-4 to approve a framework to legalize street vending in Los Angeles. The City Attorney is now drafting the ordinance which is set to return to City Council next month in July. The Los Angeles Street Vendor Campaign (LASVC) believes this the right step toward creating economic opportunities for hard working sidewalk vendors. **However, we are concerned about the exclusion of Hollywood Boulevard. The "Operating Requirements" (Attachment 3, Page 6) of the program, recommended by the office of the Chief Legislative Analyst (CLA) and adopted by City Council, include a provision that completely prohibits sidewalk vending within 500 feet of Hollywood Boulevard.**
>
> Hollywood business groups have claimed that sidewalk vending obstructs pedestrian access to the walk of fame and Councilmember O'Farrell asked for Hollywood Boulevard to be included in a list of no-vending areas. Sidewalk vending has been an integral part of street culture in Los Angeles for many years and tourists visit Los Angeles, including the walk of fame, with an expectation to see and shop from sidewalk vendors. Dozens of vendors have been organizing to support sidewalk cleanliness and pedestrian safety and the LASVC believes sidewalk vendors in Hollywood should be part of the conversation in finding solutions to issues of sidewalk obstruction and overcrowding. Hollywood vendors and allies will be speaking on Wednesday to uplift their stories and call on the small businesses and Councilmember O'Farrell to work together to find a solution that doesn't exclude an entire group of hardworking entrepreneurs.
>
> WHO: The LA Street Vendor Campaign's driving force are the vendors themselves. To support their efforts, more than 65 organizations from cross-sectors in Los Angeles and 400 brick-and-mortar businesses have formed a coalition to advocate for a policy that supports these low-income entrepreneurs.
>

Hi Kerry -- I hope all is well! I was curious for your thoughts on this state bill that would override local regulations on vending:

FW: time to talk this week

Kerry Morrison <Kerry@hollywoodbid.org> Fri, Feb 1, 2019 at 11:19 AM
To: "Dr. Awad Anthony, MD" <aanthony@stamc.org>, "George Fahmy SAMC, CFO" <Georgefahmy@stanthonymedical.org>
Cc: Rich Sarian <Rich@hollywoodbid.org>, Kris Larson <Kris@hollywoodbid.org>, Daniel Halden <Daniel.Halden@lacity.org>, [redacted] "Sean.Starkey@lacity.org" <Sean.Starkey@lacity.org>

Dr. Anthony, I am glad we had a chance to talk this past week. As you know I am leaving today – but I feel very good about the progress we've made in ameliorating many of the issues that you brought to our attention several months ago. I am leaving you in very good hands. I hope and trust that the outcome of this effort will be your ultimate agreement to gating the alley at night – for I believe that will be an essential tool to keeping that area safe in the future.

I understand that you might be waiting to see a few more things be put into place to have a comfort level with that.

By way of this email, I am introducing you to Errol Roussel – he is the owner of Kitchen 24, and in my humble opinion, has carried a huge load these past years trying to create a collaborative around a trash solution for the neighbors there. We have had several productive meetings lately with a trash compacting expert, and he is working on a plan to bring a trash compactor to that site that will likely be more economical, and most definitely, cleaner.

You will be happy to know that Errol and Jackie Duffie and I had lunch this week – she represents the ownership at Julian Medical Building. We discussed the prospect of a new lease arrangement – that would be with Errol's landlord (and not Aziz/Danny). The lot would only be used for her tenant parking, his tenant parking, and the trash compactor. That should obviate any future concerns about that area being used for valet parking or parties.

On this email also, you'll meet Sean Starkey, who is the new field deputy for Council District 13. He is taking over for Dan Halden, who is taking on a new project for the councilmember.

Finally, Rich on my staff can be a contact person during this interim, but I'm also copying my successor, Kris Larson, who will start on Feb 25. I've been keeping him in the loop on this situation.

Thank you Dr. Anthony for bringing these issues to our attention. When I get back from my 60 days, I look forward to seeing how that area is transforming. And, I will be reaching out to you with respect to the mental health pilot I hope to be working on at that time!

Subject: RE: time to talk this week

Dr. Anthony – here is a re-cap of things I have been working on since we first began talking about the alley. I trust that you will be pleased that there is a team assembled to bring order back to this alley, and that in good time, you will work with the neighbors to secure the gate. I will hand this project over to my colleague Rich, but I want to lay this out to you, as you might not be aware of how much has been going on behind the scenes.

1. In these final days as exec. Director of the BID, I have been involved in more meetings – at least 8 - related to the Cahuenga alley solution than any other topic in the BID. I am pleased that we have made good progress – and I hope you will agree that your concerns have been taken seriously.
2. Cleaning: with our new maintenance vendor, Clean Street, we are going to get back into the regular rhythm of cleaning the alley. It begins today – you probably notice that there is an intensive deep pressure wash and graffiti abatement and debris removal underway. After this deep clean, there will be a day porter who will come through each day, and the alley will be on a regular once a week pressure washing schedule.
3. Security: with our new security patrol, they will be riding through the alley multiple times a day. Also, LAPD has started a new footbeat, six days a week. We have asked them to walk through the alley as well. We have also secured funding from the BID board to install a video surveillance camera on the Palmer Building that will allow LAPD to monitor the northern section of the EaCa alley and Cosmo. I also secured permission from the property owner to

install the camera on his roof, and the neighboring owner to provide power. I was hoping the camera would be installed before I leave, but it will be in the next couple weeks.

4. Rodents: there is currently a rat infestation associated with the dumpsters. We have secured a bid to do an initial eradication (normally, the BID would not do this, but we want to help get things under control for the good of the neighborhood) , and will ask the alley owners to proceed with ongoing maintenance.
5. Trash solution: this is where we have spent most of our time. The person who has done yeoman's work trying to coordinate trash removal is Errol Roussel, the owner of Kitchen 24. Some owners who have not paid their fair share owe him thousands in back payments – for which is he not assured of a payment. We have been working on a new solution which involves:
    a. Installing a trash compactor in the parking lot. (The trash compactor will be cleaner and impossible to break into.)
    b. Creating a payment system attached to the property owners, where they pay for the access to the compactor for their tenants.
    c. Negotiating with the owner of the lot (Julian Medical Center) to lease the lot to someone who will not use the lot for parties, valet parking, etc, but rather to allow for tenant parking and the trash compactor.
6. Permits for alley furniture. The Bureau of Street Services will be out tomorrow to inspect how people put their furniture back after the cleaning, to ensure that they are abiding by their revocable permits.
7. Parking – everyone has been made aware that there is no parking allowed in that alley. We have told the owners to work with the city to secure loading zones on the street if that is necessary. Anyone who sees cars parking there is encouraged to call a tow service.

I will call you later today.

Hi Kerry –

I reached out to our Tax Department and noticed our tax lead on these issues is out on an extended leave.

I will work on this tomorrow to see who the approriate person to route this would be; I'm afraid the time crunch will also be coupled with the fact that some folks are also vacationing this week. I'm taking a few vacation days this week but I will stay connected with our Tax Department.

Greetings Mr. Billah,

I am writing to shed some light on the video surveillance camera system that the Hollywood Entertainment District BID installed back in 2004, for the exclusive use of LAPD.

I understand that the power is down on the camera at Hollywood & Vine – and there is a need to get to the power source in the box pictured below.

I don't have any documents from 2004 – back then I know we were working with someone at LADOT as part of the team working on this camera system. Please advise how we can proceed at this point. These cameras are used by LAPD for public safety purposes, and as you know, this is a very busy intersection. I am copying in the council office as well, as they are aware that the BID has made a commitment to this camera system. Not only did we pay to install it, and update it, we also pay an annual maintenance contract that allows for this work to proceed so that the cameras are always working.

Thank you so much for considering this – please advise how I can help.

Hello, I am Henry Torres from Metro video, and the box is located on the sidewalk of Hollywood Blvd and Vine, and it belongs to LADOT, I already contacted them ,and They asked me for a Authority confirmation or document that says that we were allowed to install equipment in the traffic controller box. The engineer from LADOT I have been in contact with is bakhtiar billah and his e-mail is bakhtiar.billah@lacity.org .

Hi Kerry,

I hope you have been doing well.

The Hollywood and Vine camera has been down for a little while. We need access to the green box where the power supply for this camera is installed. We have been chasing around personnel who might give us access to the green box right next to the pole but we haven't got any success as of yet.

Can you please help us route this concern to the right Point of Contact. We will greatly appreciate your help.

Dear Danny

The process of getting the original documents which authorized Metrovideo to install equipment inside the traffic controller box at Hollywood and Vine is going to take some time, however, Hollywood LAPD officers want to be involved to give you any further information that you may need to speed up the process. They are copied in this mail.

Good Morning

We usually use a small APC 300VA UPS to protect our equipment against surges; however, I am not sure if we have it in the controller box because the person who made the installation it is no longer with us, and this my first time to servicing this location. I will be waiting for your confirmation for Wednesday.

> Hi Vahid,

I am working along with the Chamber and the Council Office on a special event to honor our departing leaders, Leron and Kerry, who are both leaving us in the next couple of months.

The Council Office is going to honor them each with their own "square" in Hollywood, and we want to invite some of our board members, in addition to Kerry and Leron and their families, to come to the unveiling of the signs. We plan to meet at a restaurant (probably Soul) on the morning of Friday, December 14 at 11:00 a.m. for a champagne toast. From there, we will visit "Leron Gubler Square" at Hollywood and Sycamore, and then to "Kerry Morrison Square" at Vine and Selma. We will need transportation from one to the other and back. I am hoping that Starline would be willing to donate a double-decker bus for this, as we may have 40-60 people attend. Please let me know if this is something Starline would be willing to accommodate.

As this is a surprise, please make sure not to mention this to Leron or Kerry.

Thank you!

I was involved in a walk-through of H/H area yesterday with LAPD and the key advocates for the ordinance (representing the street vendors) to show them the shitshow that exists out there, and how the ACE citation as the only means of enforcement is a complete joke. I think they got it - they are just trying to figure out how to keep violations de-criminalized. Too much to discuss here, but I'll brief the board on this later. We hear the city wants to have the draft ordinance in front of council before their summer recess, so this would be good timing to hear from the CD.

Kerry and Leron,

I believe I've broached this topic with each of you separately, but I need to let the cat (partially) out of the bag by way of this email.

As you wrap up your tenures, Councilmember O'Farrell has something special he has prepared for both of you, and we must share it with you together, prior to December 15th (at which point he will be unavailable through the holidays).

I need an hour of your time at one of the following dates/times:

Thursday December 13th - morning
Friday December 14th - noon-ish
Friday December 14th - 3:30 PM

I understand how busy the holidays are, especially as you train your successors. I politely request your flexibility if need be. As I mentioned, I just need an hour where you're both available; we will take care of the rest.

CCing Donelle, Nicole, and Devin, along with Dave Cano, to keep everyone (cryptically) in the loop... :-D

Please let me know.

Subject: Getting Together with Councilmember O'Farrell

Kerry and Leron,

I believe I've broached this topic with each of you separately, but I need to let the cat (partially) out of the bag by way of this email.

As you wrap up your tenures, Councilmember O'Farrell has something special he has prepared for both of you, and we must share it with you together, prior to December 15th (at which point he will be unavailable through the holidays).

I need an hour of your time at one of the following dates/times:

Thursday December 13th – morning – THAT IS OPEN FOR ME, AND I ALSO HAVE 11 A.M. BRUNCH WITH MITCH ON MY CALENDAR?

Friday December 14th - noon-ish – NOONISH WORKS, DEPENDING UPON WHERE, BECAUSE I HAVE HHH CITIZENS OVERSIGHT AT 1:30 AT CITY HALL

Friday December 14th - 3:30 PM – THE HHH MEETING WILL GO FROM 1:30 TO 3:30 – SO I CAN BE SOMEWHERE AROUND CITY HALL AT ABOUT 3:45 ISH.

I could always use another sweater!! My availability would be:

Thursday, Dec. 13 – could do 9 or 9:30 at City Hall as we have a meeting with CD4 at 10 a.m.

Friday, Dec. 14 – lunch time is not available

Friday, Dec. 14 – I could do anything from 3:30 p.m. on

Best,
Leron

Molly and Colleen,

Kerry and I have been chatting and we'd like to arrange a time for us all to meet and discuss all things "Hollywood" — specifically options for temporary shelter, permanent shelter, E6 contract, and an overall coordinated strategy across different agencies.

Might be nice to do this over a meal. :) Breakfast or lunch?

Let me know if this works for you, and if you are free on any of these dates:

Tues 3/6 breakfast
Fri 3/9 breakfast or lunch
Tues 3/13 lunch

Please let me know. :)

Cahuenga alley - time for us to meet

To: Benjamin Thompson <39467@lapd.online>, Daniel Halden <Daniel.Halden@lacity.org>, Ethan Weaver <ethan.weaver@lacity.org>

Hi friends, hope you had a good holiday.

I've got a list of priorities for me to get through this month – one of which is to make some significant headway on the alley situation.

We had committed to coming together to draft a list of "rules and regulations" to guide behavior in the alley for presentation to the group. Here are some options for us to get together – let me know if any or ALL of these times might work. We can meet at my office if that is convenient.

Tomorrow – Thursday Jan 3 – any time after 11 all day

Friday – Jan 4 – any time after 2:30

Monday – Jan 7 – between 11 a.m. and 2

Tues – Jan 8 – any time

Cahuenga String Lights - Street Closure

Hi Dan,

A Happy New Year to you. I'm reaching out to see if you might be able to provide me with any guidance. We're ready to proceed with submitting permits for our Cahuenga string light project (between Selma and Sunset), but I'm unclear how to go about closing the street for install.

Per BSS's website, our project doesn't meet their requirements for considered closures (event-based). We'll need to close the street for just a few hours during off-peak hours. Do you have a contact at the city I can talk to about this?

Thank you,

Hi Megan,

We have signed off on the Cahuenga String Lights Project with our vendor and they are hoping to get it done by the 31st of October. I wanted to know which permits I would need to make this project happen.

We will be tapping into the street lights on Cahuenga from Selma going south to 1520 N. Cahuenga Blvd. We will not need to close the street.

Please let me know how we can make this happen with the proper permits in the fastest amount of time.

Feel free to call me on my cell at any time to discuss: 323.873.9775

Thank you!

Hi Dan,

Wanted to start the ball rolling on this project and grabbing permits and such. As we discussed, the BID wants to string festoon lighting over Cahuenga blvd just south of Selma. The white circles on the map below are the light poles we will be using. We will also need to close the street, overnight of course, to erect these. Please let me know which permits I need!

Thank you for your help with this!

TO: HPOA Board of Directors

I wanted to bring to your attention, if you are not already aware, that the city released the draft EIR for the Hollywood Community Plan on November 15. Comments are due into the city on January 31, 2019

Here is a link to the city's website which has a copy of the plan. You will see references to the proposed land use map for Hollywood, zoning proposals to implement the plan and the narrative to describe the goals and policies inherent in the plan.

There is also an interactive map where you can determine the proposed land use and zone for an area you are interested in.

Comments can be submitted via mail or email before January 31, 2019.

Property owners are certainly encouraged to weigh in on the plan individually. If there are any issues that seem to be of critical import to the overall BID area, please advise, and we can set aside time at the Jan 17 meeting for a discussion. Additionally, the Chamber's Economic Development Committee will be focusing it January meeting to a discussion of the plan and you can attend that meeting as a Chamber member (Jan 15 at 8 a.m.).

As compared to the last go-round, no salient issues have come to my attention, other than the fact that the old CRA Urban Design Plans (one for Hollywood and one for Sunset Blvd) remain alive and must be reconciled with the Community Plan so there is no contradiction between the two. This was a big surprise to Leron and I when we were invited to a meeting last fall by the consultant (Prakash Pinto of Pinto + Partners in Berkeley) retained to finish the Sunset Boulevard Urban Design Plan. The council office was involved in this meeting – I will find out what process they are going through to ensure that these plans are not conflicting in any way. John Kaliski Architects is tasked with the final update of the Hollywood plan.

Here are these two old plans, which are apparently still relevant and being updated for 2019.

TO: HPOA Board

As was discussed at last week's board meeting, **there is one more week to submit comments related to the draft EIR for the Hollywood Community Plan Update**. After this, the process will move into a period of review and comment on the actual community plan. The ad-hoc committee who volunteered to work with staff on this is: David Gajda, Michael Gargano and Chase Gordon.

In the meantime, there was a meeting at the Chamber yesterday to discuss the best way forward with respect to the EIR, which is a very technical document. The consensus was to encourage letters from stakeholders in the community that essentially contain two points:

1. **Support for the adoption of a community plan in general.** This is needed, as we are limited by a plan that was last passed in the late 80's. Therefore, we are in favor of this effort, and do not want to see any more delays.
2. **Support for the Primary and Secondary objectives contained in the plan**. These are what are listed in the executive summary (which is Section 2 of the EIR). I've cut/pasted them here for you.

PROJECT OBJECTIVES

The **primary objectives** of the Proposed Plan are as follows:

- Accommodate projected population, housing, and employment growth consistent with the growth strategies of the Framework Element, including:

  - Maximize development opportunities around existing transit systems to encourage sustainable land use while minimizing potential adverse impacts,

  - Direct growth to transit hubs and corridors,

  - Plan for increases to the housing supply,

  - Encourage a better balance of jobs and housing with mixed use development,

  - Accommodate commercial uses for future employment opportunities, and

  - Focus growth into Framework identified Centers and corridors while preserving single family neighborhoods, hillsides, and open space.

- Direct growth away from low density neighborhoods; preserve single family and low density

Residential neighborhoods.

- Provide a range of employment opportunities; promote the vitality and expansion of Hollywood's media, entertainment, and tourism industry.

- Protect historical and cultural resources.

The **secondary objectives** of the Proposed Plan are as follows:

- Encourage and promote a variety of mobility options; make streets walkable.

- Improve the function and design of neighborhoods throughout the Project Area by preserving and strengthening the appearance of the overall Project Area to promote pedestrian friendly environments, nurture neighborhood character, improve economic vitality, create identity, and integrate a combination of land uses to create positive visual experiences.

- Improve open space, parks and public spaces.

- Provide adequate public services and infrastructure.

- Encourage sustainable land use.

- Maintain Land Use and Zoning Consistency.

So – in the next week, please prepare a letter on your letterhead. It can be brief. Reference some of the Project Objectives in your letter, in your own words, that support the primary or secondary objectives from your perspective as a property owner, business owner, employer, BID board member.

Greetings board,

Happy new year!

This month, I will be working with Bill to solidify the committee lists. As you heard from Bill at the last meeting, he has some ideas about ad-hoc committees this year (and they will be defined by a specific mission with a time limit for task completion).

Standing committees are subject to the Brown Act; ad-hoc committees of less than a quorum are not.

The plans for this year, as you recall, call for a more professionalized committee structure for the standing committees – there will be minutes kept, and quorums required, and attendance will be expected. Given the staffing transition, I told Bill that we would not be able to come "out of the gates" with this new system in place, until my successor and the 6th staff person is hired. However, we can get started, and allow that evolution to occur as the staff is put in place.

With that said, I did hear from some of you after the last board meeting. I have included your name on this attached chart. For those who have not had a chance to respond, please:

- Identify what topic area you are interested in
- Point out other "at-large" candidates for Safety and Placemaking. (Committee chairs – you may want to reach out to those who have been on the committee in the past to see if they are interested in continuing.) Leadership Development Committee – this is a good opportunity to invite new people into the leadership of the BID. Staff will weigh in with ideas as well.

Bill has other ad-hoc committees he would like to appoint this year – HEART of Hollywood, Homeless Plan and there may be one or more that emanate from the strategic planning process. There is clearly an opportunity for everyone to be involved this year!

Kerry

P.S. The committee purpose statements are not cast in stone; this is a first stab to describe activity areas. Committees are encouraged to refine as needed.

Condition of the Walk of Fame

1 message

Kerry Morrison <Kerry@hollywoodbid.org> Tue, Jul 24, 2018 at 12:19 PM
To: Privacy Anastasia Mann <president@hhwnc.org>
Cc: Daniel Halden <Daniel.Halden@lacity.org>, "Panoyan, Marlene" <Marlene@hollywoodchamber.net>

Mr. Jones, your email was forwarded to our office – we manage the business improvement district (BID) and hire a private vendor to do sidewalk maintenance.

We are aware of the current conditions of the Walk of Fame, and agree that the sidewalks are not at the level of cleanliness we would like. They are currently washed two nights a week.

Please note that we are currently in the process of bidding out this maintenance contract; and in the new year, with a higher budget, we hope to be able to increase this frequency, at least during tourist season. We are also going to be evaluating different techniques for washing the sidewalk during the vendor selection process.

It goes without question that the situation in Hollywood has become more challenging in recent years with people living on the street – with all that that entails – and we have the crush of street vendors in the busy tourist zone, which also make it hard for us to clean. We are advocating for a vendor-free zone in the proposed sidewalk vending ordinance, and we are also supporting the creation of a bridge housing facility, for people to have an option to move from the streets to a temporary facility to secure housing.

These are incredibly challenging times in this neighborhood and we are doing what we can to increase the level of service with a new vendor.

Sincerely,

Kerry Morrison

Conference call to discuss status of Wayfinding signage project

Greetings friends,

I just spoke with Jeanne on the topic of the letter that was sent last month on behalf of the BID Board, and she and I agreed that it would be useful if we could all come together in one conversation to ensure that we are on the same page with respect to the status of the Hollywood wayfinding signage project.

Wayne, I suspect you have the most knowledge at the "35,000 foot" level – so your participation is critical. If you believe anyone else would be on this call, let me know.

Here are the questions I have:

- Exactly how much more funding is necessary before the construction phase can be green-lighted
- Where are these funds situated? How are invoices paid?
- Who calls the shots on next steps (e.g., who is the accountable project coordinator)?
- What are the precise next steps to undertake so we can get this project into the construction phase?
- What is a realistic goal for when we could have the councilmember do the Big Reveal on our new signs!?

Here are times for a potential call:

Wednesday June 20 at:

11 a.m.

Noon

1 p.m.

PLEASE LET ME KNOW IF ANY OR ALL OF THOSE TIMES WORK FOR YOU. We want to be able to present an update to the Hollywood BID Board, which meets the next day.

Many thanks

Kerry

Kerry, 11 and noon, both good.

Has anyone form the BID spoken recently with Sameer, LADOT's contractor?

Should we have Peer Gent form LADOT on the call?

Confirming Details for Friday 12/14/18 - Leron Gubler Square and Kerry Morrison Square

Hi Bhuvan,

Thank you again for your help with this event on Friday 12/14/18. Here is the itinerary:

By 11:00 AM- Crowd gathers at Soul Hollywood Restaurant, SE corner of Hollywood & Sycamore. LADOT should be in place to install the "Leron Gubler Square" sign at the SE corner. **Please make sure sign is covered.**

11:00 AM- CM O'Farrell greets the crowd inside the restaurant. Champagne toast.

11:10 AM- Crowd goes outside to the sidewalk.

11:15 AM- "Leron Gubler Square" sign is UNVEILED at SE corner of Hollywood & Sycamore. Photos are taken.

11:25 AM- Crowd gathers in a Starline tour bus.

11:30 AM- Starline tour bus heads east on Hollywood Blvd to Gower Street, south on Gower to Selma Ave, then west on Selma to Vine Street. Theater marquees along this stretch will have been changed to "Thank You Leron and Kerry" messages.

11:40 AM- Starline bus parks at NE corner of Selma & Vine.

11:45 AM- "Kerry Morrison Square" sign is UNVEILED at NE corner of Selma & Vine. Photos are taken.

11:55 AM- EVENT ENDS. Starline bus returns to Hollywood & Sycamore for those who need.

TO DETERMINE:
Ideally, we would be able to have **2** LADOT sign crews -- one at each location -- to ensure we keep things on track in terms of the timing. Please let me know if this will be possible.

FYI, I am CCing Devin Strecker from the Hollywood BID, Nicole Shahenian from the Hollywood Chamber, and Katie Zandona (property owner), all of whom have been working hard to plan this event.

Thank you,

Hi Devin,

Thanks for sending the details. To confirm do you still need the bus to be at the Soul Restaurant or should the bus stage at 11:15am on the SE corner on Hollywood & Sycamore and finish back at the same location by 12:15pm?

Hi Dan,

Can you send me Kim's email for the Oscars...I want to get PDFs of the handouts today to post to Navigate Hollywood.

Also, please keep me informed as HEART of Hollywood develops. I'm interested & available to help out, especially in the areas of improving communications with prop owners, communications with preservationists (I'm a member of HH, and know they can be difficult to deal with), highlighting buildings you want to focus on for our Old Hollywood Walking Tour (www.oldhollywoodtour.com<http://www.oldhollywoodtour.com>), and any kind of research you may need.

If you're at next week's HPOA board meeting, we are extending an invite for a couple of special Old Hollywood Walking Tour dates for board members and would like to have you on one of them.

Greetings HPOA board

I am attaching the draft committee list – for both standing and ad-hoc committees. Its still a work in progress – and if you have reached out to me and I did not accurately connect you to a committee, please let me know.

In particular, we are light on board members for the Safety Committee – we have more at-large members than board members, and the bylaws call for a ratio that shifts in the other direction.

Please consider this committee and let me know if you can commit in the coming year. I'll be discussing this with Arthur tomorrow, and we are attending roll-call at the BID Patrol office to welcome the new team.

List is attached.

Hi Juan,

I hope you're having a great week. We have a few updates, questions, and ideas about the area around Madison Ave/Oakwood Ave. Any chance you might have time for a quick call on 7/12 at 11am-11:30am or after 4pm?

Thank you,

Brigid

Hi Juan,

Thank you very much for making everything happen on Friday! We really appreciate it.

I wanted to circle back and see if you might have time for a quick phone call to discuss some updates about the Madison/Oakwood area.

Might you have availability during any of the following times?

- 7/17 – between 1pm-2pm
- 7/18 – between 2pm-3pm

Thank you,

When creating a service request with 311, what should we label trash as, and should I be labeled differently if there's hazardous material (needles, etc.)? I want to be sure we're submitting the category of request that goes to you – as we discussed earlier this week.

CD 13 Meeting Regarding Homeless Shelter 2/28/18

Hi Brigid,
Our office is looking into the possibility of creating a homeless shelter in the area. Councilmember O'Farrell asked that we include the Property Manager at La Kretz so she can represent the tenants and any issues they might have.

Do you think she would be available to meet us at our District Office on February 28th from 6:00-7:30 PM for an intimate conversation among a select group of stakeholders to discuss next steps?

Please advise and let me know if she can attend and represent the tenants at La Kretz.

Bladimir,

Every quarter, PATH hosts a Neighborhood Watch Committee meeting with the businesses and residents in the area. We try to provide educational presentations from entities that provide resources and services to our neighborhood.

We would greatly appreciate a presentation from LA Sanitation regarding your work and activities in the region. Given that our neighborhood frequently submits requests for cleanup, your perspective would be greatly appreciated.

We have the equipment to display a PowerPoint, if needed.

Hi Lakesha and Tescia,

I hope all is well.

There are currently a some tenants that might be getting evicted soon. Many of them state that their only option is going to be homelessness if they are evicted.

What resources can we make available to them as they are going through the process?

Could we possibly coordinate a meeting/outreach to inform the tenants of the resources that would be available to them?

Many have children so if there is anything we can do to help or provide information it would be appreciated.

Please let me know if either of you could jump on a quick call to discuss possible next steps.

Thank you both for your help and attention to the matter.

We thank you in advance for all your help.

What resources can we make available to them as they are going through the process?

Could we possibly coordinate a meeting/outreach to inform the tenants of the resources that would be available to them?

Many have children so if there is anything we can do to help or provide information it would be appreciated.

Please let me know if either of you could jump on a quick call to discuss possible next steps.

Thank you both for your help and attention to the matter.

We thank you in advance for all your help.

Good Afternoon,

Thank you very much for joining us on February 27th for the Neighborhood Watch Committee meeting! We enjoyed the thoughtful discussion involving LAPD, Congressman Jimmy Gomez's office, and Council District 13.

We also wanted to follow up with the February 27th meeting minutes and Resource Guide. Thank you again for helping to ensure that our neighborhood is a safe, clean, and comfortable place to live and do business.

Best,

Fire Started by homeless encampment infront of our property

Hi Juan,

I am writing on behalf of a concerned business owner. Sunday night an electrical pole infront of our property at 310 N Madison was set on fire. We discovered it when we came to work this morning. Our internet is down and Spectrum came out and alerted us to the down power lines.

I have attached photos below.

Madison Ave and Oakwood have been increasing dangerous we've had shootings and now are being threatened by fire.

This was directly infront of our property and I found burnt embers in our parking lot next to our business owners car.

All the businesses on the street have been affected and it's a scary situation.

I wanted to let the city know. These encampment are growing we feel pretty powerless in the face of the increasing threatening environment.

Hi Carmel,

This location is scheduled for another service day on Thursday. I will flag the debris to Sanitation to see if they can address before then. We are working closely with PATH in addressing the on going issues in the area and more resources have been allocated.

I am available to schedule a call if you wish to further discuss. Let me know what works best for your schedule and I should be able to accommodate.

Thank you for reaching out to our office, I hope you can make the next Neighborhood watch meeting to discuss some of the updates we have been working on .

Hi Juan,
Thank you for responding. Maybe we can set up a phone call the first week of May. I am on the east coast and won't be back until May 2nd.

Do you know if the city is going to replace the light pole? I am afraid it's been weakened by the fire and could fall or be less stable in the case of future vandalism.

Thanks for looking into this,

Hi Juan,

I wanted to thank you for joining our meeting last week, I know we are all looking for solutions to help increase safety in our neighborhood.

I also wanted to make sure you were aware of a fire in the encampment that occurred on Friday evening at approximately 7:30pm. After discussing with the individuals living on the street they shared that two tents were set on fire as part of the ongoing gang activity we have been experiencing. The fire department responded and no one was hurt, but we continue to feel the increased violence on Madison and Oakwood.

I know Veronica Perez may have shared this with your department yesterday, but I also wanted to send details via email.

Please let me know if you have any questions.

Hi Jennifer,

Thank you for hosting the meeting. We did get the update from Veronica and we have spoken with LAPD about the incident/s. We are all scheduled for a meeting next week to further discuss this area and the safety concerns.

I still do not have a service date from Sanitation but as they confirm I will pass along the information.

Hi Juan,

It was great seeing you on Friday!

I've attached the signatures we've gathered for the one-way on Oakwood.

The major group of people we're missing is the owner of the complex on Oakwood between Westmoreland and Virgil (there may be multiple owners). Do you know who that might be?

The quality of the PDF isn't great, so please let me know if I need to circle back with anyone to get new signatures.

Thank you!

Subject: Problems in my neighborhood
To: "councilmember.ofarrell@lacity.org" <councilmember.ofarrell@lacity.org>

Mr. O'Farrell;

I live in the building at 346 N. Vermont Avenue, and I remember the meeting you set up with my building awhile back as you were gaining this office. The "Homeless Cops" crew came and many tenants in my 80 unit building were there for the talk.

Sir, the homeless problem here is worse than ever. The vacant bulding across the street from me has caught fire several times, as the homeless set up camp inside and start fires. A large portion of that derelict building is now burnt through, and the sun shines into the top floor, with all the windows broken out. This building is right next to the Vermont/Beverly Metro station. I would point out that three days before the big fire I called LAPD front desk and reported that there was no front door on that building, it had been ripped off and people were coming and going through the building. Lot of good my call did, huh?

But, out my west facing window I see at least fifteen tents up the sidewalk on Oakwood, the street that feeds onto the 101 freeway on ramp. That block is a gigantic trash heap, and the people in those tents walk all over Oakwood like it was an open plaza, paying no attention whatsoever to the traffic on the street trying to get on the freeway. Meanwhile the blocks behind my building are lined also with tents and heaps of garbage, not to mention the drugs and crime and car break-ins. I saw a man standing on the sidewalk in front of the Ron Hubbard building shooting up one night, standing on the sidewalk on Vermont Avenue with his sleeve rolled up, holding the syringe and injecting drugs.

I LIVE HERE!!! My rent just went up again, and this neighborhood has become utterly disgusting, unhealthy and unsafe.
I sympathize and understand that these people are people. I cannot do anything to help them, as a private citizen living on a Disability income. But to allow them all to live out there, with none of the amenities of a housed person they inflict all their problems on the neighborhood, including mental illness and crimes.

I hope your office can look into this. Ironically, there is a PACE building two blocks east of here, and the streets surrounding are all lined with filthy tents and garbage.

John Glazar

Hi John,

My name is Juan Fregoso, Field Deputy for Councilmember O'Farrell here in Rampart. He asked that I follow up on your email. I was at the meeting with the LAPD Hope Team. I understand the tents are still there but we have been working with Sanitation to get additional resources please PATH has been working to keep some of the trash in order.

The homeless situation throughout the City is the number one issue we are working on. I will work on getting this area scheduled for another clean, but please keep reporting the encampment to 311. They have additional resources to help with clean ups.

We are looking at overall changes we can make to the area to help with the issue, but we are still working on identifying funding.

I would encourage you to join the Neighborhood watch meetings with some of your neighbors, the next meeting is in June. Please follow up with Brigid Kelly <BrigidK@epath.org> regarding more information about joining the Neighborhood watch and getting updates to what we are all working on.

If you want to schedule call to further discuss please send me some dates/times that work for you next week and I should be able to accommodate your schedule.

Thank you again for reaching out. I look forward to seeing you at the next Neighborhood Watch meeting.

Hi Brittany,

Thank you for the update regarding the Rodriguez family. As I mentioned, I will be out of town starting Thursday through the 22nd.

I wanted to loop you in to our Planning Director Craig Bullock. He has been working with me on regarding this case and will be a great resource while I am out of the office.

Craig,

Emeet Brittany Hewitt, she is the caseworker who has been helpling the Rodriguez family in finding housing. She provided the following update regarding the housing search:

Tomorrow I'm going with Robert Rodriguez to tour and apply to affordable housing units for seniors. Our tentative plan is to apply to multiple of those units and move him into temporary housing until he is off that wait list. Temporary housing in which *we can get him and Maria a 1B apt and pay for security and utility deposits and 5 months rent.*

Tomorrow I will further present this plan to Robert.

She has been great throughout the process. I hope you two can connect soon over the phone to touch base.

Thank you both for your help. Ill be available tomorrow if either of you want to connect.

Good evening,

Thank you for the introduction, Juan, and please do enjoy your vacation!

It is nice to meet you, Craig. As written in my message to Juan, Robert Rodriguez and his wife Maria toured two units for elders affordable housing. The plan still stands as applying to various senior affordable housing sites and secure interim housing while awaiting a spot off of the wait list. Robert and Maria loved the senior living site called Reflections on Brittania.

Some of the barriers for finding housing thus far, just to keep you in the loop, include that both Robert and his wife are adamant on securing a 1B apartment. This is why we have turned to affordable housing to accommodate this need. Although they are in their 80s, they would like to live somewhere cosmopolitan and close to public transit as well. They have ACCESS cards too. Through much discussion, the Rodriguez family's budget for a 1B is now $1,300.00. The PATH Prevention team has them in mind for a Section 8 voucher when HACLA provides some for PATH in the next month or so, however there are many applicants, even within PATH.

I will work closely with these senior living affordable housing sites property managers to see wait list status. It would be ideal for them to be off the wait list in the next few weeks, sign a lease and then PATH can provide a hotel for Maria and Robert as they await a vacancy, however the more likely route is finding interim housing in the meantime.

Please feel free to reach out with any questions or concerns, either via e-mail or by phone at 323 – 578 – 2160, as I am here to help! I can also further explain the PATH Homeless Prevention program that they are enrolled in.

Have a great weekend,

Meeting with PATH - Homelessness in our neighborhood

10 messages

Brigid Kelly <BrigidK@epath.org> Tue, Mar 13, 2018 at 11:05 AM
To: Juan Fregoso <juan.fregoso@lacity.org>

Hi Juan!

PATH is hoping to be able to meet with you to discuss the efforts to address homelessness in CD13. We would like to discuss the big picture initiatives that are being implemented within the district and determine how we can best collaborate to contribute to the efforts to end homelessness in our neighborhood.

Might you have availability on March 26th at 1pm or 2pm?

Thank you!

Hi Juan,

Great seeing you yesterday! Thanks so much for all you're doing in the area – and for organizing the cleaning last week. I'm hoping to check in on your time preference for the meeting on May 22.

On another note, we had several employees receive parking tickets on April 1. I'm curious if there might be any options to advocate for a change in enforcement practices, given the lack of available parking and the fact that street cleaning doesn't actually take place on the street due to, what I assume is, the density of bulky items. I understand if there aren't many options in this situation, but wanted to bring you the question in case you may have any ideas.

Thank you!

Hi Juan,

I sent the calendar invite. Thanks so much for making it work!

They were parked on Madison during the street cleaning posting (Mondays, 8am-11am). I understand that this was in violation of a posted no parking area, but I'm curious if there can be a review of enforcement policy, given the fact that street cleaning doesn't occur. If so, we would like to advise staff that they can request review of the citation and/or adjust parking practices going forward.

Thank you!

Hi Brigid,

They would need to contest the ticket and follow the process on the back of the citation. Once they start the process, let me know so we can flag it, but our office has no control over the citations.

Does the street sweeper not pass through here? We can relax enforcement, but it will be to late for this coming Monday the 22nd.

Hi Brigid,

Ill be out of town from the 11th - 22nd so that will not work either.

Can we schedule a call and go over everything?

I do have some updates, but really think we should discuss before we move forward.

Great! Thank you very much. I'll send the calendar invite.

We were able to meet with Mackintosh & Mackintosh and we believe we have a good proposal to show the Task Force. Once I receive the PDF images, I'll send the proposed images and our questions to you to ensure we have details worked out before the meeting on the 31st.

Oakwood One-Way Questions

Brigid Kelly <BrigidK@epath.org> Thu, Jan 18, 2018 at 1:12 PM
To: Juan Fregoso <juan.fregoso@lacity.org>

Hi Juan,

Looking forward to the Oakwood Task Force Meeting on January 31st to discuss plans for the one-way on Oakwood. We're waiting on the PDF images from Mackintosh & Mackintosh (which we will discuss with the small group on the 31st), but while they're finalizing those, I've included our questions below. We would greatly appreciate the opportunity to understand the answers prior to the meeting on the 31st.

If it's easier to answer these via phone prior to the meeting, please let me know.

1. What questions need to be answered/decided on by the Task Force?

2. What does the approval process look like? If the plan is accepted by the Task Force, what's needed to move it forward?

    a. Will we need signatures? If so, from who and how many? Who has the right to sign in support to satisfy the requirement?

3. What is the timeline for getting something like this implemented?

4. What are your thoughts about the following options:

    a. Parking on one side of Oakwood (PATH side)

    b. Parking on both sides of Oakwood

5. What are the permitting options? Is that something that we would need to decide on or be able to influence?

Thank you,

Brigid

Hi Juan,

I've attached Mackintosh & Mackintosh's studies for the one-way parking on Oakwood. Here's what they said:

"The diagonal parking study with some limited parallel parking along Oakwood Avenue yields 70 parking spaces. The parallel parking study along Oakwood Avenue yields 69 parking spaces. Please remember these are studies only, we do not practice Civil Engineering.

There is one large draw back to the parallel parking scheme as I see it and that is parking parallel on Oakwood on the north side of the street will be hard to almost impossible for the drivers to get in and out of their vehicles given the current sidewalk and fencing."

Are you available to check in about the one-way and the Neighborhood Watch Committee meeting via phone this week? I'm available tomorrow morning and any time on Friday.

Thank you,

Hi Brigid,

I did, but did not get the addresses. The petitions you have are okay to use, they need the signatures for all stake holders on Oakwood between Juanita and Virgil(please include the Apt next to La Kretz) so lets start there.

I am confirming again that no one on the side streets will need to be petitioned.

Hi Juan,

It was great seeing you on Friday!

I've attached the signatures we've gathered for the one-way on Oakwood.

The major group of people we're missing is the owner of the complex on Oakwood between Westmoreland and Virgil (there may be multiple owners). Do you know who that might be?

The quality of the PDF isn't great, so please let me know if I need to circle back with anyone to get new signatures.

Hello Michelle,

Thank you for reaching out tot our office. The Councilmember currently met with tenants to hear their concerns regarding their situation with the landlord. We do agree these are horrible living conditions and no one should have to live under these circumstances.

Did you file a case with the housing department regarding the conditions you are living under?

Please see the link for filing a case with the Housing Department:

http://hcidapp.lacity.org/ReportViolation/Pages/ReportViolation

We can also follow up with Sanitation to confirm that the owner has adequate service for trash pick up. How long ago was it that the trash was overflowing? Please provide some pictures when you get a chance so that I can document.

As for the rent increases, I am not familiar with the details but since there is no rent control here we are very limited in what we can do. The Councilmember has reached out to the owner, but she has not returned our calls for scheduling the call. We are looking into all the resources available to us in order to address.

Let me know if you want to schedule a quick call to further discuss.

Thank you for reaching out.

> My name is Michelle Garcia and I'm part of the Burlington Unidos tenants facing eviction. I know that you're already familiar with our story since many of your constituents have been trying to reach out to you regarding our case, but hear me out here. We, tenants at 131, 143, 171 Burlington Ave. LA, CA 90057, have been living for many years under very unsafe and

unhealthy conditions. Pest and rodent infested units and building, and to make things worse the landlord charges for fumigation. Mold in restrooms are only painted over and over again with no real solution. Several tenants have roof leaks during the rainy season and some have even had their roofs collapse. Landlord charges us for normal wear-and-tear repairs. We had our hot water on and off throughout the day for many days before we even received a note from management telling us it was going to be fixed. Trash pick up only twice a week caused the trash containers to overflow, trash on the ground made the trash area and parking lot to stink, and to make things worse there was no proper clean up done by maintenance. A sewage pipe in one of the parking lots tends to burst, flooding the area with dirty water, we have to walk over it to get to our cars, and maintenance does an awful job cleaning it up and the bad stench stays for days. There are almost everyday plumbing leaks in the parking lot that we have to drive under and over puddles of dirty water. We have the videos to show you the above and more.........So Councilmember, I'm sure that you agree with me that there should be no tenant under your district that should be living under these slum conditions, not in Los Angeles, not anywhere. Unfortunately, this is our reality for the tenants at Burlington Apartments.

While the landlord neglects our well being, the landlord still believes it is ok to raise our rent by $250-$400 monthly. There were no offers for renovations, no offers for repairs, no offers for improved maintenance, no offers for fumigations. That was a wake up call for us tenants, it's true that we are not protected under the RSO, that our rents are slightly below the market rate, but I honestly believe that there should be NO EXCUSE for uninhabitable living conditions, and I hope that you agree with me on this too. We realized that the only way to get the landlord's attention was to form Burlington Unidos and begin a rent strike. We have tried to negotiate with the landlord for a reasonable rent increase (pertaining to all the safety and health problems with the buildings) and improved maintenance and repairs as well as respect from management. The landlord doesn't seem to want to reach a fair negotiation with us at all. Therefore, this is where we seek for your help. For you to kindly meet with us, as a group, and give us the opportunity to share our experiences with you. We only ask that you, as our representative, show us your support against this unjust and inhumane treatment from our landlord and act as an intermediate for a negotiation. A slumlord who operates in your district and is taking advantage of hard working families. We stood up against our slumlord, and now we face eviction and homelessness. We seek justice and a safe and healthy home in our community of Westlake. I'm sure you also agree that this is part of your responsibility? Beforehand, I truly appreciate your SUPPORT and look forward to hearing back from you soon since this is an URGENT matter.

Sincerely,

Michelle Gacia

Hi Juan,

Thank you very much for getting back to me.

Unfortunately, the Housing Department has not been of any help. The complaints were closed or no violation found, yet the problems persist. As for the trash pick-up, an additional day was added, but only several months after the rent strike and court cases had begun. But like you mentioned, since our apartments are not protected by the rent control guidelines, it seems our rights are also limited. These are the reasons why we are reaching out to Mitch O'Farrell for help. The landlord refuses to reach a fair negotiation with us. On Wednesday, August 8th, a family was evicted, children locked out from their home by the Sheriff. A family who like the rest of Burlington Unidos, was living in deplorable conditions when they were hit with an unjust rent hike, and is only asking for a safe and healthy home, a reasonable rent increase, and respect from the landlord and management. I understand that the Councilmember has a busy schedule, but once again, I kindly ask if he can please meet and greet all of us as a group. I greatly appreciate all that you are doing to help us and I'm sure that all of the tenants in the district will too.

Regards,

Michelle Garcia

Hi Michell,

Councilmember O'Farrell met with the tenants last week to hear their stories, sorry you could not attend. He also briefly met with them at the Rampart National Night Out on Tuesday.

The Councilmember has a call scheduled with the property owner tomorrow to see if there is anything we can do to further assist, but we can not guarantee the outcome.

I have been in touch with the Los Angeles Homeless Authority and PATH, they offer resources and help to families that are going through the process of being evicted and at risk of being homeless.

Please see the attached and share with neighbors so that they can start the process. I can help connect anyone that fills out the form so please have them reach out.

I have asked for Spanish sheets as well and will share them when I get them.

Hi Tescia,

i wanted to E introduce you to Becky Gross with LAHSA. We are working on doing safe parking here in Echo Park and I wanted connect you both to discuss what that might look like as one of the service providers in the area.

Please let me know if there is anything else we can do to assist.

Hi All,

Juan, thanks for the introduction.

Tescia, it's great to e-meet you. As Juan mentioned, we are working to launch a safe parking program in echo park. In case you are not familiar with safe parking, I have outlined the program's primary goals here:

1. Assist vehicle dwellers with a safe and legal place to park and sleep at night so they can avoid victimization while they sleep and comply with parking laws
2. Connect program participants to CES and services
3. Provide participants with access to case management

I am looking for a provider to partner with us on this program and was wondering if PATH would be open to discussing this. Specifically, we would want your organization to help refer eligible participants to this program and also provide case management and/or other services to clients in the program that meet your eligibility requirements. Please let me know if this might be something your organization would be open to. I am happy to have a conversation to discuss the details of this. Please let me know if you need additional information.

Warmly,

Becky

Hi Juan,

I just submitted the request below (Service Request # 1-1117154051).

It says it's scheduled for service on 8/2, but there are hazardous items in the trash, so if it could be cleaned ASAP, that would be much appreciated.

Thank you,

Hello everyone,

Thanks for making it out last Friday to plan the Source program at Edendale.

It is exciting that we set a monthly date for the Edendale Library Source program-**the 3rd Thursday of the Month!**

Our next meeting will be **August 16, 12:00pm. (3rd Thursday)**
This meeting will cover logistics and outreach for the event. Please feel free to forward this information to some of the organizations mentioned at our last meeting: LA Kitchen, Food on Foot, People Concern, Ground Game, Good Shepherd, El Centro De Pueblo, Gateways, Chrysalis ....

The Source event will **START** the following month- **Sept 20, 12-3:00pm (3rd Thursday)**
Partners will arrive at Edendale Library at 11:30 am to set up and breakdown/debrief from 3 to 3:30pm.

Please let me know if you have any questions. I will send out an reminder email closer to the date.
Per request- I have attached the sign in sheet from last Friday's meeting.

Thanks again!

All the best,
Angi

Hi Brigid,

Do you have any updated pictures I can flag to SAN?

Im trying to see if we can get a spot clean of some of the trash and debris this week but they asked for a picture ASAP.

Dear Neighbor,

PATH (People Assisting the Homeless), along with many of you, is committed to ensuring that our neighborhood is a safe, clean, and comfortable place to live and do business. That's why we're hosting a **Neighborhood Watch Committee**. Through quarterly meetings, we will discuss our concerns, consult with our public officials, brainstorm solutions, and define impactful plans to improve the safety of our neighborhood. During the upcoming meeting, we'll hear about how PATH conducts outreach and provides services to our neighbors experiencing homelessness. We'll also receive an update on the one way plan for Oakwood Avenue.

To make the goals of the Committee possible, we need your input, voice, and perspective at the table! We would like to invite you to hold a seat on the Committee.

Our next meeting will be on June 13th from 12:00pm-1:30pm at 340 N. Madison Avenue. If you are able to join us, please RSVP to Brigid Kelly via email (brigidk@epath.org) or phone (651-895-2145) by June 8th.

I look forward to working together and seeing you soon!

Sincerely,

Jennifer Hark Dietz

Hi Dan,

So sorry to bother you, but I had reached out to the companies closing the street for these upcoming events and did not hear anything back. Are you able to provide me with the details for these closures?

Thanks

Hi everyone,

YES, we are meeting tomorrow, Thursday 3/1, at 9AM for the street/sidewalk closure committee meeting. REMEMBER THAT WE HAVE CHANGED LOCATIONS. WE WILL BE MEETING AT THE HOLLYWOOD & HIGHLAND EXECUTIVE OFFICE CONFERENCE ROOM. Instructions are in the calendar invite.

I repeat: DO NOT COME TO HOLLYWOOD CITY HALL, WE ARE MEETING AT HOLLYWOOD & HIGHLAND. :)

Also, remember -- this is Oscar Season, so please plan for traffic!

The agenda is as follows:

3/12 - Tomb Raider
3/17 - Pandas
3/18 - FYI LA MARATHON
4/19 - Handmaids Tale
4/21 - Avengers Infinity War
4/27 - Hand & Footprint

Again...

1) We are meeting at HOLLYWOOD & HIGHLAND!
2) Please plan for traffic due to the OSCARS!

:)

Thanks, all!
Dan

Hey Dan,

Sorry that I won't be able to make it, as we have our court date tomorrow at 9:30 and our entire staff is going to be there.

It looks like all the proposals are movie premieres except for the hand and footprint, so those would be approved by the BID as long as no one else has any issues with them.

Thanks

Devin

[RESCHEDULED] Monthly - Hollywood Street/Sidewalk Closure Committee Meeting

Devin Strecker <Devin@hollywoodbid.org> Tue, Apr 10, 2018 at 2:06 PM
To: "Daniel.Halden@lacity.org" <daniel.halden@lacity.org>

Hi Dan, I will be at the meeting, as will our new Administrative Assistant April Clemmer. She will be replacing me on the committee going forward, as she will be handling everything related to Navigate Hollywood from this point forward. Can you please add her to the email list? april@hollywoodbid.org.

Thanks!

Dan, see attached, I added an item for Hollywood Shelter search to the agenda – hoping you can come and provide an update on what is going on in CD-13. I think people will be pleased. I am also going to reach out to Dream Center to see if they have anything to report.

Hi Rich,

I heard from a constituent that this mural was tagged! (SE corner of Hollywood Blvd and Wilcox Ave -- it's ON Wilcox)

Could you take a look and let me know?

Thanks,

Hi Dan,

Tragically, it was, along with a few other murals and walls. Someone took a bucket of yellow paint through the town after the marathon... However, the You are a Star mural has since been restored!

Thank you!

They got Musso and Frank, a couple other random spots on the boulevard, and the Shiekh store mural on Schrader... Somehow they decided to not touch our Dolores! Phew!!!

BID can (and has) taken care of all graffiti that isn't on the murals. I will talk to the property owner for the Shiekh store mural to see if they want to engage LABT.

"Good Neighbor" Trash Bags

Hi Brian, we love this idea, and in fact, had a conversation with SLO Eddie Guerra about this on Friday, as he is anxious to know if there would be a green light on this.

I told him we would discuss at our meeting this coming Friday at our office when you come in with info re/ the mobile trash proposal. In addition to Dan, Steve Houchin will also be at that meeting (I've copied him here as well) and I would just want him to weigh in on this from the city attorney standpoint.

I think the other question raised by Eddie is that in a non-BID area, could this be done as well – and who could pick up the trash? He was raising this issue in the context of some of the areas south of the BID last week that got quite nailed by trash on the street/sidewalk.

I'll confer with Dan this week for CD-13 perspective. Let's figure out an action plan to make this happen when we meet – I think the public is looking for us all to find a solution to the trash out there.

See you Friday,

Kerry

Hi Kerry, Dan, and Joe,

I sent the below email late Saturday evening (apologies!) so it may have gotten lost in your inbox over the weekend. Just following up to see if there's been any progress. We're fully supportive of this idea, but defer to the Council Office.

Thanks,

Brian

Hi Kerry and Dan,

I am writing to follow up on the BID's idea to distribute "good neighbor" trash bags to homeless individuals encouraging them to dispose of trash in these bags, which would then be picked up by BID security.

We remain very interested in this idea, but defer to the Council Office.

Is this something that we can all commit to trying ASAP? Possibly launching in the next week or so? We have our next CENTCOM meeting with the Mayor on Wednesday, 1/10, and there's a good chance that he may ask about it. It's been raised with him in prior CENTCOM briefings.

Thanks so much,

Brian

Hi Dan,

I had a couple things for you.

1. Who at LADOT can I contact to stop painting over the utility boxes that we are stripping for the art project? Apparently this is happening and setting us way back.
2. Most importantly, had a great conversation with Frank Stephan of Clarett West Dev. and he would like a crosswalk across Hollywood Blvd at El Centro. They are willing to pay for it "within reason" and I'd like to get the ball rolling on this. Let me know how we can do so!

Thank you and I'm sure I'll see you soon!

Hollywood Wayfinding Signage Update Meeting

Hi everyone,

Our office would like to reconvene all relevant City/County departments to discuss the Hollywood Wayfinding Signage project. Our understanding is that the project is moving along and is nearing completion, but there are some elements of the project for which funding must be identified.

We are requesting attendance from the following entities:
LA City Council District 13
LA City DPW/BOE
LA City DOT
LA County DPW
Metro
Hollywood Property Owners Alliance
Hunt Design

Please RSVP with your availability. If you are not available, please designate the appropriate representative from your agency.

Please let me know if you have any questions.

Thank you,
Dan Halden
CD13

Hi Juan!

PATH is hoping to be able to meet with you to discuss the efforts to address homelessness in CD13. We would like to discuss the big picture initiatives that are being implemented within the district and determine how we can best collaborate to contribute to the efforts to end homelessness in our neighborhood.

Might you have availability on March 26th at 1pm or 2pm?

Thank you!

Hi Brigid,
Our office is closed on the 26th in observance of Cesar Chavez Day so this will not work for me.

Wednesday the 28th is open if this works for you.

Hello, PATH and The Center!

I'm CCing Brian Buchner and Christina Miller with Mayor Garcetti's office. A furniture company has reached out to the Mayor and is interested in possibly donating or helping to furnish A Bridge Home facilities.

We would like to set up a meeting with this furniture company and include PATH and The Center. If the project is approved, this may be a great way to bring resources to the site in a cost-effective way that involves the community.

Are you available for a meeting on this topic the week of October 8th?

Thanks,

Hi Tescia and Brigid,

We were just informed that the installation has been delayed until the 6th.

I apologize for the last minute change. We are coordinating the fire debris clean up for this week.

Can we connect tomorrow or Friday to discuss?

Thank you both for all of your help and patience.

Thank you for including us Dan.

Jessica if you can help us by requesting outreach services through the NEW LA-HOP (Los Angeles Homeless Outreach Portal) that way we can track the request electronically. This is a community website to request outreach services through LA County, feel free to share the website!

In addition, we will work with the outreach team in the area to stop by and offer supportive services to the people staying by the Pavilions.

Thank you so much.

Hi Juan,

Great seeing you yesterday! Thanks so much for all you're doing in the area – and for organizing the cleaning last week. I'm hoping to check in on your time preference for the meeting on May 22.

On another note, we had several employees receive parking tickets on April 1. I'm curious if there might be any options to advocate for a change in enforcement practices, given the lack of available parking and the fact that street cleaning doesn't actually take place on the street due to, what I assume is, the density of bulky items. I understand if there aren't many options in this situation, but wanted to bring you the question in case you may have any ideas.

Thank you!

Hi Juan,

I sent the calendar invite. Thanks so much for making it work!

They were parked on Madison during the street cleaning posting (Mondays, 8am-11am). I understand that this was in violation of a posted no parking area, but I'm curious if there can be a review of enforcement policy, given the fact that street cleaning doesn't occur. If so, we would like to advise staff that they can request review of the citation and/or adjust parking practices going forward.

Thank you!

Hi Brigid,

They would need to contest the ticket and follow the process on the back of the citation. Once they start the process, let me know so we can flag it, but our office has no control over the citations.

Does the street sweeper not pass through here? We can relax enforcement, but it will be to late for this coming Monday the 22nd.

Hi Juan,

Thank you for letting me know about your availability on October 3. We've decided to push the next Neighborhood Watch Committee meeting to October 16, 12pm-1:30pm.

Will you be able to join and provide updates about CD 13 and the one-way on Oakwood?

Thank you,

Brigid

Hi Brigid,

Ill be out of town from the 11th - 22nd so that will not work either.

Can we schedule a call and go over everything?

I do have some updates, but really think we should discuss before we move forward.

Recurring Coordinated Conference Call re: Schrader Bridge Housing - OUTREACH

Hi everyone,

Now that the 1533 Schrader Blvd bridge housing project is under construction and we are in the "90 day/30 day" period, I am setting up a weekly "check-in" conference call to discuss outreach strategies, and to allow all agencies an opportunity to share information and coordinate.

This will be an opportunity for everyone to get on the same page and everyone is swimming in the same direction. The goal, of course, is to identify 70 individuals currently experiencing homelessness who will be able to move in to Schrader when it opens, ETA mid-January. I also want to make sure that our office is staying in touch with all of you, and monitoring the pulse of the area, throughout this period.

I am asking for the following agencies and entities represented on this call:

Mayor's Office
CD13
LAPD
LASAN
Park Rangers
LAHSA
PATH
The Center
Hollywood BID

Oakwood One-Way Questions

5 messages

Brigid Kelly <BrigidK@epath.org> Thu, Jan 18, 2018 at 1:12 PM
To: Juan Fregoso <juan.fregoso@lacity.org>

Hi Juan,

Looking forward to the Oakwood Task Force Meeting on January 31st to discuss plans for the one-way on Oakwood. We're waiting on the PDF images from Mackintosh & Mackintosh (which we will discuss with the small group on the 31st), but while they're finalizing those, I've included our questions below. We would greatly appreciate the opportunity to understand the answers prior to the meeting on the 31st.

If it's easier to answer these via phone prior to the meeting, please let me know.

1. What questions need to be answered/decided on by the Task Force?

2. What does the approval process look like? If the plan is accepted by the Task Force, what's needed to move it forward?

    a. Will we need signatures? If so, from who and how many? Who has the right to sign in support to satisfy the requirement?

3. What is the timeline for getting something like this implemented?

4. What are your thoughts about the following options:

    a. Parking on one side of Oakwood (PATH side)

    b. Parking on both sides of Oakwood

5. What are the permitting options? Is that something that we would need to decide on or be able to influence?

Thank you,

Brigid

Hi Juan,

I've attached Mackintosh & Mackintosh's studies for the one-way parking on Oakwood. Here's what they said:

"The diagonal parking study with some limited parallel parking along Oakwood Avenue yields 70 parking spaces. The parallel parking study along Oakwood Avenue yields 69 parking spaces. Please remember these are studies only, we do not practice Civil Engineering.

There is one large draw back to the parallel parking scheme as I see it and that is parking parallel on Oakwood on the north side of the street will be hard to almost impossible for the drivers to get in and out of their vehicles given the current sidewalk and fencing."

Are you available to check in about the one-way and the Neighborhood Watch Committee meeting via phone this week? I'm available tomorrow morning and any time on Friday.

Thank you,

Brigid

Hi Brigid,

I did, but did not get the addresses. The petitions you have are okay to use, they need the signatures for all stake holders on Oakwood between Juanita and Virgil(please include the Apt next to La Kretz) so lets start there.

I am confirming again that no one on the side streets will need to be petitioned.

Parking at Schrader...red zone

Hi guys—we are really having a challenge with DOT (Parking enforcement). We understood from BOE that the curbs were painted red to accommodate parking (even if only short-term/loading). We are getting a very different message from DOT. I just got finished talking with an enforcement officer who has (again!) ticketed staff and our food van. I am now told we need some kind of special exemption and something in "their letterhead" to show that we are exempt. I realize these things are complicated, but we are hoping for a swift solution—given the challenge of parking in the area, our "best solution" would be designated parking for our team in front of Schrader. Given the city's substantial investment in this project, bypassing a single meter and a red zone (maybe "Bridge Home Parking only"!) seems reasonable.

Thanks!

Hi Juan,

It was great seeing you on Friday!

I've attached the signatures we've gathered for the one-way on Oakwood.

The major group of people we're missing is the owner of the complex on Oakwood between Westmoreland and Virgil (there may be multiple owners). Do you know who that might be?

The quality of the PDF isn't great, so please let me know if I need to circle back with anyone to get new signatures.

Thank you!

Hi everyone (again),

I'd like to include you all in a discussion we will be having tomorrow at 2:00 PM, to discuss the "focus area" around the proposed temporary bridge housing at 1533 Schrader Blvd.

Different agencies including the Mayor's Office, CD13, LAPD, LASAN, and LAHSA will be represented; since PATH and The Center have been recommended to operate the facility, I think it's important that you also be included.

Stephen, I see you've RSVPed... thank you! :) Rudy, please let me know if you're available as well so that we have reps from both PATH and The Center.

Neighbors,

Earlier today, Councilmember O'Farrell introduced a motion that completes the formal study of the proposed temporary bridge housing facility at 1533 Schrader Blvd. I am including a press release and the motion itself, attached below.

This does not mean that the project is approved. This means that the formal study has been completed, and will now head to Homelessness & Poverty Committee, Budget & Finance Committee, and the full City Council, which will review the proposal and decide whether or not to approve the project. To stay up-to-date as this moves through the legislative process, you can subscribe for updates via this link. To subscribe, click on the "envelope" icon at the top of the page, and enter your email address. On this page, you can also review feedback from stakeholders, letters of support, and technical documents.

As a friendly reminder, the **"Coffee with the Community"** series is ongoing, **Wednesdays at 9:00 AM.** This is an opportunity to ask questions and discuss the proposal directly with representatives from PATH and The Center at Blessed Sacrament, who have been recommended to operate the facility. These discussions are open to the public on a first-come, first-serve basis, with a limit of 10 guests each week, and you may RSVP for yourself plus one additional guest, max. To RSVP, please email me or call me at (213) 207-3015 and I will send you confirmation information.

Please let me know if you have any questions.

FOR IMMEDIATE RELEASE:
CONTACT:
TONY ARRANAGA/213-258-9533

RELEASE: COUNCILMEMBER O'FARRELL INTRODUCES MOTION THAT COMPLETES FORMAL STUDY ON FIRST PROPOSED "A BRIDGE HOME" FACILITY IN THE 13TH DISTRICT

Facility would temporarily house up to 70 people; provide supportive services

CITY HALL - Los Angeles City Councilmember Mitch O'Farrell, 13th District, on Tuesday introduced a motion that completes the City's formal review of a proposed temporary bridge housing facility in Hollywood, which aims to be the second temporary housing facility built in the city as part of Mayor Garcetti's "A Bridge Home" program.

The proposed facility, which must still be approved by City Council, would temporarily house up to 70 people at a time; provide supportive services such as case management, mental health services, alcohol and drug addiction programs, and employment counseling; include 24/7 security; and would be operational for up to three years.

"We need more immediate solutions to get homeless individuals off the street and into a safe, clean environment," said Councilmember O'Farrell. "We are moving forward together, and my office has been meeting with stakeholders adjacent to this parking lot, located at 1533 Schrader Boulevard. The response has been positive -- and the community understands we need to act."

“This crisis demands bold steps to get people off the streets and into housing as quickly as possible,” said Mayor Eric Garcetti. "Councilmember O’Farrell’s leadership will deliver results for the men and women living on the streets of Hollywood today, who will soon be able to take their tents down and build themselves up. Our city will be safer, cleaner, and more just because of it.”

More than three-quarters of Angelenos voted in favor of Measure HHH (2016) to provide funding to construct up to 10,000 units of housing for those experiencing homelessness, and went even further and approved Measure H (2017) to provide funding for on-site services for the permanent housing and shelters. In addition, the Mayor and City Council approved $20 million in the City’s Budget to provide funds for this emergency temporary housing program plus an additional $10 million dollars for supplemental homeless services.

“This program will transform our ability to address and manage the homelessness crisis in Hollywood,” said Kerry Morrison, Executive Director of the Hollywood Business Improvement District. “The partnership with the City of Los Angeles, People Assisting the Homeless (PATH), and Hollywood’s The Center at Blessed Sacrament will create a safe space for the entire community. We have more work to do, but this is a fantastic start and badly needed.”

“Hollywood has been without this type of facility since 2016, forcing those seeking a bed or temporary housing to be referred Downtown and neighboring areas,” said Leron Gubler, President and CEO of the Hollywood Chamber of Commerce. “A better option must be made available within our own community, and 1533 Schrader presents the city with a viable solution to this pressing issue. We are proud to support the proposed development of a temporary bridge housing facility on the Schrader lot and are eager to see the City Council move forward with this desperately needed facility as soon as possible.”

“Bridge Housing is part of an integrated solution that will have an almost immediate ripple effect on managing the homeless crisis in our area,” said Ferris Wehbe, longtime community leader, business owner, and Hollywood resident.

Contingent on Council approval, the Los Angeles Homeless Services Authority (LAHSA) is recommending that the proposed facility be operated by two seasoned service providers with roots in Hollywood: PATH and The Center at Blessed Sacrament.

“Establishing this type of facility and program in Hollywood is the right thing to do,” said Yolanda Brown, Parish Director at Blessed Sacrament. “We must continue to find ways to offer assistance and hope to those who want and deserve our help. This bridge housing facility will go a long way in those efforts.”

The motion will next be heard in the Homelessness and Poverty Committee, and then to Budget and Finance Committee, prior to being considered by the full City Council. If approved by Council, construction could begin as early as October and completed in January 2019, with the facility opening shortly thereafter.

Neighbors,

Following up on my email from last week, I wanted to let you know that the proposal for temporary bridge housing at 1533 Schrader Blvd **was approved by Budget & Finance Committee today, Monday, September 17th.**

The City Council will vote on whether or not to officially approve the proposed project at its meeting **tomorrow, Tuesday, September 18th.** As the matter has gone before both Homelessness & Poverty Committee and Budget & Finance Committee, there will not be public comment on the item. However, I am always available to answer any questions you may have regarding the proposal.

Additionally, as another reminder, our weekly **"Coffee with the Community"** series continues on **Wednesdays at 9:00 AM -- with the exception of this week, Wednesday, September 19th, when there will be no meeting.** Otherwise, the discussions are held on Wednesday mornings at 9:00 AM. These discussions regarding the project proposal are open to the public on a first-come, first-serve basis. You must RSVP in advance. To RSVP, please email me or call me at (213) 207-3015 and I will send you confirmation information.

As always, please feel free to contact me at any time.

Warm Regards,

Dan Halden

Molly and Colleen,

Kerry and I have been chatting and we'd like to arrange a time for us all to meet and discuss all things "Hollywood" — specifically options for temporary shelter, permanent shelter, E6 contract, and an overall coordinated strategy across different agencies.

Might be nice to do this over a meal. :) Breakfast or lunch?

Let me know if this works for you, and if you are free on any of these dates:

Tues 3/6 breakfast
Fri 3/9 breakfast or lunch
Tues 3/13 lunch

Please let me know. :)

Hi friends, hope you had a good holiday.

I've got a list of priorities for me to get through this month – one of which is to make some significant headway on the alley situation.

We had committed to coming together to draft a list of "rules and regulations" to guide behavior in the alley for presentation to the group. Here are some options for us to get together – let me know if any or ALL of these times might work. We can meet at my office if that is convenient.

Tomorrow – Thursday Jan 3 – any time after 11 all day

Friday – Jan 4 – any time after 2:30

Monday – Jan 7 – between 11 a.m. and 2

Tues – Jan 8 – any time

Cahuenga String Lights - Street Closure

Hi Dan,

A Happy New Year to you. I'm reaching out to see if you might be able to provide me with any guidance. We're ready to proceed with submitting permits for our Cahuenga string light project (between Selma and Sunset), but I'm unclear how to go about closing the street for install.

Per BSS's website, our project doesn't meet their requirements for considered closures (event-based). We'll need to close the street for just a few hours during off-peak hours. Do you have a contact at the city I can talk to about this?

Thank you,

Hi Megan,

We have signed off on the Cahuenga String Lights Project with our vendor and they are hoping to get it done by the 31st of October. I wanted to know which permits I would need to make this project happen.

We will be tapping into the street lights on Cahuenga from Selma going south to 1520 N. Cahuenga Blvd. We will not need to close the street.

Please let me know how we can make this happen with the proper permits in the fastest amount of time.

Feel free to call me on my cell at any time to discuss: 323.873.9775

Hi Dan,

Wanted to start the ball rolling on this project and grabbing permits and such. As we discussed, the BID wants to string festoon lighting over Cahuenga blvd just south of Selma. The white circles on the map below are the light poles we will be using. We will also need to close the street, overnight of course, to erect these. Please let me know which permits I need!

Thank you for your help with this!

Thank you, Dan for the intro!

Hi Megan!

Please feel free to call my cell if you would like any more background on this exciting project. Then we can work on permits for said project!

Thank you,

Rich

Hi All,

Let me have our Community Services group take a look at this and give input on what will be needed or if we foresee any issue that will need to be dealt with. We'll be in touch shortly.

Thanks,
Megan

Megan -- Rich Sarian is the operations director for the Hollywood BID. They are working on a project to install string lights across Cahuenga Blvd between Selma Ave and Sunset Blvd. Can you advise Rich of what kinds of permits he will need for this project?

Hi Dan,

We are planning the 2nd annual Jollywood for December 8 at Eastown. I don't think we need tables, but we will probably need some chairs. Any chance we could get some through the council office? And, would Mitch be available to stop by at some point? The event will go from 4-10pm.

I wanted to bring to your attention, if you are not already aware, that the city released the draft EIR for the Hollywood Community Plan on November 15. Comments are due into the city on January 31, 2019

Here is a link to the city's website which has a copy of the plan. You will see references to the proposed land use map for Hollywood, zoning proposals to implement the plan and the narrative to describe the goals and policies inherent in the plan.

There is also an interactive map where you can determine the proposed land use and zone for an area you are interested in.

Comments can be submitted via mail or email before January 31, 2019.

Property owners are certainly encouraged to weigh in on the plan individually. If there are any issues that seem to be of critical import to the overall BID area, please advise, and we can set aside time at the Jan 17 meeting for a discussion. Additionally, the Chamber's Economic Development Committee will be focusing it January meeting to a discussion of the plan and you can attend that meeting as a Chamber member (Jan 15 at 8 a.m.).

As compared to the last go-round, no salient issues have come to my attention, other than the fact that the old CRA Urban Design Plans (one for Hollywood and one for Sunset Blvd) remain alive and must be reconciled with the Community Plan so there is no contradiction between the two. This was a big surprise to Leron and I when we were invited to a meeting last fall by the consultant (Prakash Pinto of Pinto + Partners in Berkeley) retained to finish the Sunset Boulevard Urban Design Plan. The council office was involved in this meeting – I will find out what process they are going through to ensure that these plans are not conflicting in any way. John Kaliski Architects is tasked with the final update of the Hollywood plan.

Here are these two old plans, which are apparently still relevant and being updated for 2019.

TO: HPOA Board

As was discussed at last week's board meeting, **there is one more week to submit comments related to the draft EIR for the Hollywood Community Plan Update**. After this, the process will move into a period of review and comment on the actual community plan. The ad-hoc committee who volunteered to work with staff on this is: David Gajda, Michael Gargano and Chase Gordon.

In the meantime, there was a meeting at the Chamber yesterday to discuss the best way forward with respect to the EIR, which is a very technical document. The consensus was to encourage letters from stakeholders in the community that essentially contain two points:

1. **Support for the adoption of a community plan in general.** This is needed, as we are limited by a plan that was last passed in the late 80's. Therefore, we are in favor of this effort, and do not want to see any more delays.
2. **Support for the Primary and Secondary objectives contained in the plan**. These are what are listed in the executive summary (which is Section 2 of the EIR). I've cut/pasted them here for you.

PROJECT OBJECTIVES

The **primary objectives** of the Proposed Plan are as follows:

- Accommodate projected population, housing, and employment growth consistent with the growth strategies of the Framework Element, including:

  - Maximize development opportunities around existing transit systems to encourage sustainable land use while minimizing potential adverse impacts,

  - Direct growth to transit hubs and corridors,

  - Plan for increases to the housing supply,

  - Encourage a better balance of jobs and housing with mixed use development,

  - Accommodate commercial uses for future employment opportunities, and

  - Focus growth into Framework identified Centers and corridors while preserving single family neighborhoods, hillsides, and open space.

- Direct growth away from low density neighborhoods; preserve single family and low density

  Residential neighborhoods.

- Provide a range of employment opportunities; promote the vitality and expansion of Hollywood's media, entertainment, and tourism industry.

- Protect historical and cultural resources.

The **secondary objectives** of the Proposed Plan are as follows:

- Encourage and promote a variety of mobility options; make streets walkable.

- Improve the function and design of neighborhoods throughout the Project Area by preserving and strengthening the appearance of the overall Project Area to promote pedestrian friendly environments, nurture neighborhood character, improve economic vitality, create identity, and integrate a combination of land uses to create positive visual experiences.

- Improve open space, parks and public spaces.

- Provide adequate public services and infrastructure.

- Encourage sustainable land use.

- Maintain Land Use and Zoning Consistency.

So – in the next week, please prepare a letter on your letterhead. It can be brief. Reference some of the Project Objectives in your letter, in your own words, that support the primary or secondary objectives from your perspective as a property owner, business owner, employer, BID board member.

Greetings board,

Happy new year!

This month, I will be working with Bill to solidify the committee lists. As you heard from Bill at the last meeting, he has some ideas about ad-hoc committees this year (and they will be defined by a specific mission with a time limit for task completion).

Standing committees are subject to the Brown Act; ad-hoc committees of less than a quorum are not.

The plans for this year, as you recall, call for a more professionalized committee structure for the standing committees – there will be minutes kept, and quorums required, and attendance will be expected. Given the staffing transition, I told Bill that we would not be able to come "out of the gates" with this new system in place, until my successor and the 6th staff person is hired. However, we can get started, and allow that evolution to occur as the staff is put in place.

With that said, I did hear from some of you after the last board meeting. I have included your name on this attached chart. For those who have not had a chance to respond, please:

- Identify what topic area you are interested in
- Point out other "at-large" candidates for Safety and Placemaking. (Committee chairs – you may want to reach out to those who have been on the committee in the past to see if they are interested in continuing.) Leadership Development Committee – this is a good opportunity to invite new people into the leadership of the BID. Staff will weigh in with ideas as well.

Bill has other ad-hoc committees he would like to appoint this year – HEART of Hollywood, Homeless Plan and there may be one or more that emanate from the strategic planning process. There is clearly an opportunity for everyone to be involved this year!

Kerry

P.S. The committee purpose statements are not cast in stone; this is a first stab to describe activity areas. Committees are encouraged to refine as needed.

Hi everyone,

As we only have one item on the agenda for tomorrow, I am changing our in-person meeting to a CONFERENCE CALL. The Dial-In Number is [redacted]

The only item is:

7/22/18 Teen Titans Go to the Movies

Also, please note that the previously approved Radio Disney Music Awards on 6/21-6/22 will NO LONGER INCLUDE A STREET CLOSURE. It will be interior only at Loews. Due to increased activity, there WILL be additional traffic control officers in the area. :)

Thank you, and I will SPEAK TO YOU (but not see you) tomorrow, Thursday June 14th, at 9:00 AM.

Condition of the Walk of Fame

1 message

Kerry Morrison <Kerry@hollywoodbid.org> Tue, Jul 24, 2018 at 12:19 PM
To: Privacy Anastasia Mann <president@hhwnc.org>

Mr. Jones, your email was forwarded to our office – we manage the business improvement district (BID) and hire a private vendor to do sidewalk maintenance.

We are aware of the current conditions of the Walk of Fame, and agree that the sidewalks are not at the level of cleanliness we would like. They are currently washed two nights a week.

Please note that we are currently in the process of bidding out this maintenance contract; and in the new year, with a higher budget, we hope to be able to increase this frequency, at least during tourist season. We are also going to be evaluating different techniques for washing the sidewalk during the vendor selection process.

It goes without question that the situation in Hollywood has become more challenging in recent years with people living on the street – with all that that entails – and we have the crush of street vendors in the busy tourist zone, which also make it hard for us to clean. We are advocating for a vendor-free zone in the proposed sidewalk vending ordinance, and we are also supporting the creation of a bridge housing facility, for people to have an option to move from the streets to a temporary facility to secure housing.

These are incredibly challenging times in this neighborhood and we are doing what we can to increase the level of service with a new vendor.

Sincerely,

Kerry Morrison

Conference call to discuss status of Wayfinding signage project

4 messages

Kerry Morrison <Kerry@hollywoodbid.org> Mon, Jun 18, 2018 at 11:47 AM

Greetings friends,

I just spoke with Jeanne on the topic of the letter that was sent last month on behalf of the BID Board, and she and I agreed that it would be useful if we could all come together in one conversation to ensure that we are on the same page with respect to the status of the Hollywood wayfinding signage project.

Wayne, I suspect you have the most knowledge at the "35,000 foot" level – so your participation is critical. If you believe anyone else would be on this call, let me know.

Here are the questions I have:

- Exactly how much more funding is necessary before the construction phase can be green-lighted
- Where are these funds situated? How are invoices paid?
- Who calls the shots on next steps (e.g., who is the accountable project coordinator)?
- What are the precise next steps to undertake so we can get this project into the construction phase?
- What is a realistic goal for when we could have the councilmember do the Big Reveal on our new signs!?

Here are times for a potential call:

Wednesday June 20 at:

11 a.m.

Noon

1 p.m.

PLEASE LET ME KNOW IF ANY OR ALL OF THOSE TIMES WORK FOR YOU. We want to be able to present an update to the Hollywood BID Board, which meets the next day.

Many thanks

Kerry

Kerry, 11 and noon, both good.

Has anyone form the BID spoken recently with Sameer, LADOT's contractor?

Should we have Peer Gent form LADOT on the call?

Confirming Details for Friday 12/14/18 - Leron Gubler Square and Kerry Morrison Square

2 messages

Hi Bhuvan,

Thank you again for your help with this event on Friday 12/14/18. Here is the itinerary:

By 11:00 AM- Crowd gathers at Soul Hollywood Restaurant, SE corner of Hollywood & Sycamore. LADOT should be in place to install the "Leron Gubler Square" sign at the SE corner. **Please make sure sign is covered.**

11:00 AM- CM O'Farrell greets the crowd inside the restaurant. Champagne toast.

11:10 AM- Crowd goes outside to the sidewalk.

11:15 AM- "Leron Gubler Square" sign is UNVEILED at SE corner of Hollywood & Sycamore. Photos are taken.

11:25 AM- Crowd gathers in a Starline tour bus.

11:30 AM- Starline tour bus heads east on Hollywood Blvd to Gower Street, south on Gower to Selma Ave, then west on Selma to Vine Street. Theater marquees along this stretch will have been changed to "Thank You Leron and Kerry" messages.

11:40 AM- Starline bus parks at NE corner of Selma & Vine.

11:45 AM- "Kerry Morrison Square" sign is UNVEILED at NE corner of Selma & Vine. Photos are taken.

11:55 AM- EVENT ENDS. Starline bus returns to Hollywood & Sycamore for those who need.

TO DETERMINE:
Ideally, we would be able to have **2** LADOT sign crews -- one at each location -- to ensure we keep things on track in terms of the timing. Please let me know if this will be possible.

FYI, I am CCing Devin Strecker from the Hollywood BID, Nicole Shahenian from the Hollywood Chamber, and Katie Zandona (property owner), all of whom have been working hard to plan this event.

Thank you,

Hi Devin,

Thanks for sending the details. To confirm do you still need the bus to be at the Soul Restaurant or should the bus stage at 11:15am on the SE corner on Hollywood & Sycamore and finish back at the same location by 12:15pm?

Hi everyone,

I am confirming that Councilmember O'Farrell and I will be holding our HEART of Hollywood Brainstorming Discussion **this Thursday, January 31st, from 9:00 AM to 12:00 PM.**

We will be meeting at the Hollywood Chamber of Commerce, 2nd floor conference room, 6255 Sunset Blvd. Thank you to the Chamber for accommodating us!

Please let me know if you have any questions in advance of Thursday. As I mentioned in my previous email, this is invite-only and is not transferable to another person. Please let me know if you are unable to attend or if something comes up.

We very much appreciate your time, expertise, creativity, and passion for Hollywood. I may be sending out more information in advance of our meeting, so please stay tuned. Otherwise, I'll see you this Thursday!

Best Regards,

Hi Dan,

Can you send me Kim's email for the Oscars...I want to get PDFs of the handouts today to post to Navigate Hollywood.

Also, please keep me informed as HEART of Hollywood develops. I'm interested & available to help out, especially in the areas of improving communications with prop owners, communications with preservationists (I'm a member of HH, and know they can be difficult to deal with), highlighting buildings you want to focus on for our Old Hollywood Walking Tour (www.oldhollywoodtour.com<http://www.oldhollywoodtour.com>), and any kind of research you may need.

If you're at next week's HPOA board meeting, we are extending an invite for a couple of special Old Hollywood Walking Tour dates for board members and would like to have you on one of them.

Have a great evening,

Greetings HPOA board

I am attaching the draft committee list – for both standing and ad-hoc committees. Its still a work in progress – and if you have reached out to me and I did not accurately connect you to a committee, please let me know.

In particular, we are light on board members for the Safety Committee – we have more at-large members than board members, and the bylaws call for a ratio that shifts in the other direction.

Please consider this committee and let me know if you can commit in the coming year. I'll be discussing this with Arthur tomorrow, and we are attending roll-call at the BID Patrol office to welcome the new team.

List is attached.

TO CITY CLERK FOR PLACEMENT ON NEXT #54

MOTION

The Hollywood Property Owners Alliance ("HPOA") has offered to donate to the City a digital wireless surveillance camera for the Hollywood Entertainment District. The system is comprised of digital wireless video camera and Fluid Mesh antennae.

An existing surveillance system was donated to the City by the HPOA over a period from 2004 to 2009, and updated in 2014. The new system now also includes one camera at the SW corner of the following intersection:

a) Hollywood and Las Palmas

The camera utilizes the existing repeater at 6255 Sunset Boulevard and the monitors are located at the LAPD Hollywood station.

The system is intended for the exclusive use of the Los Angeles Police Department. The HPOA plans on paying for ongoing maintenance of the equipment after the one-year warranty is expired. With the installation of the original donated cameras, the Police Department had documented a resulting drop in crime. The cameras have proven to be a continued effective tool to increase public safety.

Action is needed to accept the donation (estimated value of $15,000 for the equipment) and thank the donors.

I THEREFORE MOVE that the Council accept the donation by the Hollywood Property Owners Alliance of the new Las Palmas digital surveillance camera (estimated value of $15,000) comprised of a digital wireless video camera and Fluid Mesh antennae, for use by the Los Angeles Police Department for the Hollywood Entertainment District as further described in the text of this motion.

I FURTHER MOVE that the Police Department be instructed to record the donated equipment on the Department's inventory list and to thank the donors on behalf of the City.

Hi Lorena,

I'm reaching out to see how we can go about getting a crosswalk installed across Hollywood Blvd. at El Centro. The property owner is willing to pay for it "within means" and I'd love to start progress on this before the property opens to the public. Please let me know which steps to take or how to go about doing this. If you'd like, you can reach me on my cell: 323.873.9775

The map below is where the requested crosswalk would be.

Thank you so much!

Oh wait. Sorry. Lorena is the person for utility boxes. This request has to be made separately through myladot.lacity.org - I was going to make it and then follow up with our engineer, Bhuvan Bajaj.

Dan. We have been in touch with him this week. He sent us a similar email also. I called him back. Told him Cole was a priority area for all of us. I am trying to reach the new Sgt for LAPD that we met (Shannon) to help coordinate something but we should probably do a quick conference call re this on Monday to ascertain next steps.

Hi Dan,

Please see the attached proposals for Cahuenga String Lights and Holiday Decorations from St. Nick's.

- Holiday Decorations (palm tree lights and holiday decorations for poles) were fabricated and purchased by the Chamber for a total of $95,950.00. First year of installation and storage cost $65,500 total and the following four years to install, remove and store cost $38,950.
- Cahuenga String Lights cost $17,094.00 total for fabrication and installation.

Additionally, the utility box artwork we installed cost $1,000.00 to wrap all four sides of one box if you want to request more funding 😉 The original artist is a friend of mine and he has been dying to create more for the Blvd

Let me know if you have any questions.

Hi Rich,

Our office received your requests about the traffic signal cabinets covered with green paint. LADOT approved Council District 13's request for decorative displays on ten traffic signal cabinets on Hollywood Blvd. The artist(s) should be painting soon. See attached letters for more information. Please let me know if you have any questions.

Thanks.

Discussion re: Potential Hollywood Lighting Plan

Megan,

Great speaking to you earlier. Per our conversation, I wanted to introduce you to Kris Larson, the President/CEO of the Hollywood Entertainment District BID. As you know, Kris and I have been working to envision a possible lighting "master plan" for Hollywood.

Kris — Megan Hackney is the Bureau of Street Lighting (BSL) Assistant Director. Megan and the Bureau have been very helpful and supportive of the Cahuenga Blvd string lighting project.

I thought it would be prudent to introduce you to each other, and perhaps for us to hop on a phone call together to further discuss the visioning and mechanics of how such a plan could work. I wanted to make sure BSL is aware of all the details, prior to things moving too far down the pike.

Are you all available for a phone call next week? My best availability is next Tuesday 4/16 in the afternoon, with the exception of 2-2:30 (when I have a brief meeting).

Thank you!

Marty, thanks for bringing this to my attention. Sorry I did not respond last Friday – I was downtown for meetings and didn't see this.

I really want to meet Brett Porter – but tomorrow I will be out doing a field trip with LAPD looking at different video surveillance installations. I will be back by 2:30. If it is possible to meet then, I would very much appreciate it.

In the meantime, I am looping in Jimmy Shaw, owner of a local restaurant here in the "mid-BID" – Loteria. With recent construction taking away a nearby surface parking lot, his patrons are finding it harder to park nearby. The Cherokee parking lot also has some challenges, and is sometimes full. (And, I believe there are cars from Honda of Hollywood stored on the entire top floor of that structure, taking parking spaces away from neighboring businesses.) What Jimmy is experiencing is a good case study of nearby businesses, and he has some ideas he'd like to share. I hope you can stop in and visit with him for a few minutes between 1 and 2 p.m.

I've included him on this email.

Let me know if 2:30 will work.

Downtown Center BID - Market Report

Kris Larson <Kris@hollywoodbid.org> Fri, Mar 29, 2019 at 1:32 PM
To: Marty Shelton <mshelton@naicapital.com>, "Rana Ghadban (rana@HOLLYWOODCHAMBER.NET)" <rana@hollywoodchamber.net>, Rich Sarian <Rich@hollywoodbid.org>, Devin Strecker <Devin@hollywoodbid.org>, Dwayne Gathers <dgathers@gathersstrategies.com>, Privacy Brian Folb <Brian@hollywoodoffices.com>, "Nicole@hollywoodchamber.net" <Nicole@hollywoodchamber.net>, "Jauregui, Jacob" <jacob@hollywoodchamber.net>, [redacted] Dan Halden <daniel.halden@lacity.org>, "Sean.Starkey@lacity.org" <Sean.Starkey@lacity.org>, Craig Bullock <craig.bullock@lacity.org>

Marty – thank you for raising this topic, and for circulating the example from DCBID.

In many communities, the BID emerges as a trusted market expert for the area that it serves. This relationship is often complementary to the region's Chamber or other lead economic development organization. These roles often evolve over time, growing in terms of sophistication and intentionality – moving from the anecdotal to the analytical.

To that end, I thought I'd share a couple of examples of similar work I've had the honor of leading at my two previous posts. This type of work builds off a foundation of comprehensive data collection and transitions to the utility of the data to shape an dynamic understanding of the submarket relative to the broader community. In Raleigh's State of Downtown Report, we graphically illustrated the relative tax contribution from Downtown relative to the remainder of the city, helping to demonstrate the proportion of taxes generated by the center city as a way of qualifying the importance of the place to the City (see pages 10-11 in the linked report above).

Similarly, the International Downtown Association (the trade association for the BIDs) developed the Value of Downtowns project to help communities express their value in different, not exclusively economic terms – recognizing that policy and resource allocation decisions quite frequently involve many different dimensions. The IDA has completed 24 such research projects, including this one for my former post in Grand Rapids. In that project, we developed a methodology for measuring everything from a community's identity to its resiliency.

What does this mean for Hollywood and the HPOA? That's hard to answer in the moment. However, we do plan to explore the HPOA's potential role in local economic development as a component of our upcoming organizational strategic planning process which kicks off in April and concludes in August. I hope you and others on this thread will share your insights and expertise as a part of the effort.

Additionally, I have discussed with the HPOA Board Chair the prospect of bringing the Value of Downtowns initiative to Hollywood to help us build a baseline for local data and research. He is supportive of taking the opportunity to the Board at their meeting next month.

Thanks for indulging me in this detailed response – you managed to hit a topic that really speaks to me, as I've seen time after time how critical good information is to decision making.

Best,

Kris

Brian, they are a very credible organization, and do good work for the county. They are involved with the Housing for Health program, which links homeless people with chronic medical conditions to housing.

One thing they also do is rehab properties to turn into supportive housing. They have a real estate specialist who will scope out properties for conversion or rehab. If we had any candidates in the Hollywood area, they would be open to coming out here.

To: Tim Conger <tim.conger@lacity.org>, Rich Sarian <Rich@hollywoodbid.org>

Tim (LADOT) and Rich (Hollywood BID),

I'd like to finally put the issue of Elizabeth Taylor to rest and move forward together. Are you available this week for a quick 10 minute conference call?

These times work for me:

Tues 1/29 - between 3pm and 4pm
Wed 1/30 - 12pm or 4pm
Fri 2/1 - 12:30pm

Please let me know. Thank you!

Hi Dan,

I know you're swamped today and hope the festivities go well! I wanted to chat with you about the Farmers Market. I did some sleuthing Sunday morning and they are most definitely not following the rules. Give me a call tomorrow when you can!

Talk to you then.

Hi friends,

I don't want to make a habit of this, but Julie Hudman has asked if I could present to her board on Friday Feb 2 – they are having a board retreat, and she wants me to give them the 4-1-1- on the homeless situation.

Would it be possible for us to move our FF to Feb 9?

Maybe if you're pinched, we could at least do a call tomorrow – we've got a bunch of things up on the white board that we want to run by you.

Hello BID folks:

Please see attached. Please make sure this goes out to the BID stakeholders, particularly the Sunset BID, which has voted to support a project of this nature. This proposed project is within the Sunset BID.

Next Tuesday's open house is also immediately following (and around the corner from) the Sunset BID board meeting, so it should be convenient for people to attend.

- **Eight-story Selma Wilcox hotel in Hollywood approved by City Council.** The project has been referred to as the second phase of the Dream Hotel, the 10-story hotel that opened next door in 2017. The new hotel will be developed by the same company, Relevant Group, but Selma Wilcox representatives had said that it was unlikely it would also be Dream branded. - **Eleven-story Hollywood hotel project approved near Selma and Wilcox.** In other hotel news, City Council signed off this week on plans for a new 191-room hotel to what is now a parking lot at the corner of Selma and Schrader. The hotel, developed by LA-based commercial real estate company KOAR Institutional Advisors would include about 5,500 square feet of ground-floor retail space, to be occupied by a restaurant and cafe, as well as 100 parking space. - **L.A. settles homeless rights case, likely limiting ability to clear encampments.** The 10-2 vote authorizes City Attorney Mike Feuer to settle a 2016 lawsuit, Carl Mitchell v. Los Angeles, brought by civil rights lawyers on behalf of homeless people and two skid row anti-poverty

groups. Downtown business groups had opposed such a deal, arguing that settling the case would deter redevelopment, and leave skid row and the people who live on its sidewalks mired in squalor. Click here for more *(via Los Angeles Times)*

- **Nancy Silverton is opening a big Italian steakhouse inside the Hollywood Roosevelt Hotel.** Silverton (Osteria Mozza, Chi Spacca, Pizzeria Mozza) plans to open The Barish, named after her ancestors who were cattle ranchers in Canada, in the space formerly occupied by Public Kitchen & Bar, and will ideally open by January 2020 - before next year's Oscars. To: Ed Collins <Ed.Collins@disney.com>, djacinto@journalhotels.com, cjimenez@downtown-properties.com, Lisa McIntyre <lisa@chinesetheatres.com>, Ed Bell <Ed.Bell@merlinentertainments.biz>, Kerry Morrison <Kerry@hollywoodbid.org>, Devin Strecker <devin@hollywoodbid.org>, Nicole Shahenian <nicole@hollywoodchamber.net>, Brian Folb <Brian@hollywoodoffices.com> [redacted] Marty Shelton <mshelton@naicapital.com>, [redacted] Doug Deluca <doug.deluca@abc.com>, Mike Harkins <MHarkins@cimgroup.com>, Lindsay Hurlic <lhurlic@cimgroup.com>

Neighbors,

Happy New Year and I hope this email finds you well. As promised, I am setting up a meeting to follow-up on our previous discussion(s) regarding Hollywood Blvd between Highland Ave and Orange Drive. This meeting will also include representatives from LAPD, LAFD, and LADOT.

The meeting will be held on **Wednesday, January 23rd, at 10:30 AM, at Hollywood City Hall - 6501 Fountain Avenue.**

I want to keep the discussion focused so attendance will be open to the folks on this thread -- immediate stakeholders, plus Chamber and BID reps. If you are unable to attend but would like to send someone in your stead, please check with me first.

If you plan to attend, please confirm your RSVP directly with me.

Thank you, and I hope to see you on January 23rd.

Best,

Greetings Board,

As you know, we had intended to hold the All Property Owners meeting on December 12 as a open house reception with a brief report on news from the BID. Given that is the evening of the event celebrating Leron, we have decided to hold this **directly after your regular board meeting on Thursday December 20**. So, please plan to stay after the board meeting. We will have hors d'oeuvres, wine, beer and refreshments. We will invite the property owners – for a little bit of holiday cheer and a report-out on the work-product of this busy year.

- We will introduce them to the merged board and the new officers
- We will present the new maintenance and security vendors
- We may have information about the new staff leadership (!?)

Thanks for hanging back that evening – and we look forward to toasting to all the accomplishments of this very busy year!

FW: City contract - Termination Section 15 *TIME SENSITIVE*

Kerry Morrison <Kerry@hollywoodbid.org> Thu, Aug 16, 2018 at 12:04 PM

Cc: Jeanne Min <jeanne.min@lacity.org>, Daniel Halden <Daniel.Halden@lacity.org>, Rita Moreno <rita.moreno@lacity.org>, Lorin Lappin <Lorin@hollywoodbid.org>

Holly – can we have a conversation today before 4 p.m? I have a board meeting for Hollywood Property Owners Alliance, and we have an action item to review/approve the city contract. As I've laid out in the email below, we have strong reservations about the change in the termination clause -- the attached file shows what is in our current contract as compared to the one we were presented last week.

I would respectfully ask that we return to the version we've operated under for the last ten years (and possibly longer). Are you able to authorize that.

Rita did explain the Lorin the rationale for the 30-day for convenience, but I doubt our board will sign this contract since so much is at stake.

I am available all afternoon to talk. If there is a city attorney assigned to this, I'd appreciate having them involved and I could involve our attorney also on a conference call.

Time is of the essence, as the board won't meet again until September.

Many thanks

Kerry

Subject: FW: City contract - Termination Section 15

Jeanne,

I want to bring you into the loop on an issue pending with the City Clerk – time is of the essence, so I may need you or the Councilmember to weigh in.

I am attaching our draft city contract (between HPOA and City of Los Angeles) to manage the HED for 2019-28. It is pretty boilerplate, and we are fine with it, except we noticed that the termination clause has changed rather drastically from the last version we signed 10 years ago. I have attached that comparison.

For the city to have a 30-day out for convenience puts us in a very unstable situation – for a $7.4M BID which is involved in service contracts to do the work here in Hollywood. You can read the logic of this argument in the thread below. This would also jeopardize employment contracts and similar legal obligations.

The Hollywood board meets tomorrow – we were hoping to seek authorization to sign the contract, so we can proceed with the planning for 2019. I may be able to get a motion to sign if this provision can be reinstated to its previous version – otherwise we'll have to wait until September. Our normal City Clerk reps (Rick Scott and Miranda Paster) are both out on medical leave, so I think my best bet is to get directly to Holly.

Let me know your thoughts.

Subject: RE: City contract - Termination Section 15

Rita, one of the things we would want to discuss with Holly is that when we enter into a contract with a service provider, they are often investing in equipment that has to be amortized over a minimum of three years. For example, we are currently bidding out the security and maintenance contracts for the BID – and will very likely be hiring new vendors. For the maintenance contract, they are proposing a street sweeper, several pressure washing trucks, trash hauling truck and the like. We also have to rent space for their operations. They are hiring up to 25 people.

A similar situation exists for security. We will also be investing in a new radio system with repeaters.

To have the risk of a 30 day termination for convenience puts many things into jeopardy. Let's set up a conference call with Holly and the city attorney assigned to the BID contracts to flesh this out.

Many thanks.

I couldn't find anything about it other than I do see it on LAPD's Special Events Calendar. It also lists the annual Cultural Parade, so my fear is this is a whole new event...

Audio: Rats, roaches, bedbugs, mold: Why thousands of LA's homeless shelter beds sit

empty each night | 89.3 KPCC

Every night, some 43,000 people sleep on the streets of Los Angeles County in tents, cars and makeshift structures. So why do thousands of beds run by the biggest homeless agencies go empty at night?

A KPCC investigation found reports of bedbugs, rats, foul odors, poor lighting, harassment, lax care in medical wards and even a “chicken incubator” in a room where homeless people were sleeping.

Public documents — including monitoring reports from the Los Angeles Homeless Services Authority (LAHSA), health department inspections, coroner reports, surveys from the Department of Mental Health and police reports — reveal safety and sanitation problems in shelters around the county.

Reviews conducted at 60 shelters funded by LAHSA last year found more than half — 33 — were not filling all of their beds. Overall, LAHSA-funded shelters had a 78 percent utilization rate, well below the 90 percent required in their contracts. Monitors also found that 25 of those facilities were failing to meet the minimum standards required by their contracts to get people off the streets for good.

KPCC found that negative monitoring reports, health citations and grievance complaints rarely result in a shelter being shut down.

Some shelters raise philanthropic dollars on their own to improve living conditions in their buildings. Those that don’t receive public dollars operate with little to no public accountability at all.

The lack of accountability for meeting quality and service benchmarks raises questions about what taxpayers are paying for with the hundreds of millions of dollars in Measure H funding now flowing through LAHSA and other public agencies.

Who is looking out for the people officials say they are trying to help?

There are about 16,600 shelter beds in L.A. County. They’re almost always run by private nonprofit and faith organizations. Many have contracts with federal, local, and state government agencies that pay for beds for mental health clients, veterans, and other populations they serve.

The result is a patchwork system of oversight. No single public entity is charged with making sure shelters are clean, safe places to stay.

LAHSA officials told KPCC the agency has plans to improve shelter quality in L.A. The status quo, however, is not pretty.

Rats, roaches, bedbugs, mold

Craig Aslin tried the whole homeless shelter thing, he said.

Specifically, he tried The House of Hope, a boarding home in Jefferson Park.

“It sucked,” he said. “I got [eaten] up with bedbugs.”

So Aslin left and ended up in a tent on a hilly median off Franklin and Vine in Hollywood. Why? He says his tent is cleaner, he doesn’t have to deal with people he doesn’t like, and he can come and go as he pleases.

“I live better now than I did then, I mean for real,” he said.

Tents are pitched near an offramp and freeway in Hollywood, California, on Friday, March 16, 2018. Residents there say they prefer living outside to using a homeless shelter where couples will have to be separated and strict scheduling is enforced.

A 2017 public health inspection of The House of Hope, the shelter Aslin left, did not find bed bugs. It did find 17 other health code violations, including evidence of rats, roaches, suspected mold and issues with waste storage and disposal.

The public health department said it does follow-up inspections and sends compliance letters to shelters. It does not, however, shut shelters down.

“If compliance is not met, enforcement proceeds to the city or district attorney requesting a criminal complaint,” the public affairs department said in an email.

The House of Hope is one of many emergency housing options in the county that does not rely on government dollars; that means it’s operating with very little in the way of oversight.

Even in shelters that do receive public dollars, complaints of unsanitary conditions, vermin and pests are common.

At a shelter run by Volunteers of America on Skid Row, LAHSA monitors found “water leaking from the walls and underneath the toilets” in the bathroom, toilets that were “not secured,” and a broken, leaking faucet.

Another VOA shelter in South L.A. was found to have visible damage on floors and the walls and ceilings.

One center also did not have grievance forms for clients to complain about its conditions — a requirement of its contract.

Orlando Ward, executive director of external affairs at the VOA-Greater Los Angeles said the organization has made improvements after having recently taken over the shelter space from another organization.

"We house close to 400 people between the two shelters," he said. " As you can imagine with such high traffic numbers, maintenance and cleaning was and is a resource-intense undertaking."

Sanitation, he said, has improved in the past year. And new funds from Measure H have helped the organization make changes in its shelters, including staying open 24 hours a day and offering more services on site.

At the Russ Hotel in Downtown L.A., a Department of Mental Health client reported bathrooms that were "trashed daily" with toilets that "don't flush." Another client reported cockroaches.

A client at the Testimonial Community Love Center in South L.A. complained of cockroaches in August 2017.

In an LA Family Housing Shelter, LAHSA monitors found "unacceptable conditions" and "a lack of supervision over rooms." In one Boyle Heights shelter, monitors found the "walls were covered with Crayola and/or marker writing" and a chicken incubator. Another room was "extremely dirty." A third had "foul odors" coming from it.

LA Family Housing has since cleared those complaints with the agency.

Eve Garrow, who works on homeless issues for the American Civil Liberties Union, said she's heard complaints of homeless people getting sick in shelters with body lice, head lice and other communicable diseases, like MRSA, an infection that is resistant to treatment with many antibiotics.

"Mold in the bathrooms, blood on the walls, just a variety of issues that are really unacceptable," she said. "People with disabilities may try to use shelters and very quickly decide they're unable to manage their mental health conditions in those shelter spaces."

'Dangerous as heck'

Lorenna Taylor went to Samoshel, a Santa Monica shelter that resembles a large tent, in 2016 after having neck surgery.

Almost immediately, she said, another client harassed her. The woman, Taylor said, would follow her to the bathroom and started telling other people in the shelter Taylor was actually a man.

"I would have left, but I could barely walk," she said.

She complained to staff, but "they told me, you need to be the bigger person," Taylor said.

Eventually, there was a physical altercation between the two of them outside of the shelter. Neither woman was convicted of a crime in a subsequent court case. But Taylor said the entire experience left her with trauma.

"There's no safety," she said.

Living in close quarters can breed conflict, said John Maceri of The People Concern, which runs Samoshel. He said his staff intervened multiple times in Taylor's case.

Many homeless people told KPCC they were victims of theft, harassment and even assault by other clients in shelters, and that staff were either indifferent to or untrained to handle the conflict.

"The shelters are dangerous as heck," said Pepper Pilar, who rides a bike covered with Dr. Pepper stickers around Hollywood. "At least out here I have friends to watch my back. In there, they [will steal] your stuff."

Pepper Pilar talks about experiencing homelessness and spending time in a shelter on Friday, March 16, 2018. Pilar ended up homeless after a series of hardships and a relationship that ended left no other options.

Los Angeles Police Department records show that some shelters are visited frequently by officers. A VOA shelter on Broadway in South L.A. had 138 LAPD visits between Jan. 1, 2017 and the end of April 2018. Another VOA shelter had 197 visits.

“The LAPD visits are largely due to client crisis situations as well as calls from shelter staff when client safety is compromised,” said Ward of VOA. “Some would argue that is better that people experience trauma at a staffed facility than on the streets where the outcome is less predictable.”

'No one noticed'

Safety and violence are just one concern about quality of care. Former shelter residents also told KPCC they didn’t have faith in medical services.

Andria McFerson, a former Samoshel resident, said that clients in the “medical ward,” where people with severe medical needs are housed in proximity to a staff nurse, are not checked on regularly.

“My friend died there and no one noticed,” she said.

Her friend was Charles Waldron, a Vietnam War veteran. An L.A. Coroner’s report found that he died of a heart attack at the shelter on Jan. 24, 2016.

Waldron was staying in the medical ward, a room with six metal twin-sized beds. He’d been at the shelter about seven months.

“Staff saw decedent on 1/23/2016 around midnight in the common area of the shelter,” the report said. At noon the next day, “staff discovered the decedent unresponsive and dialed 911.”

Paramedics, who found Waldron with red foam coming out of his mouth, beyond resuscitation, pronounced him dead 11 minutes later.

Maceri of The People Concern said it’s not unusual for clients to skip a meal. He said Waldron’s medical needs were not severe enough where he needed to be checked by medical professionals daily.

"There would not have been a medical reason to force Mr. Waldron to wake up from what staff assumed was him sleeping in after being up late the night before," he said.

The coroner's report described his corpse as in the stage of "early decomposition."

No recourse and fears of retaliation

Other homeless people said shelters didn't work out for them because they were told to leave, often after running into problems. And they said they had no recourse.

Robbin Nugent was kicked out of Samoshel in March after not showing up at the shelter for 68 of the 170 days she was a client. If she wasn't going to use her bed, the program told her, they'd need it for someone else.

The problem: her boyfriend, with whom she's four months pregnant with twins, was also homeless. He'd just graduated from a drug rehab program and was back on the streets.

"If I wasn't with him at night, I think he would mess up," she said.

Robbin Nugent was asked to leave a Santa Monica shelter for not utilizing her bed enough, so she packed her belongings into a rolling trash can. Nugent is pregnant with twins.

So she left the shelter to stay with him.

"They were like, 'What's it going to take to get you back into the program?' And I was like, 'Get him off the street!'" Nugent said. "It's my babies' dad. If he messes up, then all things go to hell."

She said Samoshel told her they didn't have room for him and didn't offer any referrals to shelters that might.

Nugent, still pregnant, and her boyfriend are now staying in a tent in an alley behind a Santa Monica restaurant.

Maceri said clients are expected to use their beds the majority of nights they're in the program and that shelter "staff spent nearly six months attempting to work with Ms. Nugent to help her be more comfortable in the shelter."

The decision to kick someone out of a shelter should be subject to outside review, said Olga Zurawska.

Zurawska, a filmmaker who found herself homeless several years ago, said she herself was kicked out of Turning Point, a Santa Monica shelter, in 2016.

Now an activist for the rights of homeless people, she said she was targeted for speaking up about shelter quality issues. People Concern, which runs the shelter, said it helped place her in permanent housing and her allegations are untrue and have been thoroughly investigated by multiple agencies, which found them to have no merit.

She said behind the dispute about her stay at Turning Point, is a bigger issue: there wasn't an outside body to step in and provide a neutral assessment.

It goes to the patchwork nature of oversight in an industry — homeless services — that is growing rapidly. Because the shelter she stayed in didn't receive LAHSA funding, the grievance she filed with the agency bounced back. Turning Point did receive Department of Mental Health funding, but Zurawska was not a mental health client. That meant she did not have recourse with that agency. Eventually she complained to the city of Santa Monica, which helps fund Turning Point, but she said that was a dead end.

Alisa Orduña, Santa Monica's senior advisor on homelessness, said complaints about the shelters it funds are taken seriously. But first clients are required to exhaust whatever internal complaint system the shelter has before turning to the city.

Zurawska said the grievance process was confusing and hard to navigate.

“This population has no rights and no voice, really, and somebody has to do something about it,” she said.

Garrow of the ACLU agrees that clients need an accessible, visible, neutral third party to appeal to if shelters are going to be more effective going forward.

“Staff really have too much power over clients and clients really have no recourse when staff treat them in a denigrating or disrespectful manner other than to submit a complaint to the very organization that's mistreating them,” she said.

For its part, LAHSA, which administers the majority of homeless service contracts in the county, does not have a uniform policy on when it is appropriate to terminate a client from a program. The agency does review each shelter's policy, if it funds the shelter, said Chris Callandrillo, director of procurement and performance management. It does not have reliable data on how many people are kicked out of shelters.

Shelters do improve — when they want to

The startling claim was deep into a client satisfaction report filed on Jan. 5, 2018 by a Department of Mental Health client. The client gave the shelter run by the nonprofit LA Family Housing largely high marks when asked whether to agree or disagree with statements like, "I have generally positive interactions with staff" and "I receive toiletries when I need them."

Then in the comments section, the client wrote, "Someone got stabbed in their room. This place feels like a jail with an open door."

Stephanie Klasky-Gamer, the president of LA Family Housing, confirmed the stabbing.

"It was an incredibly sad — and scary — but sad day here," she said.

It was also a learning opportunity. The shelter switched security companies — bags were already searched and people searched with a wand on entry, but a knife had gotten in.

The agency also revamped its procedures for checking clients, from "every person, every day," to "every room, every day" — meaning staff members now need to enter every room on the property on a daily basis to check on clients.

"It also allowed us to see things that were getting in that shouldn't have," she said.

None of those changes were required by the myriad agencies that monitor LA Family Housing: the Veterans Administration, LAHSA, the L.A. County Department of Mental Health, L.A. County Department of Health Services, several individual cities and the U.S. Department of Housing and Urban Development.

Other shelters may also want to improve, she said, but might not have the expertise or resources to do so.

"I would not say that any of our colleagues don't care," she said. "I think when you have really limited resources, there are places you cut back."

Klasky-Gamer said auditors visit the shelters roughly three times a week, generally performing one of three types of check: financial audits, programmatic audits and physical audits. There's so much monitoring that the space-crunched agency even has a room dedicated to files in its main campus building in North Hollywood.

She said she wishes one agency was tasked with taking the lead on auditing.

"But I don't begrudge oversight," she said. "These are public dollars and this is a public benefit."

Some major issues are not addressed, however, in all the monitoring.

LAHSA reports do not directly address safety issues beyond emergency evacuation plans, fire extinguishers and cleanliness. The agency said it requires shelters to report incidents of violence and then passes that information to whatever entity — like the city or county or federal government — that funds the shelter's contract.

Orlando Ward of the VOA said the decentralized system for regulating shelters can be frustrating.

"We may suffer from not only a lack of a uniform set of standards, but differing levels of accountability and, in some instances, a lack of direction," he said.

New York City, Philadelphia, and San Francisco have "cabinet level" officers dedicated to addressing homelessness, he said, which helps them organize and build a common mission and set of best practices.

L.A. has nothing comparable. There's more coordination than ever before in L.A. but not enough.

"We still must build a common vision with 15 council districts, a mayor and five county supervisors," Ward said.

Callandrillo said such a system would be hard to reproduce in decentralized Los Angeles, with its numerous municipalities, multiple funding sources for shelters and wide geography.

"With the small city of San Francisco, it's doable," he said. "Within a region like L.A. County, which is 400 square miles, it's just not a manageable model. And to do it regionally, like we do other services, would probably cost a lot of money."

It's unclear what it takes for a shelter to lose its contract with LAHSA, which works with dozens of agencies. Callandrillo said that it's happened three times in the past four years. Even as thousands of beds sit empty, the overall number of available beds is too small to risk losing them.

"Typically a shelter provider owns the site or holds the lease for a site, so if we're cancelling a contract, often we're cancelling the availability of shelter beds in an environment where we have very few shelter beds," he said. "We try to work with our providers to not have to do it."

Alice Myles, 61, used to be a nurse before becoming homeless. She tried living in shelters, she said, but her belongings were stolen and she didn't like being around fights.

Susanica Tam/For KPCC

Callandrillo said the problem of unused beds is "systemic," and less about an individual shelter than how people get and find beds.

"It's not for lack of need," he said. "One of the main issues is connecting people to available shelter beds."

A person might walk into a shelter in Santa Monica that's full, while across town, there's an available bed.

LAHSA is working on a way to better track available beds so that providers can immediately direct clients to them, Callandrillo said.

He said LAHSA has posted a position to create that system, but has not hired for it yet.

What happens next?

As these conditions persist, the push is on to rapidly expand L.A.'s shelter system to accommodate a growing population of homeless people — all amidst a housing market that makes the region's larger goal of finding everyone a long-term, affordable place to live more challenging by the day.

L.A. County and the city of L.A., through Proposition HHH and a new developer fee for affordable housing, are putting hundreds of millions of dollars into the construction of permanent housing. Providers, however, are still struggling to find enough spots for clients, and construction will take time.

In the meantime, L.A. Mayor Eric Garcetti has proposed funneling $20 million in city funds into creating "temporary" homeless shelters in each of the city's 15 council districts. A neighborhood that accepts a shelter, in turn, has been promised additional sanitation resources and police attention to ensure that it stays free of encampments.

"Every homeless Angeleno needs a safe, clean, place to sleep at night," Anna Bahr, the mayor's deputy press secretary, said. "Each new site will have unprecedented service delivery: 24/7 security, mental health professionals, employment specialists, and anti-addiction experts. The mayor's office will be monitoring each site closely, to ensure they remain safe and clean."

L.A. County is also poised to shift more funds from Measure H, a new quarter-cent sales tax for homeless services, into interim housing like shelters.

LAHSA has recently upped the rate it pays shelters to improve quality. That money is intended to fund more robust services and amenities on site — what the industry calls "bridge housing."

It's a key change if the goal remains finding permanent housing and jobs for as many of the region's homeless people as possible.

The move appears to have merit. LAHSA figures show that for the past year, about 39 percent of those in bridge housing have moved on to permanent homes. For those in traditional shelters, the number was 17 percent.

About 2,000 clients were in bridge housing during that period, while 12,000 lived in standard shelters. In all, close to 60,000 people lack permanent housing in the county.

The ACLU's Garrow says the goal of getting people back on their feet and into permanent housing is not easy. That makes conditions in shelters that much more important.

"The promise is that they're temporary, but so often it's a broken promise," Garrow said. "We have to ensure that shelters are humane and held to the highest possible standards because people will be living in them for a long time."

Kerry,

We have a meeting coming up next week at our office to discuss this exact topic (and related topics) with LASAN, outreach providers, etc. - the whole team. LASAN told me yesterday they want to use their wastewater facility at Cole/Waring as the place that the BID would deposit the bags.

Rich and Shannon are on the calendar invite; I'll include you and Eddie too to keep you in the loop.

Best,

Eddie and Shannon,

Now that the bags are here – can we have a conversation about the transport to the city sanitation yard?

As we had discussed during the planning phase, if bags were placed adjacent to BID trash receptacles, the BID would be able to pick these up to transport to a city facility (I think located in or near the Media District). As you know, we have 6 dumpsters emptied daily in the Pacific Theatre alley, and have no dumpster bandwith to accept more trash.

Eddie, I believe you indicated that you'd be able to come with our crew a couple times to ensure they city staff at the facility knew that we were providing this service and then it would be more routine in the future.

We should also discuss about timing for these pickups – so that our staff does not become overwhelmed by having to dash down south everyday. (Perhaps picking up three days a week, or something like that.)

Happy to get on a conference call to discuss, if necessary. Rich is copied here and he will coordinate.

Hi Dan,

We don't have a map of the trash cans and it would take hours for me to make one. Not the best use of time. I can include this image and a map of the district and again explain that there is a trash can on every corner. Do we think that will work for the group?

Let me know and feel free to call me if you want to chat.

Hi George,

Thanks for reaching out to me. As you mentioned, there is currently no BID east of the freeway to maintain these fixtures.

West of the freeway, in my previous conversations with the Hollywood Property Owners Alliance, my understanding is the preference is to simply forego the hanging planters. I believe they have been tried in the past, but they are difficult to maintain. **CCing Kerry and Rich from the BID, who can provide further insight.**

Thank you, Dan and Hi George!

Please do not put hanging flower baskets in the BID. They are far too difficult to maintain.
Though beautiful in theory, they just don't work in this area.
Thank you and the team as you all have truly done such a wonderful job in that area thus far!

Dan, I worked on this Friday while I was here at the office, after hearing about the truck fire.

Please know that I am trying to keep pressure on the city council to see Hollywood not as just another neighborhood in CD 13, but rather as a crown jewel in our tourism economy. I feel the need to push the sense of urgency on a number of fronts – so give Mitch a heads up, that it is my hope that this helps him to build a coalition to protect Hollywood – on a number of fronts.

Hi Dan,

As mentioned, I'd like to help communicate what a truly significant investment of time, energy and money that Mitch is bestowing upon our community with the HEART of Hollywood initiative, and the work that you are doing, and have been doing, to this end. I am putting together our Spring 2019 newsletter and am planning to put this on the front page.

Do you have a press release I could pull facts from about HEART? I did find this on Mitch's website that includes a lot of helpful info:

If there's anything else you'd like to add personally, including if you have any quotes you'd like me to use for you, please send them my way!

Hi Kerry,

I hope all is well. I would like to invite you, on behalf of the Hollywood Property Owners Alliance, to a roundtable discussion to hear updates on the temporary bridge housing facility at 1533 Schrader Blvd.

As you know, this project was recently approved by the City Council, and demolition/construction activities are expected to begin on Monday, October 15th. In advance of that, we will be holding this meeting to share updates and seek feedback and questions from community stakeholders and leaders.

This discussion will be held on **Thursday October 11th at 6:00 PM at The Center at Blessed Sacrament, 6636 Selma Ave, Los Angeles, CA 90028.**

Please RSVP to me directly if you are available and/or interested in attending. **Please note that this invitation is NOT transferable, and this is not an open house or town hall.** We have ongoing weekly meetings that are open to the public; please feel free to contact me for details.

Please let me know if you can make it on Thursday October 11th at 6:00 PM.

Thanks!

Dan, we are all excited to learn about the new HEART initiative that you will be leading, and there was a lot of support at the board yesterday to do what they can to help you succeed!

One idea suggested by Leslie – and she is copied on this email – is to meet with Michael Forman re/ the Pacific Theatre. Leslie's family was connected to the Forman family, and she would be willing to set up a meeting perhaps in December or January, if you and Mitch are open to that.

I think Leslie will be a great resource for you there – so we'll put that in your hat!

Greetings friends,

You may have seen the article in the Times this week re/ the Mayor's proposal to locate emergency/bridge housing in every council district. May I invite the leadership council for Hollywood 4WRD to come together on this issue on Friday, May 27 at 9 a.m. here at the BID office? We will be meeting with Dan Halden to advise him on needs in the Hollywood community.

Let me know if you can come.

Frank,

What a pleasure meeting you and having this discussion. I trust we will have many more conversations.

In the meantime, I'd like to invite Hollywood 4WRD to the "community open house" for the proposed project on Schrader that we will be holding this coming Tuesday.

There will be several stations and participating organizations sharing information about what the City and County are doing regarding homelessness, the details we can share so far on the Schrader project, and "best practices" re: crisis/bridge housing.

I look forward to seeing you on Tuesday.

Best,

MITCH

Hollywood area lighting design

Dan, et al –

Per our discussion, I tapped some of my network within the design community and got us a couple of potential lighting designers whom we could interview / solicit quotes from. They are both in the LA area – my ole stomping grounds in the LBC.

https://www.lightingdesignalliance.com/portfolio/civic/

Want to noodle around on their websites and let me know if you'd like me to reach out to them and request a meeting?

Hi Andrew,

I would love to discuss this idea further with you. I you happen to be out and about, you could stop by our office at 6562 Hollywood Blvd. – just try and give me a heads up of when you would be here. Otherwise we could set up a phone call or meeting at your convenience.

Thanks!

Hi Andrew,

Good chatting the other day! Per our conversation, I'm CCing:

Hollywood Property Owners Alliance - Devin Strecker and April Clemmer
Hollywood Chamber of Commerce - Nicole Shahenian

Devin and I spoke about this the other day. Devin, April and Nicole -- Andrew [redacted] is a local artist and resident applying for funding with DCA to do a "pop-up" event called *Window Shopping* that would utilize storefronts on Hollywood Blvd. Details are below. I thought you all would be interested in learning more. I suggested Andrew target the area between Highland and Vine.

Hi Dan,

As we discussed, I visited the Farmers Market on Sunday October 7th. I have attached a few images that capture the negligence and outright abuse of the Farmers Market. Vans and trucks park on the sidewalks and it's unacceptable. As you can see in a few of the photos, the vehicles are dangerously close to the parking meters, buildings, and historic light poles.

Please feel free to give me a call to chat when you get a chance and we can move forward in discussing this with them.

Thank you!

Neighbors,

Thank you again for your participation and partnership over the last several months. Since spring 2018, countless people have worked to make a new Hollywood bridge housing facility a reality in the most collaborative, respectful, and efficient way possible.

Bringing bridge housing to Hollywood has been guided by two principles: 1) that the process is open, engaging, and includes ongoing community dialogue; and 2) that any bridge housing facility and program will be reflective of, and thoughtful to, the Hollywood community.

This new bridge housing facility at 1533 Schrader Blvd is scheduled to open within a matter of weeks. When open, it will house up to 70 men and women at a time and include on-site services such as security, case management, and other resources.

Prior to the opening, we will be holding a **Community Open House** for Hollywood stakeholders. The Open House will be held on **Tuesday, March 19, 2019 from 6:00 to 7:30 PM on-site at the facility itself, 1533 Schrader Blvd.** Attendees will be given a chance to tour the location, meet the operators, and learn more about the on-site programs and City resources that will be coming to the surrounding neighborhood. Flyers in English and Espanol are attached.

Please RSVP to myself or Sean Starkey (sean.starkey@lacity.org) if you are interested in attending. This is not a town hall-format with a definitive start time; rather, we invite you to join us at any point between the hours mentioned above, as informational resources and tours of the facility will be provided throughout that time. Please let me know if you have any questions.

Warm Regards,

Hi everyone. Thank you for the call today. It was very clarifying.

Here's my recap and breakdown of next steps. Feel free to corrector and/or add.

>TIMELINE
- Once contractor (TFN) is on board, expect coordination with DOT/Wayne/Samir to occur.
- Total project timeframe: 3-4 months.
- Completion target: October 2018
- LADOT/Samir/Wayne/TFN to provide CD13 and the BID the Project schedule once complete.
- CD13/BID to decide appropriate community event for Project.

>FUNDING
- North of Project: deficient approx $34k (DOT to identify meter revenue) -- METRO should reimburse LADOT!!
- South of Project: deficient approx. $65-75k (CD13 will cover)

DOT will confirm next week on availability of meter revenue funds.
DOT to send CD13 Project description, exact amount to be transferred and DOT department account info for Council motion enacting transfer of funds.

> MAINTENANCE
- DOT to provide info on maintenance plans with other communities with signage (ex. DTLA, Westwood).
- BID to seek inventory of existing directional signs to be removed.
- Continue discussion of long-term maintenance/replacement plan between City and the BID.

Thank you.

Hi Brett,

Per our discussion, I'd like to connect you to Kerry Morrison, who manages the Hollywood Property Owners Alliance, the major Business Improvement District (BID) in central Hollywood.

Kerry -- Brett Porter works for Dixon Resources Unlimited, which is doing a Hollywood Parking Study for the City. Dixon recently was awarded the contract via an RFP through LADOT, and will be working on the study throughout the summer to identify ways to better improve the parking situation and experience in Hollywood. I thought it would be worthwhile for you to connect.

Hello, partners --

I hope you are having a good week! I am reaching out to see if you are able to participate in our final CD13 "Community Conference" taking place on **Saturday, November 17th, 2018 at Los Angeles City College from 9:30 AM until 12:30 PM.**

The Community Conference is a forum that gives folks the opportunity to hear directly from City Departments and other agencies on issues impacting Hollywood and East Hollywood. To do this, we will be hosting two panel discussions: one on housing issues, and the other on the situation surrounding **homelessness**. I'd like for the homelessness session to focus heavily on our efforts to bring the Bridge Housing project to 1533 Schrader Blvd, which is why I'd be thrilled to have participation from all of you: **LAPD, LASAN, Hollywood 4WRD, PATH, The Center, and United Way!**

In addition to the two panel discussions, we will have tables and booths set up for residents to ask representatives of City Departments questions about things like planning, sanitation, sidewalk improvements, pending legislation, traffic issues, etc.

Please let us know if you can join us for the homelessness session, and I will be in touch with you to coordinate logistics at a later time. We anticipate **the panel to last from approximately 11:00 AM to 12:00 PM.**

Keep me posted... Thank you! :)

Friends,

I was informed by the Department of Transportation that the NEW full traffic signal at Hollywood and McCadden was activated earlier TODAY!

A formal celebration will come soon, and we will definitely let you know.

In the meantime, enjoy this safer pedestrian crossing in your neighborhood. As I've said before, this was the last remaining unsignalized crosswalk on the Walk of Fame. With today's activation, ALL crosswalks on the Walk of Fame now have traffic signals. :)

Here's to a safer Hollywood!

Warm Regards,

Dan,

See photos attached. NEC of Lexington/Vine Streets outside of the Dollar Tree. This encampment is getting out of control – an entire bedroom furniture set out on the sidewalk.

Is it possible to get this on the list for Sanitation to clean up?

Hey guys. Here are contacts for Jump (Uber) and Lyft Scooters. I realized I haven't actually made contact with Wheels Bikes, which seems to be the most egregious right now in terms of deploying on the WOF. But I just sent a message via their website so I will let you know as soon as I hear back from someone.

Hello ladies!

We are planning a special SURPRISE celebration to honor our executive director, Kerry Morrison, and the President and CEO of the Hollywood Chamber, Leron Gubler. As you may know, they are both leaving their positions in the coming months and the council office has a very special honor to bestow upon them both on December 13th. We wanted to kick off the festivities with a champagne toast, cheese and crackers, at 11am. I wanted to check in with you to see if Soul might be willing to host us. It will be about 40 people and just for a short time – we will most likely leave at 11:30/11:45 to get on a Starline bus. Let me know if Soul would be available that day, and what you would charge for champagne, crackers and cheese (or similar appetizers).

Thanks!

See below from a note regarding some confusion about enforcement within the SEZ. I thought LAPD was partnering with Streets Services & LAHSA within the zone? I'd like to ensure that I am communicating good information to the sender, and that our security is better prepared to answer accurately.

Kris –

LAPD said we should call the BID Security and report infractions by transients within the new "Special Enforcement Zone" that started just today.

But when I just tried to do that, I was told by the Andrews person who answered that that was "wrong," that Andrews has no new authority yet to enforce code violations by transients within the "Special Enforcement

Zone."

Wonder if you can get it sorted out and see if Andrews will be helping LAPD enforce the "Special Enforcement Zone," or if this is just going to all fall on LAPD? Hope this new "Special Enforcement Zone" isn't going to just be all smoke and mirrors and won't be enforced.

April, attached is agenda for Wed morning. Please print everything – color and one sided (make sure you get the back side of the permits)

Lorin, can you look for me tomorrow and ascertain what they will be paying for their assessments in the new BID… I think it will be less.

Thanks

Thank you, Kerry.

Have you been able to find anything related to the formation of the EaCa Alley Association -- i.e. Board of Directors, etc? Dave said the BID might have records, as Sarah was instrumental in creating EaCa Alley.

Dan, I forwarded everything I had to David…we did everything for them – created bylaws, and a membership list, etc. They never formed the association. I paid for an articles of incorporation filing with my credit card – sent him that. None of that was ever followed up on. He says he has an association – but it is not memorialized in any legal way. Nor does it meet – with respect to including the totality of who owns property along that alley. And, the gate has been locked now for a couple months; its not being used.

From the perspective of what the city chose to do with CRA funds – invest hundreds of thousands of dollars into creating a pedestrian alley – the vision is not being realized. I think tomorrow we should talk about how to resurrect that. The revocable permits he has only allow for tables and chairs, and they specifically say they must be placed in such a way as to ensure 7 ft. of pedestrian access.

Hi Carlee! So good to hear from you! How are you?!

Yes, unfortunately the BID ends at the 101 FWY as our eastern boundary. The area you're talking about is kind of in between our BID and the East Hollywood BID, and as far as I know, is not included in a BID at the moment. I would recommend contacting Dan Halden in Councilmember Mitch O'Farrell's Office. He is the director of the HEART of Hollywood program, and their team often does neighborhood clean-ups, so maybe they could arrange something? Sorry I can't be of more help!

Dan can be reached at: daniel.halden@lacity.org or (213) 207-3015.

I hope you are having a wonderful start to your year. I wanted to reach out because I'm fairly certain that LaTerra Development is a member of the BID; however, our site is just outside both boundaries in terms of the CLEAN program. Do you have any recommendations on what we can do? There is an excessive amount of graffiti on Western in between Sunset Blvd and the 101; particularly along Western and Fernwood. Hi Kerry

We can't add them to our report if we don't have them and the Committee report cannot add them if they don't have them in time. I think the option, if you believe necessary, would be for your Councilperson to amend the report on the Council floor adding the MTA parcels to the petition level. That assumes my office has them in time to verify by the time it hits Council. You would need to reach out to your Council Office to see if they would be willing.

This incorporates subway related properties, along with W Hotel and 1600 Vine, both of which are supportive (and pay their assessments through pass throughs). Our Economic Development Committee hearing is April 24. Could the MTA petitions be added to the amount as the ordinance of intention heads to council, which will be after the April 26 MTA hearing?

Kerry,

We can accept petitions up until the time this is approved, signed and submitted to Council.

I don't want to mess this up. To be on the safe-side, we can accept petitions until this Thursday (4/12/18) at the latest unless Shannon or Holly tell me differently.

We absolutely have to be on the April 24th Economic Development Committee's agenda and have everything approved, signed and in place prior to their agenda setting meeting which could be as early as next Monday but we have to have staff and others available to verify the petitions and approve the final documents before submission.

We also have a big mailout for the Arts District Los Angeles PBID renewal during at this same time (in Council today for its ordinance of intention). Also, Fashion District and 5 other BIDs are right along side yours right now. With so many this late in their renewals we're stretched very thin.

Thanks.

Dave and staff,

I mentioned this to you a couple week ago – I had seen this demo-ed at the IDA Trade Show in San Antonio. It is very cool – but they are somehow blocked out of entering the LA market due to the city's contract with J.C. Decaux for street furniture, information kiosks etc.

This is a web-based system to allow for interactive communications for visitors/customers to direct to a whole host of resources – public and private. You can also do online surveys, pedestrian counts, photos, etc.

However, they are trying to make inroads into the LA market– and there might even be opportunities (as we discussed in the meeting) to put these interactive kiosks on private property.

They have a demo set up in West Hollywood this week – Dave, it would be great if you could go as a board member. Rich and/or Devin, would love for you to see this also. Here is a link to their website, and the little video they have provides a quick overview of the capabilities. Dan, I'm copying you because they specifically said they had showed this to Mitch at the League of Cities Conference… maybe someone from the council office might want to take a look

https://www.ikesmartcity.com/

You can see the hours they will be at the Pacific Design Center below – Tuesday through Wednesday.

Hello Kerry,

I hope you had a great time away from the office. I am writing to follow up on the below discussion to demonstrate IKE for members of your staff. We will have the kiosk set up at the Pacific Design Center, Blue Building, on Tuesday and Wednesday. A member of our team will be there all day on both days, so please let us know what time during those two days will work for members of your staff and we'll be happy to demonstrate the kiosk to them.

Additional Details:

Blue Pacific Design Center building at 8687 Melrose Ave, West Hollywood, CA 90069 in the Conference Center located on the 2nd Floor.

Guests can park at PDC and we will validate parking. The demo will be available from 8:00am on Tuesday the 11th until 6:00pm on Wednesday the 12th.

Hello Kerry,

It was great meeting you last night. Thank you again for the kind words about IKE. We actually demonstrated the kiosk for Councilman O'Farrell in November at the National League of Cities and he expressed great enthusiasm for the project as well.

As we discussed, we are working to build stakeholder support for IKE in LA and counting the Hollywood BID among our supporters would be a great accomplishment for the project. We will be bringing a kiosk to WeHo on December 11 and 12 to do demonstrations for City Council members. Could we schedule some times to have you and members of your staff come by during those days to get a demonstration as well?

Also, you can see a short video about IKE at the following link, in case you want to share: www.ikesmartcity.com.

Hi Dan,
Katie Seymour is now working in management at Eastown (she was formerly with the Sunset + Vine Apartments and served on the Sunset & Vine BID board in that capacity). They are having issues with tour vendors setting up kiosks in front of their property on the Walk of Fame. Is there something we can do about this? They're not supposed to be placing umbrellas and kiosks on the Walk of Fame, as far as I know.
Thanks!

FW: Invoice - "Ryan Hansen Solves Crimes on Television"

Hi Dan,

Is there a way you can advise people who want to close the boulevard about the fee (donation) to Navigate Hollywood for the alert system? As you can see, there was a closure that didn't know about it and the production has closed so they won't be able to pay it. I know this used to be an issue because we don't bill until after the closure and even then we usually only bill quarterly so sometimes a lot of time goes by from the date of the closure to when we send the bill. It's best if they can be informed up front about it.

Thanks!

Devin

Hey, do you have any idea who to talk to so we can be sure people know they need to pay for these? Not sure if this has happened before

Hi April,

Thank you for reaching out, however my show is wrapped for the season, and there is no way to get this paid. Since this is the first I am hearing about this, I did not plan for this in the location dept budget.

I am not against the idea or principle of this, and in fact support local community organizations, but due to the fact that my show is no longer in production there is nothing I am able to do at this time. I wish I would have been notified before the shoot date or when we went before the Hollywood Closure Committee, so we could plan to make donation. I will remember the HPOA for future shows. I would suggest reaching out to Film LA to make sure that the HPOA is known not only to location managers and scouts, but to also to permit coordinators so that this organization can get on the radar and be made part of the process.

Best,

David

Hi Devin, the illegal 'yellow' loading zone is on your side of the street in front of a souvenir and market, second store before you get to Las Palmas that has a Tour company booth in front. The same person who painted it the same morning went directly across the street at 10 AM and painted the yellow stripe also in front the Rock and Roll T-shirt store next to Stephano's Pizza. Rock T-shirt owner photographed the van and license plate. The 'White stripe in front near Starbucks is a different scenario. All of Hollywood Blvd from Las Palmas to McCadden was painted red, on the north side of the street. Because of safety issues it was suppose to be all 'red'...with the new traffic light installed. But Jeff the Startrack tour company owner cried to another person....oh well. So with the illegal vendors in front of Starbucks eating up every inch of the sidewalk there and next to the fire hydrant and directly next to the intersection with umbrellas hitting tourists in the head, somebody soon will be hurt.

Hi Kevin,

I have been looking into the issue of the loading zone on the curb near the entrance to your store. I am having the council office verify, but they seem to think the white passenger loading zone, located right in front of 6741 Hollywood Blvd., is a legitimate loading zone. Was that what you were talking about? If it's a legitimate loading zone, I don't know that there's any problem that we can solve here...

DOT even know this.

The white zone near Starbucks was told by us that because of the new installation of the traffic light, "by law", that there could not be a zone. Jeff of the StarTrek tour company cried cried. And the next thing we knew it was (law?) changed.

Hello,

The Los Angeles Promise Zone and Youth Policy Institute (YPI) is excited to partner again with the Los Angeles Homeless Service Authority (LAHSA) to coordinate the Greater Los Angeles Homeless Count in **Hollywood** this year! YPI has coordinated the count in Hollywood for three straight years, making this their fourth year leading the efforts in Hollywood. You may have received our e-blasts and newsletters in the past weeks, but we wanted to contact our LA Promise Zone partners directly and ask that you volunteer for the 2018 Hollywood Homeless Count!

Every year LAHSA conducts a point in time count across LA County to determine how many individuals are living in the streets and experiencing homelessness. The data we gather from these counts will help LAHSA and other institutions make informed decisions about the programs, services and policies they administer. With your help, we will inform our communities on the state of homelessness, bring vital community resources, and increase engagement bringing together leaders, residents, and stakeholders.

Date/Time: January 25, 2018 at 10 PM

Location: Hollywood City Hall

6501 Fountain Ave., Los Angeles, CA 90028
Parking will be provided for those who drive, however we suggest carpooling.

Sign up to volunteer HERE!

There will be a short training the night of the count.

Please consider the weather and wear comfortable clothing.

Please share our flyer (attached) with your colleagues and friends!

If you have any questions, please feel free to reach to me or Samuel Park (samuel.park@lacity.org).

To: Property Owners

You may be aware that the city is in the process of updating the Hollywood Community Plan, a plan that has not been updated since the 1980's. This is an important process that will help to shape the land use and zoning policies to support the anticipated growth in Hollywood over the next 20 years.

Additionally, we were recently made aware that a remnant of the CRA, the **Hollywood Boulevard District Urban Design Plan** must also be completed. Care is being taken to ensure that there is no contradiction between policies in the Hollywood Community Plan and this Urban Design Plan. However, we wanted to ensure that you as property owners within the affected plan area for the Urban Design Plan are aware of what is in this plan, and can weigh in on it.

To that end, I'd like to invite you to a meeting at the BID office

Thursday February 7, 2019

10:00 to 11:30 a.m.

6562 Hollywood Blvd.

The consultant who has been retained by the CRA (yes, it still exists) will be on hand to present this plan update. His name is John Kaliski with John Kaliski Architects.

Please RSVP at to your attendance to

I trust you can be there – and it would be good for you to bring Danny also. Dan and I feel that having too many unilateral conversations with people about how to best secure and make more safe the north ally is not efficient – we need everyone in the room at the same time.

Please confirm that you and Danny can be there. Dr. Anthony has offered to make his conference room available for this.

Morning — to come to consensus on some solutions to bring a sense of safety and order to the north alley, Dan and I thought it best to bring the neighboring property owners together to collaborate together. It appears that we have issues related to parking, trash, parties, noise, homeless encampments, public urination and more. We know you all would like to see a sense of calm be restored to that alley, and we know you also would like to gate it to protect it.

It would be most productive to have everyone in the room at the same time to come up with a plan to move forward.

Here are some dates for us to meet — and I think its important we all be in attendance so we can come up with a plan once and for all.

Tues Dec 4 - 9 a.m.

Wed Dec 5 - 9 a.m.

Thur Dec 6 - 9 a.m.

Tues Dec 11 - 9 a.m.

We can meet in Dr. Anthony's conference room. Please let me know if any or all of these dates work for you, and I'll get this meeting scheduled.

Thank you all,

Subject: CCA Reflects: Mitchell v. City of Los Angeles – It's Time to Stand Up - August 2018

CCA Reflects

August 2018

CCALA.org

CCA Reflects is a monthly series where we share our insights on what is happening in DTLA and the region.

Mitchell v. City of Los Angeles – It's Time to Stand Up

Homelessness affects us all. We see every day that our city is in the middle of a crisis and that we are struggling to meet our collective responsibilities. There has been an abundance of media coverage that has thoroughly examined the issue. For example, *Dateline*'s recent special on homelessness called "City of Angels" showcased the state of our streets with a special focus on Downtown Los Angeles. Homelessness is a complicated issue and there are many reasons for the growing epidemic and why it is so difficult to solve. One of the hardships we face is the series of legal actions that has kept the City's hands tied from properly managing our sidewalks. We need to end the cycle that further entrenches the status quo of people living on the street and instead push comprehensive and thoughtful solutions that move people to interim and permanent housing.

Mitchell v. City of Los Angeles is a case filed against the City of Los Angeles in the Central District of California by the Legal Aid Foundation of Los Angeles. In April 2016, the district court issued a preliminary injunction against the City, which effectively eliminates any limits on personal goods on the public right of way, and applied the injunction only to Downtown, specifically from Spring to Alameda and 3rd to 8th Streets. The court accepted the plaintiffs' allegations as true for the purpose of formulating its order, and it held that the alleged conduct of the City raised Fourth Amendment privacy and Fourteenth Amendment Due Process concerns.

The City Council will be discussing this lawsuit and deciding how to proceed before the February 2019 trial date. The City has a few options: (1) settle the *Mitchell* case in accordance with the current injunction so it only applies to Downtown, (2) enter into a citywide settlement or (3) go to trial. **We are strongly advocating for the City to go to trial and not settle on terms that would decrease the quality of life for the homeless population in Downtown.**

Settling the case so that the terms only apply to Downtown would be devastating. This could permanently remove the 60-gallon limit on the amount of personal property established in LA Municipal Code 56.11 (Storage of Personal Goods) only in Downtown. Eliminating this limit will result in further densification of the Downtown homeless population and make it more challenging to provide housing, services and facilities to meet the current need. This will also prevent people from seeking services, reconciling with family or significant others, or actively pursuing housing and other life opportunities by making life on the sidewalk permanent.

Homeless services, facilities and housing are the answers to ending homelessness, not the precursors to allowing unlimited goods on the public right of way. The Downtown area included in *Mitchell* has the highest concentration of homeless individuals, housing and facilities. **What precedent does it set for building homeless housing and the City's "A Bridge Home" initiative if the area with the most homeless services and housing is the place without limits on goods on the public right of way?**

A Downtown-only settlement implies that those who currently have housing or are engaged in services to get off the streets in Downtown deserve less than those who live in the rest of the city. Why should people in one neighborhood be treated differently? **It is bad public policy to deny people in Downtown the same rights that we provide to other residents in the city.**

In addition, **we are very concerned that permanently setting a different standard in one neighborhood is unconstitutional and would set the City up for litigation in other neighborhoods**. Singling out Downtown is not the solution.

We believe that the City has a strong case for going to trial. For the preliminary injunction phase of *Mitchell*, Judge Otero of the Central District of California did not have to review the City's evidence. If the case goes to trial, he will have to enter the trying of facts phase and consider the City's conflicting evidence.

Judge Otero also needs to hear about the tremendous progress the City has made on homelessness since the injunction was issued in 2016. We've passed Proposition HHH and Measure H, identified interim housing sites and opened a storage facility, sobering center and the Refresh spot. We also are waiting for the $85 million for interim housing from the State surplus budget that we fought for. $20 million of this will go to Downtown, and two sites have already been identified in Downtown. **All of this progress is not recognized in *Mitchell*, and a trial would give the City the opportunity to stand up and showcase this work.**

We are at a unique inflection point where all parties are working toward the same goal of ending homelessness, and the City is at the cusp of making significant progress. We cannot let another court case get in the way.

CCA has built a diverse coalition of civic, business and community leaders – including The LA Area Chamber of Commerce, The Midnight Mission, United Way, Weingart and others – to voice our opinion on this issue and submitted a letter to the City. We will continue to share our thoughts with our elected officials, especially as we prepare for the case to be discussed at Homelessness and Poverty Committee on October 3 (tentative). Please let us know if you are interested in joining our coalition.

David and Aziz,

It looks like we won't be able to meet next week re/ the alley assessment exemption you have requested. Dan is out of town on Thursday, and John is out of town on Friday.

I'm asking April on our team to find another day, next month, when we could meet for about an hour. I want to have John Tronson there, as he was involved with the BID formation effort when the alley assessment zone was created. I also would like one current board member involved (either Chad or Even, who both served on the current BID formation committee). Dan Halden needs to be there also, because of the city's role in granting revocable permits.

I understand you may be travelling – so please let us know your schedule, and I'll have April work from there.

Thank you for your patience.

Subject: Request for exemption from alley assessment -- Meet 3 p.m. April 19?

Dave and Aziz,

I received your letter in the mail on Friday relative to the alley assessment and the request for exemption of your property.

Thank you for taking the time to put your question in writing and submit your revocables.

As you know, the staff's interpretation of what constitutes the appropriate revocable permit to be exempt from the alley assessment is different than yours. To that end, I'd like to broaden the discussion, because I don't feel authorized to make this decision on my own. I'd like to include John Tronson, who was chair of the BID Renewal Steering Committee ten years ago when the alley assessment was created, and Dan Halden, because of his understanding of this alley asset for the city, and the range of revocable permits that can be issued by the city. I'm also copying Chad Lewis, chair of the HPOA.

I appreciate that you have both signed your petitions, and we can move forward, as there is a lot on the table to try to get this BID formed. However, if the group's assessment (or the board, if that is required) is to exempt your properties from the alley assessment, we can pursue a refund.

I know Dan is out of town for Spring vacation, and I'm thinking that with Chad's travel schedule, that perhaps we try to hold a face-to-face meeting just before the next board meeting on April 19.

Let me know if that is acceptable to you, and I'll work on everyone's schedule, and see if that would be a good time.

Kerry

> Street Vendor Leaders in Hollywood to Hold Press Conference
>
> Over Permit Exclusion
>
> WHAT: Hollywood street vendors will hold a press conference to protest the designation of Hollywood Blvd as a "no vending" area within LA City's Proposed Sidewalk Vending Program. Street vendors will then collect petitions of support from visitors and tourist on the Walk of Fame.
>
> WHEN: Wednesday, June 6, 2018 at 5:00 pm
>
> WHERE: Corner of Hollywood & Highland- In front of Forever 21
>
> WHY: On Tuesday, April 17th, 2018, the Los Angeles City Council voted 11-4 to approve a framework to legalize street vending in Los Angeles. The City Attorney is now drafting the ordinance which is set to return to City Council next month in July. The Los Angeles Street Vendor Campaign (LASVC) believes this the right step toward creating economic opportunities for hard working sidewalk vendors. **However, we are concerned about the exclusion of Hollywood Boulevard. The "Operating Requirements" (Attachment 3, Page 6) of the program, recommended by the office of the Chief Legislative Analyst (CLA) and adopted by City Council, include a provision that completely prohibits sidewalk vending within 500 feet of Hollywood Boulevard.**
>
> Hollywood business groups have claimed that sidewalk vending obstructs pedestrian access to the walk of fame and Councilmember O'Farrell asked for Hollywood Boulevard to be included in a list of no-vending areas. Sidewalk vending has been an integral part of street culture in Los Angeles for many years and tourists visit Los Angeles, including the walk of fame, with an expectation to see and shop from sidewalk vendors. Dozens of vendors have been organizing to support sidewalk cleanliness and pedestrian safety and the LASVC believes sidewalk vendors in Hollywood should be part of the conversation in finding solutions to issues of sidewalk obstruction and overcrowding. Hollywood vendors and allies will be speaking on Wednesday to uplift their stories and call on the small businesses and Councilmember O'Farrell to work together to find a solution that doesn't exclude an entire group of hardworking entrepreneurs.
>
> WHO: The LA Street Vendor Campaign's driving force are the vendors themselves. To support their efforts, more than 65 organizations from cross-sectors in Los Angeles and 400 brick-and-mortar businesses have formed a coalition to advocate for a policy that supports these low-income entrepreneurs.
>
> Media Visuals: Hollywood, Street Vendor and Supporter Speakers; Visual-heavy presentations; Active audience chants and songs.

FW: time to talk this week

Kerry Morrison <Kerry@hollywoodbid.org> Fri, Feb 1, 2019 at 11:19 AM
To: "Dr. Awad Anthony, MD" <aanthony@stamc.org>, "George Fahmy SAMC, CFO" <Georgefahmy@stanthonymedical.org>

Dr. Anthony, I am glad we had a chance to talk this past week. As you know I am leaving today – but I feel very good about the progress we've made in ameliorating many of the issues that you brought to our attention several months ago. I am leaving you in very good hands. I hope and trust that the outcome of this effort will be your ultimate agreement to gating the alley at night – for I believe that will be an essential tool to keeping that area safe in the future.

I understand that you might be waiting to see a few more things be put into place to have a comfort level with that.

By way of this email, I am introducing you to Errol Roussel – he is the owner of Kitchen 24, and in my humble opinion, has carried a huge load these past years trying to create a collaborative around a trash solution for the neighbors there. We have had several productive meetings lately with a trash compacting expert, and he is working on a plan to bring a trash compactor to that site that will likely be more economical, and most definitely, cleaner.

You will be happy to know that Errol and Jackie Duffie and I had lunch this week – she represents the ownership at Julian Medical Building. We discussed the prospect of a new lease arrangement – that would be with Errol's landlord (and not Aziz/Danny). The lot would only be used for her tenant parking, his tenant parking, and the trash compactor. That should obviate any future concerns about that area being used for valet parking or parties.

On this email also, you'll meet Sean Starkey, who is the new field deputy for Council District 13. He is taking over for Dan Halden, who is taking on a new project for the councilmember.

Finally, Rich on my staff can be a contact person during this interim, but I'm also copying my successor, Kris Larson, who will start on Feb 25. I've been keeping him in the loop on this situation.

Thank you Dr. Anthony for bringing these issues to our attention. When I get back from my 60 days, I look forward to seeing how that area is transforming. And, I will be reaching out to you with respect to the mental health pilot I hope to be working on at that time!

Subject: RE: time to talk this week

Dr. Anthony – here is a re-cap of things I have been working on since we first began talking about the alley. I trust that you will be pleased that there is a team assembled to bring order back to this alley, and that in good time, you will work with the neighbors to secure the gate. I will hand this project over to my colleague Rich, but I want to lay this out to you, as you might not be aware of how much has been going on behind the scenes.

1. In these final days as exec. Director of the BID, I have been involved in more meetings – at least 8 - related to the Cahuenga alley solution than any other topic in the BID. I am pleased that we have made good progress – and I hope you will agree that your concerns have been taken seriously.
2. Cleaning: with our new maintenance vendor, Clean Street, we are going to get back into the regular rhythm of cleaning the alley. It begins today – you probably notice that there is an intensive deep pressure wash and graffiti abatement and debris removal underway. After this deep clean, there will be a day porter who will come through each day, and the alley will be on a regular once a week pressure washing schedule.
3. Security: with our new security patrol, they will be riding through the alley multiple times a day. Also, LAPD has started a new footbeat, six days a week. We have asked them to walk through the alley as well. We have also secured funding from the BID board to install a video surveillance camera on the Palmer Building that will allow LAPD to monitor the northern section of the EaCa alley and Cosmo. I also secured permission from the property owner to

install the camera on his roof, and the neighboring owner to provide power. I was hoping the camera would be installed before I leave, but it will be in the next couple weeks.

4. Rodents: there is currently a rat infestation associated with the dumpsters. We have secured a bid to do an initial eradication (normally, the BID would not do this, but we want to help get things under control for the good of the neighborhood) , and will ask the alley owners to proceed with ongoing maintenance.
5. Trash solution: this is where we have spent most of our time. The person who has done yeoman's work trying to coordinate trash removal is Errol Roussel, the owner of Kitchen 24. Some owners who have not paid their fair share owe him thousands in back payments – for which is he not assured of a payment. We have been working on a new solution which involves:
   a. Installing a trash compactor in the parking lot. (The trash compactor will be cleaner and impossible to break into.)
   b. Creating a payment system attached to the property owners, where they pay for the access to the compactor for their tenants.
   c. Negotiating with the owner of the lot (Julian Medical Center) to lease the lot to someone who will not use the lot for parties, valet parking, etc, but rather to allow for tenant parking and the trash compactor.
6. Permits for alley furniture. The Bureau of Street Services will be out tomorrow to inspect how people put their furniture back after the cleaning, to ensure that they are abiding by their revocable permits.
7. Parking – everyone has been made aware that there is no parking allowed in that alley. We have told the owners to work with the city to secure loading zones on the street if that is necessary. Anyone who sees cars parking there is encouraged to call a tow service.

I will call you later today.

Hi Kerry –

I reached out to our Tax Department and noticed our tax lead on these issues is out on an extended leave.

I will work on this tomorrow to see who the approriate person to route this would be; I'm afraid the time crunch will also be coupled with the fact that some folks are also vacationing this week. I'm taking a few vacation days this week but I will stay connected with our Tax Department.

Thanks Lupita and Noel for the quick response. Yes the Sunset BID was renewed about eight years ago so that would explain that. Is it possible to expedite this consideration? The petitions to the city clerk are due this Friday and we are going to need every petition we can muster.

Greetings Mr. Billah,

I am writing to shed some light on the video surveillance camera system that the Hollywood Entertainment District BID installed back in 2004, for the exclusive use of LAPD.

I understand that the power is down on the camera at Hollywood & Vine – and there is a need to get to the power source in the box pictured below.

I don't have any documents from 2004 – back then I know we were working with someone at LADOT as part of the team working on this camera system. Please advise how we can proceed at this point. These cameras are used by LAPD for public safety purposes, and as you know, this is a very busy intersection. I am copying in the council office as well, as they are aware that the BID has made a commitment to this camera system. Not only did we pay to install it, and update it, we also pay an annual maintenance contract that allows for this work to proceed so that the cameras are always working.

Thank you so much for considering this – please advise how I can help.

Subject: FW: Traffic controller box at Hollywood and Vine

Hi Kerry,

I hope you have been doing well.

The Hollywood and Vine camera has been down for a little while. We need access to the green box where the power supply for this camera is installed. We have been chasing around personnel who might give us access to the green box right next to the pole but we haven't got any success as of yet.

Can you please help us route this concern to the right Point of Contact. We will greatly appreciate your help.

Thank you and Best Regards,

Dear Danny

The process of getting the original documents which authorized Metrovideo to install equipment inside the traffic controller box at Hollywood and Vine is going to take some time; however , Hollywood LAPD officers want to be involved to give you any further information that you may need to speed up the process . They are copied in this mail.

Good Morning

We usually use a small APC 300VA UPS to protect our equipment against surges; however, I am not sure if we have it in the controller box because the person who made the installation it is no longer with us, and this my first time to servicing this location. I will be waiting for your confirmation for Wednesday.

Hello Devin,

It was nice speaking to you earlier today.

We will be happy to offer a double-decker bus for this special day.

I will go ahead and book the bus and request our operations team to check parking and access availability at the locations.

Since the bus will be waiting for the group for about 15-20 min at each location please advise if there will be an allocated parking.

Meanwhile please advise if you will be the point of contact to coordinate with Starline on the day.

Wishing you a nice day and a very successful week ahead.

Subject: Event for Leron and Kerry

Hi Vahid,

I am working along with the Chamber and the Council Office on a special event to honor our departing leaders, Leron and Kerry, who are both leaving us in the next couple of months.

The Council Office is going to honor them each with their own "square" in Hollywood, and we want to invite some of our board members, in addition to Kerry and Leron and their families, to come to the unveiling of the signs. We plan to meet at a restaurant (probably Soul) on the morning of Friday, December 14 at 11:00 a.m. for a champagne toast. From there, we will visit "Leron Gubler Square" at Hollywood and Sycamore, and then to "Kerry Morrison Square" at Vine and Selma. We will need transportation from one to the other and back. I am hoping that Starline would be willing to donate a double-decker bus for this, as we may have 40-60 people attend. Please let me know if this is something Starline would be willing to accommodate.

As this is a surprise, please make sure not to mention this to Leron or Kerry.

Thank you!

Tuesday, June 5 at 2pm

Unfortunately I can't do June 6 or June 7.

Thanks again,

Katie

I was involved in a walk-through of H/H area yesterday with LAPD and the key advocates for the ordinance (representing the street vendors) to show them the shitshow that exists out there, and how the ACE citation as the only means of enforcement is a complete joke. I think they got it - they are just trying to figure out how to keep violations de-criminalized. Too much to discuss here, but I'll brief the board on this later. We hear the city wants to have the draft ordinance in front of council before their summer recess, so this would be good timing to hear from the CD.

Kerry and Leron,

I believe I've broached this topic with each of you separately, but I need to let the cat (partially) out of the bag by way of this email.

As you wrap up your tenures, Councilmember O'Farrell has something special he has prepared for both of you, and we must share it with you together, prior to December 15th (at which point he will be unavailable through the holidays).

I need an hour of your time at one of the following dates/times:

Thursday December 13th - morning
Friday December 14th - noon-ish
Friday December 14th - 3:30 PM

I understand how busy the holidays are, especially as you train your successors. I politely request your flexibility if need be. As I mentioned, I just need an hour where you're both available; we will take care of the rest.

CCing Donelle, Nicole, and Devin, along with Dave Cano, to keep everyone (cryptically) in the loop... :-D

Please let me know.

Thanks,

HPOA Search Committee - Interviews

Hi Dan,

The board has hired Berkhemer Clayton as the executive search firm for ED/CEO candidate.

One of the next steps for the firm is to conduct stakeholder interviews - the search committee has recommended both you and Councilmember O'Farrell. I will be working with them to provide contact information to schedule either in person or phone interviews.

I have your information - what is the best way to schedule the Councilmember?

Let me know and I will pass along.

Best,

Douglas, would it be helpful to set up a conference call to discuss. This is a truly monumental step for Leonard; one of the original Top 14. I could do a call at 4 p.m.

Subject: HPOA Use of 3 Spaces on Level 2A

Rich:

As per our conversation yesterday, HPOA will be allowed the exclusive use of three (3) parking spaces in the northwest corner of Level 2A of the Cherokee parking garage as outlined in the attachment. HPOA will restore the electric outlets at the two spaces along the west railing at its own expense to be used for charging of its vehicles only. All other HPOA vehicles not including private cars owned by HPOA staff, must be stored on the upper roof level. All vehicles in the garage should be kept clean, free of leaks, and may in no way restrict public flow and access to parking in the garage or encroach onto or block off any other parking spaces. At no time may HPOA use more parking spaces than number of monthly parking permits issued to it. It is understood that at the beginning of 2019 all HPOA vehicles will migrate to the rooftop level and a long term lease will be granted for use of the that area.

We are grateful for the work HPOA does in keeping Hollywood clean.

Hi Wayne,

I wanted to send this your way and see how we can fix this. This sign installed (P2 – 11) has an error on both sides. The one side reads "Capitol Records Hotel" and the other side of it reads "Capital Records Tower". All other signs read "Capitol Records Tower" and that is correct. Please let me know how we can fix this and move forward.

I have attached the plan that was signed off on, where it reads "Capitol Records Tower" on both sides.

Also, I wanted to speak to you in regards to adding establishments to signs in the future. Any chance you or anyone else from your staff has time for a call tomorrow? Let me know and we can chat.

Thank you!

Rich

Dear HPOA placemaking & marketing committee members:

I had the opportunity to work with IKE Smart Cities and one of their program leads, Jibran Shermohammed (copied), during my time in Raleigh, NC. His company is pioneering some very exciting interactive kiosks that provide myriad benefits for urban communities. There is a great overview of the technology and a 4-minute video here on their website: https://www.ikesmartcity.com/

Jibran has been working with the City of LA, the LACVB, and Councilmember O'Farrell's office to bring this technology to Los Angeles. Where this technology has been deployed, the local BID or other destination marketing agency has been a key partner in shaping content, highlighting area businesses, shaping local messaging, etc.

He will be in town on the 11th, and has accepted my invitation to provide a brief overview presentation to members of the HPOA Board whom may be interested in learning more. Should this type of technology become available to LA, I think Hollywood would be a great fit and the HPOA a natural partner.

Hope some of you can join us for this presentation!

Best,

Kris

Dan and Tony,

We are ready to create a section on the Hollywood 4WRD website that will upload the information that has become available re/ the proposed bridge housing for Schrader. I know the council office created a Q and A, and there is a temporary rendering. We could add to this site some of the recent news articles re/ the need for bridge housing, along with blogs for the time being. We are ready to populate this when you send us the files.

Many thanks

TO Business Leaders in Hollywood

With the assistance of Bill Humphrey, at Hudson Pacific Properties, we've organized a short "pitch" session for Hollywood leaders who share a concern about the state of our homeless situation and understand the importance of cash flow in running any organization. This is an efficient way to tell the story to 20 people in one room – and you will also have an opportunity to hear about what is on the immediate horizon for services heading to Hollywood.

Please join us at the **Showroom at Sunset Bronson Studios** on **Wednesday September 19 at 9 a.m.** We promise to keep you for only one hour and the essential elements of our pitch is attached to this email for you to read.

The premise is simple: for the local Hollywood-based nonprofit organization who is best poised to compete for government and philanthropic grants, we need to shore up their cash reserves to manage fluctuations associated with delays in grant payments.

At this meeting, you'll hear from two key representatives from local government who can attest to the importance of directing these funds to Hollywood – **Molly Rysman**, the Homeless and Housing Deputy for County Supervisor Sheila Kuehl, and **Dan Halden**, Field Deputy for Councilmember Mitch O'Farrell. Currently, the primary contractor administering Measure H-funded grants is a Skid Row-based nonprofit organization.

I am on the board at The Center at Blessed Sacrament, and I will be joined by a couple more board members and key staff.

I hope you can attend – and please contact me if you have ideas about other business leaders who may want to participate in this briefing on September 19. I'd be happy to add them to this invite.

Best regards,

Kerry

Jason, hope all is well and happy 2019!

Through this email, I'd like to introduce you to Dan Halden, who works for CD-13. Councilmember Mitch O'Farrell recently promoted Dan to work on a special project (his HEART of Hollywood initiative) to help bring life to buildings and blocks that are still suffering from an inertia that comes from a variety of causes.

Dan is amazingly resourceful and committed to the vision of what Hollywood can become – I've had the pleasure of working at his side, as the Hollywood Field Deputy, for several years now as we have partnered with the council office to get things done. A new deputy will soon take his place.

Because Netflix is fast becoming a key player in Hollywood – and your decisions are shaping the direction of the Hollywood landscape – I wanted to put the two of you together. I know you are very busy with your global RE obligations – but I hope that when you are here in LA, you could set aside some time for Dan, and hear about what the councilmember has in mind for Hollywood.

With appreciation,

Kerry

Invitation: Tuesday 4/9/19, 11:00 AM - Site Visit for Potential Facade Improvement Program

Dan Halden <Daniel.Halden@lacity.org> Wed, Apr 3, 2019 at 2:19 PM
To: Christy McAvoy <Christy@historicla.com>, Christi Van Cleve <vancleve@rvca.org>, Lambert Giessinger <lambert.giessinger@lacity.org>, Rana Ghadban <rana@hollywoodchamber.net>, Kris Larson <kris@hollywoodbid.org>, Rich Sarian <Rich@hollywoodbid.org>, Miguel Acuna <miguel.acuna@lacity.org>
Bcc: Sean Starkey <sean.starkey@lacity.org>, Christine Peters <christine.peters@lacity.org>, Craig Bullock <craig.bullock@lacity.org>

Hi everyone,

I hope you are doing well. As several of us have been discussing, we are exploring the possibility of bringing some kind of facade improvement program to the "heart" of Hollywood Blvd b/w Highland and Vine.

I have arranged for a walk-through with Carey Jenkins of the LA County Development Commission, which administers facade improvement programs. A similar program is underway now in Pacoima. Some of you may also remember Carey Jenkins from his days with the CRA.

Please let me know if you are available to join us for this site visit/walk-through **this Tuesday, April 9th, at 11:00 AM, starting at Intelligentsia Coffee: 6401 Hollywood Blvd.** I anticipate this will take about an hour.

For the sake of time and efficiency, I'd like to keep the group relatively limited in size. Please do not forward the invitation, but feel free to send me any suggestions about invites.

Please let me know if you can attend this coming Tuesday. Thanks!

Best,

Julian Medical Building

Dan, Errol Roussel and I had a terrific lunch meeting with Jackie Duffie, who represents the Julian Medical Building at Cahuenga and Hollywood. We met to discuss the trash solution for the alley – made great progress, and I will brief you more when I see you Friday morning.

Meantime, I told Jackie about the HEART initiative, and the Julian Medical Building, as a historical asset, falls right within the zone you will be focusing on. I'm putting the two of you together in this email, so you have a chance to connect in the future!

Excited to see what the future holds!

Issues at Artisan's Patio

Hi everyone,

I got a call today from Kevin Donan at As the Record Turns – the little record shop at the back of Artisan's Patio, 6727 Hollywood Blvd. A few issues he brought up that I hope we can work together to resolve (I know he's already been speaking with Officer Ben Thompson)

- Vendors setting up on a star on the Walk of Fame to sell tourists the opportunity to put their own name on a star, blocking the entrance to the patio, and often times forcing people to walk in the street because the sidewalk is congested
- Curb painted yellow illegally by tour bus company so they can park their bus there. I thought we had painted this red, but he said as of yesterday the yellow zone is there.

Thanks!

Yes, so I went out to look and it's that curb, but it's a white "Passenger Loading" zone in front of 6741 Hollywood Blvd. We'd just like to confirm whether or not this is legitimate.

Dan, again my apologies for being on a plane coming back from Montana on the night you are having the meeting here at the office re/ Bridge Housing.

Copying Rich on this – he will be there. And, I've arranged for board member Leslie Blumberg to attend as well. She is knowledgeable and very supportive. (John Tronson will be at a Dodger game.)

Do you have an invite for this that I can send to Leslie – or if you did a calendar invite, can you include her?

Greetings All,

Please let us know (RSVP to April) if you can stop by the outdoor patio at 800 Degrees on Wednesday June 27 beginning at 6:30 p.m.

We will be celebrating the formation of the 2019-28 BID (the City Council will meet that morning) and also want to bid our dear colleague Joe Mariani great success in his new role here in Hollywood. There are also some board members who are in transition, and we hope to celebrate their contributions as well.

It should be a lovely summer evening and we hope you can stop by!

We had these in both Grand Rapids and Raleigh too. They can be a little annoying, but people sure seem to have fun on them. Usually the operator is in the rear seat steering the trolley, while the riders generate the energy from their pedaling. The operator of comparable to a limo driver - they are the responsible ones making sure traffic laws are obeyed and the folks celebrating don't have "too" much fun.

Thanks, Jeff. Would love to attend but I may not be able to as I will be out next week, which means I'll probably need the desk time on Friday. But it's on my calendar and I hope to join you.

If I am unable to attend, I will be eager to hear about your experience.

Thank you,

Hi Dan –

Not sure if the Council Office would be in a position to contribute financially to Kerry's send off, but wanted to ask as we are reaching out to most of the invitees to see who would be willing. Either way, looking forward to celebrating with you on January 30!

Jeff, LA Family Housing is a well-respected service provider. If you go next week, I'd be happy to accompany on the Friday date; my caveat is that I am on call for jury duty, so anything I schedule for next week is scheduled in pencil. (The Wednesday date is the morning that the city council approves the 2019-28 BID ordinance.)

This week is pretty intense with board meeting and other things already scheduled. But don't wait on me; I've seen their operation before. If you go Friday 6/29, I'm in (unless in court).

Kerry and Rich; Leron, Ana, and Jackie:

I'm introducing you to Kim Olpin with LA Works, which is coordinating a Day of Service in Hollywood in January. This year (or 2019, I should say), LA Works will be working with Netflix, which will be bringing 500 volunteers to the streets of Hollywood for a service project!

Our office has recommended that the area of focus be the Hollywood Walk of Fame -- polishing, litter abatement, graffiti removal, light tree trimming, etc. etc. etc. I thought this would be both practically effective and symbolic as well -- Netflix, a big Hollywood stakeholder, literally brightening the neighborhood AND a symbol of the entertainment industry -- the Walk of Fame.

Kim asked me to connect her to all of you so you could advise in greater depth and detail exactly what the scope of work could be. In other words -- how much needs to be done.

Kim, please fill in anything I've missed, and we can take it from here.

Thank you,

Hi Kim, I know I was not on the recent call you all had, but we did have an opportunity to discuss this amazing gesture by Netflix at a meeting last week.

I would encourage you to not focus on the Walk of Fame for a variety of reasons. First, the BID has accepted responsibility for cleaning – and, in fact, we are in the midst of negotiating a new service contract with a new vendor who will start up Jan 1, 2019 and make sidewalk cleanliness a top priority. **It will be redundant to have volunteers cleaning the Walk of Fame** – as our pressure washing crews will be doing this during the middle of the night 2 – 3 times a week.

That said, there are a lot of sidewalks in Hollywood – many of them outside of the BID – which don't get *any* attention. These are sidewalks that are filled with weeds and litter. Candidates would be Sunset Blvd heading east from the 101 freeway. All of Western Avenue. Sunset Blvd heading west of Cherokee.

One project that would be helpful – but would require city approval – would be to repaint all the red curbs (both in the BID and outside of the BID). Most are very faded right now. That can be done with brush and roller – and perhaps if the commitment was to adhere to exactly where the red curbs are now, the city would grant permission.

Another project would be to tackle the drab utility boxes in Hollywood – they could be cleaned and painted – and the city is generally very supportive of this. Perhaps you could identify an artist who would help with some simple design templates and the city would grant permission to do the painting.

Not sure if your budget allows for hiring a landscape consultant but there are two ideas. First, – if you have the capability of doing landscaping – would be to replant the LaBrea/Hollywood "4 ladies" median with drought resistant plants. A second would be to replant empty tree wells throughout Hollywood – that would require canvassing to see where they are, identifying the appropriate tree and then having the tools to do so.

I know you have 500 volunteers – which is a large number to deploy all at one time. I trust you will be able to break them up into smaller groups over several days, as it may be hard for such an army to descend upon the neighborhood.

I hope these are a couple of useful ideas. I know they require some coordination and in some cases supplies and permission from the city. This is a good time to have this conversation.

HI Kim, because not all projects would happen within the BID, I suspect Dan could be the coordinating person. Some of the other suggestions we made fall in other parts of Hollywood – with 500 people, its going to make most sense to divide people up into many smaller groups.

We are happy to coordinate with you all – there are a lot of logistics involved. Equipment? Supplies? Blocking off sidewalks or curbs, etc? Artistic design? Transport, etc.

Looks good to me. Adding graffiti removal would be terrific. I'm CCing Sylvan De La Cruz from our office below. Sylvan, please take a look at this list:

Proposed projects include:

- Cleaning and polishing some parts of the Hollywood Walk of Fame
- Decorating Utility boxes: painting some, and installing artistic wraps around other
- A large mural or two at sites TBD
- Planting around LaBrea/Hollywood "4 ladies" median with drought resistant plants
- Planting trees in empty tree wells
- Repainting red curbs
- Weeding and trash pick-up

We will probably need to verify the painting of red curbs with LADOT, but we have plenty of time to make that happen. And as Kerry and others have noted, that will make a huge aesthetic improvement to the area.

Thanks again,

Yes, that all sounds great.

I can order tools from OCB for the landscape planting at LaBrea and Hollywood Blvd, and I can reach out to LABT for the trees. Though we would have to get tree watering commitments from the property managers adjacent to where the trees will be planted.

Can someone let me know what area precisely I should survey to determine how many empty tree well cut-outs there are?

Thank you,

Tommy and Dan,

I noticed the board for Larchmont Charter School, Alicia Lara is Vice Chair – thought it might be good to bring her into the loop re/ the upcoming meeting at the school, as United Way is a leader in addressing homelessness.

Subject: Mobility Trust Fund

Dear Councilmember O'Farrell,

We have been pleased to work alongside your staff and other members of the city family to prepare the plans and specifications for a long-awaited Wayfinding signage program for Hollywood. It has been serendipitous that multiple agencies could work collaboratively to coordinate similar wayfinding objectives – the Department of Transportation in alerting people to city lots with occupancy signs, METRO to point people into the right direction of public transit resources, and guidance and review from Caltrans. In addition, we have substantial interest and support from the Hollywood Chamber of Commerce and the Hollywood Trust. Note that Dan Halden from your office was instrumental in facilitating this complex group effort.

To underwrite the design costs and preparation of specs and construction documents, funds have been pledged and/or allocated from the Hollywood Entertainment District BID, the Sunset & Vine BID and the Hollywood Chamber. The total cost of this pre-construction phase is $72,000. The HPOA also dedicated staff time to coordinating this project, complete with community open houses, with Hunt Design. The final stage is construction, and each of the government entities have earmarked resources toward this final phase. We understand the delta that remains to allow the project to proceed with fabrication and installation is approximately $90,000 to 100,000 – far less than the original estimate two years ago of $250,000.

We have kept the boards for both the Sunset and Hollywood BIDs apprised of the project, and the question has been raised, "can the Mobility Trust Fund be tapped to contribute to the completion of this project?" Several property owners in Hollywood have contributed to this fund, and this would seem to be a prime candidate to contribute to improved mobility and access as people drive into and through this community.

After having worked for two years to get to this point, the BID board is anxious to see the fruits of their labor and investment. Further, because the BIDs have not been billed for the final work related to completing the construction docs, time is of the essence, because these funds have been set aside, but both BIDs end in eight months. Also note that the energy and enthusiasm for the project is at its peak and our consultant tells us that now is the time capture the momentum.

Thank you for considering this, and please advise if there is anything I can report back to the boards at their May meetings.

With kind regards,

Kerry Morrison

Dear Mr. Halden, As of this morning the homeless people are no longer on Leland Way, but they left loads of garbage and there is excrement by the mattress and we do not want out staff to clean it up for obvious reasons, could you please send your special cleaning team (hazmat?)

- Also, the construction crew has taken over Leland Way for parking (please see attached pics), could they at least clean the street up? It looks revolting with all the trash because the weekly sweeper has not been able to clean for weeks due to the construction workers not moving their vehicles for the sweeper.

Thank you in advance for your continuous support to Hollywood El Centro residents.

Hi Jeanne,

I think you saw the letter we sent earlier this month, at the request of the Hollywood BID Board. We haven't heard anything back, and tomorrow is our Streetscape/Planning Committee agenda. The committee has asked for a progress report.

We are holding onto funds, in the current two BID budgets, to pay for construction docs. These funds come from the current two BIDs, which expire at the end of the year, so it is important to get this figured out very soon.

Peere Ghent, who is the Project Manager for LA Express Park for DOT, had reported at the Chamber Economic Development Committee two weeks ago that the project could be installed as early as August (!?)– which caught us by surprise, because we thought there was still a funding gap?

Frank Stephan, on the Hollywood Board, attempted to reach Craig Bullock at least twice before the Hollywood BID board prior to our May 17 meeting, as he has taken point on this for Hollywood, and he never received a return call.

So, Jeanne, I hate to bring this to the attention of the Chief of Staff – but I don't know where else to turn. I'm copying Dan because he is our deputy, but I know he has his hands full with the bridge housing (and other projects) and this is not in his bailiwick.

Let me know next steps, and what we can report tomorrow to the committee.

Many thanks!

Kerry

TO: Board of Directors

As promised, here is a mark-up of the bylaws, to reflect the sections that will be up for discussion at tomorrow's meeting.

Proposed for your consideration tomorrow are three motions:

- To reduce the upper ceiling on board size from 32 to 25
- To allow for consideration of extenuating circumstances in applying the attendance policy
- To align the language in the bylaws with the new language used for the staff executive and volunteer leadership (e.g., executive director becomes president; president becomes Chair, Vice President become Vice Chair)

To save paper, we will no print out the entire bylaws for tomorrow's board packet, but we will include in your packet an excerpt to reflect the first two proposed changes.

See you tomorrow.

Meet your neighbors: 7/11 coming to 6500 Hollywood Blvd (Hollywood/Wilcox) in 2019

Chris,

Great speaking with you earlier today. Per our conversation, I am CCing to this email some of our community partners in the area:

- Kris Larson and Rich Sarian, Hollywood Business Improvement District (BID)
- Rana Ghadban and Jacob Jauregui, Hollywood Chamber of Commerce
- Richard Adkins and Christy McAvoy, Hollywood Heritage

All, please e-meet Chris Gabriele with 7-Eleven, which will be coming to Hollywood/Wilcox later this year. The 7-Eleven store at this location will be an updated model, similar to the store located downtown at 2nd/Los Angeles Streets.

For the Hollywood location, our office has suggested to 7-Eleven that it connect with all of you and begin establishing relationships in the community, in advance of opening. We have also been speaking with Chris and his team about ways in which the store can reflect the Hollywood "brand," history, and aesthetic elements already at place in the community.

For example, 7-Eleven is open to incorporating elements such as public art, historical photographs, etc.

I wanted to open this conversation to all of you so that you all could get connected, and we could work together to brainstorm features that enhance the place-making work we are collectively doing in Hollywood.

Please let me know if you have any questions.

Thank you,

Greetings members of Jt. Security Committee

The meeting announcement for this month's [delayed] meeting is attached.

In particular, I'm hoping to emerge with your recommendations on some formal asks we might make of our elected officials with respect to services and programs to address the homeless crisis in our community. I don't want to be speaking for this community without your support. I will be giving you a briefing on what is "in the works" at present.

I hope you are able to attend; please RSVP directly to me (Lorin is on vacation this week). I know there will be other board members and community members interested in this conversation also.

Greetings HPOA Board,

Please find attached the agenda for the meeting this Thursday, Jan 17 at 4 p.m.

We are delighted that our new president/CEO will be flying out to join us at the board meeting that day – and this will give the two of us some time together for some onboarding!

We have attached the minutes for both the December meeting, and the special January meeting.

Also, I will be sending you a mark-up of the proposed bylaws amendments tomorrow.

Please RSVP directly to April as to your attendance

Meeting next week with Cahuenga alley re/ crime and cleaning issues

1 message

Rich and Steve,

I had a good meeting today with a group organized by Errol Roussel to address the trash solution in the Cahuenga alley. I can brief you more on that when I see you.

However – I wanted to get on everyone's radar a meeting we set up for next week - Tuesday Jan 15 at 2:30 at St. Felix.

Here are some of the things we need to talk about:

1. Deep clean of alley. Set a date. Expectation that everything is up off the ground to the extent possible.
2. What will be the regular cleaning schedule on a go-forward basis?
3. When furniture and barricades are replaced after cleaning, they will be according to revocable permits (Dan – can you help)?

4. Safety. People are hanging out in alley doing drugs. People will have their backpacks or bags snatched and folks run into alley to empty out. We talked about establishing a new pattern of activity to discourage this. Possibly more video cameras and motion detector lights.

5. Ben and Steve – we need to give some ideas on what the owners can do to help.

6. Steve, I think we need to set a directed patrol, multiple times a day, of BID Patrol to establish a presence there.

7. Allegedly, there is a fair amount of illegal dumping going on in the alley – at all times of day and night. We'll get a sense of that when we meet with them next week.

8. There is a new rodent problem; Rich, let's discuss. I think the BID might need to step in with an initial assessment and intervention so this doesn't get worse, and then we can build in a system of maintenance that they will take care of.

On a related note, there will be a meeting on Jan 16 at 4 p.m. with a trash compactor company to do an assessment of what it would take to install one in the alley.

Hello,

We are scheduling a meeting to review a request for an alley assessment exemption, and would appreciate your attendance. Please respond with any conflicts you would have for a meeting the week of May 21-25 and we'll schedule the date that works best for everyone.

Thank you,

To: Kerry Morrison <Kerry@hollywoodbid.org>

Hi Kerry,

Per our conversation today...

Would the BID be able to host a meeting to discuss the LGBT Center parking issue?

We need:

CD13
BID
Brian F.
Ferris W.
Other appropriate property owners/parking lot owners

Possible dates/times:

Wed June 13 9:00 AM (before Security Meeting, would that work?)
Fri June 15 - AM

Let me know... thanks!

Meeting re/ North EaCa Alley

Morning — to come to consensus on some solutions to bring a sense of safety and order to the north alley, Dan and I thought it best to bring the neighboring property owners together to collaborate together. It appears that we have issues related to parking, trash, parties, noise, homeless encampments, public urination and more. We know you all would like to see a sense of calm be restored to that alley, and we know you also would like to gate it to protect it.

It would be most productive to have everyone in the room at the same time to come up with a plan to move forward.

Here are some dates for us to meet — and I think its important we all be in attendance so we can come up with a plan once and for all.

Tues Dec 4 - 9 a.m.
Wed Dec 5 - 9 a.m.
Thur Dec 6 - 9 a.m.
Tues Dec 11 - 9 a.m.

We can meet in Dr. Anthony's conference room. Please let me know if any or all of these dates work for you, and I'll get this meeting scheduled.

Thank you all,
Kerry

Hi everyone,

As you all know, thanks to your collective efforts, over the course of the next year Hollywood will play host to multiple Broadway-caliber shows at any given time. This is a very exciting development for each individual venue, and for our community as a whole.

Accordingly, I'd like to facilitate a discussion on how we can collectively capture this unique moment in time and ensure that Hollywood is well-prepared and putting its best foot forward as we anticipate this new activity.

(For reference, I'm including on this invite folks from Pantages, Dolby and the Bourbon Room, as well as Kris Larson with the BID and Rana Ghadban with the Chamber. Please let me know if I've missed someone from your team.)

Please let me know if you are available for a meeting to discuss upcoming theatre productions in Hollywood - **Friday, May 10th, at 10:00 AM.** I'd be happy to host the meeting here at our HEART of Hollywood HQ, 6501 Fountain Ave (Hollywood City Hall).

Let me know -- and thank you!

To: Privacy Brian Folb <brian@hollywoodoffices.com>, Daniel Halden <Daniel.Halden@lacity.org>, Rich Sarian <Rich@hollywoodbid.org>

Hi friends, going to host a meeting here at the BID office right before our monthly Security Committee meeting to discuss the situation relative to needing to identify 40 parking spaces for employees of the LGBT Center. Please hold 9 a.m. June 13 for a one hour strategy meeting.

Thanks

P.S. If there is anyone else you think should be invited, let me know.

Kerry and Leron,

Hope you're well. Councilmember O'Farrell would like to meet with the two of you (together), as soon as possible, to touch base on the rest of this calendar year in Hollywood, as well as what comes next, as you wrap up your many years of service to the BID and Chamber, respectively.

Are you available to meet with the Councilmember on **Monday, September 24th, 2:00 PM, at our Echo Park District Office?**

Hi Dan, I would look forward to that meeting!

The week of September 24, we have four visitors from overseas (three from Trieste Italy and one from Glasgow) here to see our mental health system. This is part of the collaboration that is being forged between Trieste and LA County. I am taking that entire week off, as I am the air traffic controller in charge of the itinerary. I will be back in the office the following week, and it is fairly wide open.

meters for charitable contributions

Kerry Morrison <Kerry@hollywoodbid.org> Mon, Feb 12, 2018 at 12:55 PM
To: Daniel Halden <Daniel.Halden@lacity.org>

Dan, I had a couple property owners email me this article last week – wondering if we could try something similar in Hollywood. I'd like to resurrect this if there is a possibility the city could help. You may recall we started to look into this (I think right around the time Mitch was elected) but got stymied because we couldn't raise the money to fund the meters. But we did go ahead and create a program to indicate where people could make contributions in lieu of giving out on the street, and that website still exists (although probably needs to be updated).

https://la.curbed.com/2018/2/5/16974954/homeless-meters-downtown-los-angeles-donations

I will place this on the Security Committee agenda this Wed to let people know we are looking into this again – maybe we can report in March.

Hey you two –

Our Strategic Planning consultant will be in town Mid-April to kickoff our planning process.

I'd love to get the two of you in a room with him and others to be a part of this early stage in the process. Do you all have any availability Wed, April 17 between noon-2PM on Thursday, April 18 from 8 AM – noon? You would be more than welcome to bring other key members of your team as well!

Thanks, in advance!

Best,

Kris

Hi Dan and Dave, wanted to remind you that the board meeting is tomorrow – its our annual meeting where new officers are elected.

I am attaching the agenda – please note that we are not meeting at the BID office, but at 1600 Vine, because we are having a board dinner afterwards.

Also, I know you said the councilmember wanted to come around 5-ish to announce his initiative and Dan's position – we can definitely accommodate him at that time; I just has to put him somewhere on the agenda. But we can be flexible.

If you need assistance determining how to get to the 11th floor conference room where we will be, April can give you some instructions. Also, you can text either her or I to give a ETA.

Also, Dave, I know the Councilmember will be here to share news about the new initiative, but it would be good if he could address two other issues:

1. We had sent him a letter a few weeks ago indicating the board's support for going to trial on the Mitchell injunction. This letter will be in the board packet tomorrow. I'm copying it here also for easy reference. It would be good for him to acknowledge that he has received this letter – and if he has formulated a response, it would be good to know
2. Sidewalk vending – what is the current status, and what does he think can be accomplished to protect the Walk of Fame?

Many thanks

motion for board re/ trash bags

Gentlemen,

Here is what I'm thinking for a motion. We can send the agenda out today without final wording, so would need to hear back (esp. from council office) re this by Thursday.

Kerry

For Streetscape Agenda:

Report on pilot project to reduce sidewalk trash related to encampment crisis: specially marked and colored trash bags to be distributed by law enforcement, BID, and homeless outreach workers for use by individuals who wish to set aside trash for removal.

Motion: to approve participation in a 120-day pilot project, subject to action taken by Los Angeles City Council, and indemnification of HPOA, to pick up trash in specifically marked and colored bags placed adjacent to existing trash receptacles in the Hollywood Entertainment District.

Does this sound like the gist of our discussion on Friday?

Kerry

P.S. Jeff, let me know when you can take a call re/ this. Want to brief you on the idea.

Hi Kerry,

I need to have a much more in-depth conversation with our legislative team and the Mayor's office prior to committing to any legislative actions or motions. It's not entirely clear to me what a Council motion would call for, so I'm setting up a call for the Mayor's office to dive into further details with our legislative team. We will try to make this happen as soon as possible but I can't guarantee that it will be by Thursday. I will keep you posted.

Dan and Tony,

There is a press release in the works to announce the name of my replacement. It will be ready tomorrow – we'll shoot it over to you when its ready.

He is flying in tomorrow night, so he can spend one day here in the BID – he and I will spend time together in the morning, and then we will attend the State of Hollywood luncheon and he will come to the board meeting. Since he will be in the room at the Taglyan, I thought it might be good for Mitch to know – he might want to acknowledge that.

Its up to you – but I wanted to give you a heads up!

New Crosswalks - Thank You!

Hi Dan,

I noticed new crosswalks went in on Hollywood Boulevard – they look great and are definitely doing their job of prioritizing pedestrians. Thank you for getting these installed for us!

Do you have a complete list of the new crosswalks that were added? I noted the following:

Hollywood/Hudson

Hollywood/Schrader

Hollywood/Cherokee

I'm going to give kudos to CD13/DOT at our board meeting on Thursday.

Thanks again!

Thanks! Your list looks accurate so far. I haven't been able to make it over to El Cerrito Place recently to check out one of the other ones that was requested.

McCadden will be upgraded as part of the new signal, and I believe El Centro should be upgraded once the 6200 Hollywood Blvd project is finished.

Along these lines, I'd like to start compiling a list of ALL intersections of Hollywood Blvd from La Brea all the way to Western that could use a continental crosswalk. Much of that includes the HED. Let me know if anything jumps out at you.

Hollywood & Vine will be getting a scramble, and Hollywood & Argyle will get continentals as part of that project. So we're well on our way - but I want to do the whole thing!

Thanks,

Dan, I am working on setting up the meeting re/ the North Cahuenga alley on Dec 11 at 9 a.m.

Talked with Dr. Anthony yesterday – he asked about a "no parking" sign that the city was going to provide for the wall in the alley? I don't recall that conversation, but was that something you were going to try to track down for him?

Neighbors,

As many of you know, this summer (June through August 2018) construction will take place on **Selma Avenue, between Las Palmas Ave and Schrader Blvd,** as part of the City's "Safe Routes to School" pedestrian safety project on the street. The goal of the project is to make this a safer corridor for people -- particularly children and families -- in the area.

Work will begin approximately June 11, 2018, and will last until approximately August 14, 2018. The work has been specifically scheduled so it takes place during the summer, when school is not regularly in session.

During the first phase of work (approximately five weeks), construction will take place on the **NORTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, eastbound traffic only.**

During the second phase of work (approximately five weeks), construction will take place on the **SOUTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, westbound traffic only.**

Please see attached for Construction Notices in English and Espanol. These notices will also be distributed in-person to the neighborhood over the next several days. Please feel free to share.

For questions directly related to construction, please contact the contractor, Louis Perez, at (818) 262-9881 or louisperez@cometelectric.com. Please also feel free to contact me as well.

Thank you for your patience and understanding as the City brings this improvement to the neighborhood.

Best Regards,

Tony and David,

Wanted to let you know that I did a telephone interview this morning with Aaron Schrank of NPR – working on a Marketplace segment re/ the city's sidewalk vending ordinance. I know he did spend some time on the street here in Hollywood viewing the situation, and also spoke with one of the kiosk vendors on the H/H side of the terrazzo. Her monthly rent is $5,000 to run that business.

Rich,

With the new, amazing looking, way finding signs all over Hollywood it may be a good idea to begin the process of removing all the old, non-amazing looking, parking signs.

Do you have a list of where the new signs went that we can use as a base on where to look for the old signs?

Hi Sean,

Thank you!!! I have a map that I have attached for those oh so gorgeous mid-90s wayfinding signs. They are in red on the map. I thought that LADOT or some other party was going to take them down, but I don't think that will happen. Thoughts on having them taken down? They wouldn't be hard to have removed and it would not take much time, so I feel like we can outsource if need be.

Let me know your thoughts!

Palm Trees

To: Daniel Halden <Daniel.Halden@lacity.org>

Hi Dan,

There are about 121 palm trees on Hollywood Blvd that are not currently lit. Using the $350.00 estimate for each tree, it would be $42,350 total. From McCadden to Ivar, there are about 40 palm trees ($14,000 total). From Orange to La Brea, there are about 81 palm trees ($28,350.00 total).

Did you want me to get an estimate for lighting the Ficus trees as well?

I wonder if it would be fruitful to get ALL the property owners (or their reps) together for a follow-up meeting, so everyone can be compelled to get on the same page. What do you think?

TO: Board of Directors

Now that CleanStreet is up and running, we are looking at ways to help increase their efficiency. One issue involves the parking of their trucks. To our neighborhood, CleanStreet brings: one street sweeper, three pressure washers and one trash truck. In the past, we did have access to parking lots during the day to park these vehicles, and, as a trade, CleanStreet would provide extra street sweeping of your lot, or pressure washing.

Does anyone have access to any spots for these vehicles (even just one) – to avoid them having to drive back and forth to Gardena?

Many thanks –please let Rich know if you have any ideas (could even be outside of the BID).

Pave-Gen installed this weekend at H/H -- potential consideration for WOF in the future

Greetings friends,

(Jackie: could you please forward this email to the members of the Trust, since I don't have their emails)

You'll recall earlier this year when our Coro Fellow researched various ways to protect the Walk of Fame, he stumbled upon a rather remarkable technology which has been installed in cities across the globe – Pave-Gen. If you recall from the presentation, this is a surface that is installed and can do four things:

- Capture data from every footstep – which can be useful for pedestrian studies
- The finish is durable and slip resistant. Broken tiles can be easily replaced
- The tiles can be configured in any way for the client
- The footsteps generate energy which can be attached to light sources and advertising or messaging

Serendipitously, Pave-Gen has been brought in for an installed exhibit at Hollywood & Highland through Sunday night. This is being installed right in front of the Dolby Theatre. If you have a chance to go by this weekend, you'll be able to inspect it closely and walk on it. (See photos.)

One of the thoughts we had was to test this surface for future consideration -- would Pave-Gen be willing to install a test section? In conversations we've had with various community leaders here was a suggestion: could a test area be installed just off the Walk of Fame, in front of the Chase Bank on Sunset Blvd (there is terrazzo there, but it is not part of the official WOF). If Pave-Gen could do a prototype installation – we could take a couple years to see how it wears and tears with all the pedestrian traffic.

Rich has been keeping in touch with this company ever since the Coro project, and it appears the CEO might be here on Monday, and maybe we could do a very quick meet and greet for about 30 minutes.

So, please try to take a look at this this weekend. If we can get the CEO in here on Monday, would anyone be interested in meeting him?

Kerry

P.S. If you look closer on their website, you can see a lot of photos from the travelling exhibition they are doing right now to promote Bank of the West.

Hey guys – I'm hoping you can help me. I wanted to use a photo that Mitch had posted on Facebook from the bridge housing opening since I wasn't able to make it to the event. I just want to confirm that it's OK to use this photo, and I also had credited Tony with taking the photo, but I'm not sure if that's correct. It's the photo on the top left of the attached front page of the newsletter. Thanks!

Its very important that I have the two of you in this Pitch gathering -- because you can make such a good case for The Center's potential in accepting more H money in the future.
Molly is out for one of the dates I suggested, so I have two new ones to recommend. I'll build this around your availability.

Friday Sept 7 at 9 a.m.

Pitch re/ Center Reserve Fund

Hi Molly and Dan,

I've mentioned to both of you that I've been working with Hudson Properties to host a "pitch" event to raise awareness about the importance of fortifying the cash reserve fund at The Center so that it is in a better position to compete for Meausre H grants and other government funding.

I'm passing along a draft of The Pitch for you to review.

It would be important for me to have the two of you there to lend credibility to the reality of this situation – and the fact that The Center has the very real possibility to be involved in the service provision for the Bridge Facility, and possibly the E-6 team. My hope is to get about 15 business leaders in the room to help us bring the cash reserve to $300,000.

Would this date work for you:

Thursday Aug 30 at 8:30 a.m. at Sunset Bronson Studios. One hour is what I need.

Greetings board,

Thanks to our team at Haines and Co, LABJ took advantage of the exclusive to publish the news about our new CEO.

Also, a formal press release has been issued, and we are passing that along as well, in case you have any internal communications you would like to share this with.

Looking forward to welcoming Kris during his whirlwind visit tomorrow!

Hi folks,

Per our conversations, the report on the proposed temporary bridge housing at 1533 Schrader will be heard in **Budget & Finance Committee this coming Monday, September 17th, at 2:00 PM.**

If approved by Budget & Finance, it will be head to City Council on Tuesday, September 18th, which would then vote to fully approve the proposal.

This Monday, at Budget & Finance Committee, **there will be public comment on the item.** Please let me know if you will be attending and if you'll be bringing any guests either from your organization or elsewhere.

Thank you,

Public Restrooms in Hollywood

Greetings everyone,

I am writing in order to start (or re-start) a conversation about public restrooms in Hollywood. I know this has been discussed before, but with new leadership in Hollywood of both the BID and Chamber, and the newly implemented Tourism District Overlay Zone, I have been tasked with looking into the feasibility of installing public restrooms in Hollywood, specifically in the tourism zone near Hollywood and Highland. I know there are public restrooms in other locations of the city, such as the ones near the Metro Red Line station at North Hollywood. I would like to know what the requirements would be, who would or could fund them, and how they are maintained.

Thank you so much!

Dan,

Do you know who I would talk to about public restrooms? Is that through the JC Decaux contract, or do they not do that anymore (I think they did the ones in NoHo)?

I was also reading about the ones on Skid Row, but those were apparently $450,000.

https://www.latimes.com/local/lanow/la-me-skid-row-toilets-20171204-story.html

I just want to get some general pricing and feasibility to report back to the TDOZ at their committee meeting on Wednesday.

Thanks!

Devin,

We should be OK for 10 tables and 50 chairs for Old Hollywood Locals Night. Please confirm A) it's a FREE event, and B) if AAA tries to get out of picking them up that night (as they did before), please push back and refer them to Gigi Galias. :)

CCing Steve J. here who will process the request once the above is confirmed.

If we could get 10 table and however many chairs (50?) that would be great! Attached is the flyer for the event – it's called United We Dance. I've also attached the Sunset & Dine flyer. Do you think your office can help get the word out?

Thanks!

Hi Devin,

Two things:

1) We just received that Hollywood BID ballot in the mail. Please confirm the docs we recently sent you was our ballot submission.

2) I saw your name on the "Proposed Crisis/Bridge Housing on Schrader St" invite. We sent a representative to the meeting, but it was so crowded we were not able to get any of our questions answered. Are you able to direct us to the best point of contact for this proposed project?

Hi Devin,

I have signed the HED petition and will mail 2- day air today. We have been in business at this location for about 15 years and have witnessed the tremendous benefit from this organization. One question, I see our assessment will be $3,847.15, however I could not find our parcel number anywhere in the District Plan? Why is this?

Hi, David -- happy to answer any questions you might have. I'm attaching all the relevant information as well as a link to a Google Doc, which also has the documents, as well as the opportunity to ask more questions. Please let us know!

Google Forms

I've invited you to fill out a form:

Proposed Temporary Bridge Housing Facility at 1533 Schrader Boulevard

Homelessness is at crisis levels, increasing by 23% in the last year alone. The City of Los Angeles has been working very hard to identify locations to establish temporary crisis and bridge housing options via Mayor Garcetti's "A Bridge Home" initiative. This is a unique opportunity to utilize this program, coupled with funding from voter-approved Measure H, to bring a temporary bridge housing facility to an area in need.

A community open house was held on May 8, 2018 to provide initial details about the proposal, but we are seeking additional feedback. Please complete and submit the below questionnaire. If you have additional questions, you may also contact Dan Halden at Councilmember Mitch O'Farrell's office: daniel.halden@lacity.org or (213) 207-3015.

David – we do not want to be a difficult customer for you. Could you please advise where the public chargers are? If you are thinking about chargers for EV – this is not what powers a Taylor Dunn. We need a standard electrical outlet. We are happy to walk the garage with you to look for a solution.

Hi David,

I just met with Rich re/ this situation in the Cherokee garage.

I wanted to see if you could work with us on a solution. As you know, the property owners who support this BID are spending in excess of $1.3M to keep this part of Hollywood clean. These two particular spots have access to the electrical plug which allows our team to charge their Taylor Dunn vehicles to go out and pick up trash throughout the neighborhood. When those cones are not there, people will park in those spaces (despite the fact that there are many open spaces in the garage). When we cannot charge these vehicles, our ability to pick up trash is severely hampered.

That said, we are bidding out our maintenance contract and we will NOT be using electrical vehicles in the new year, for precisely this reason. This has been a very frustrating equipment problem for us.

Can we work something out for the remainder of the year – or could you help us get access to electrical outlets with reserved parking spaces in either the Vine Street garage or the H/H garage between now and the end of the year so we can finish out the current maintenance contract with their equipment?

Thanks for your partnerhip.

Joe/Matt:

Please note that we are once again noticing that some of the spaces on the second level of the Cherokee garage are being blocked off with cones. We have had issues with your contractor blocking off these spaces in the past for his vehicles. These are the prime spaces in the garage directly adjacent to the stairs and elevator and cannot be removed from public use. We have informed our Parking Operator to immediately remove and confiscate any unauthorized cones from the garage. Please note that if your contractor is reserving space for his vehicles, it could result in the revocation of monthly parking privileges.

Again, your contractor is welcome to use the public chargers in the garage under the posted terms and conditions and DOT is willing to allow them reserved parking in a less-utilized portion of the garage.

Brian – thanks for your generosity – and your leadership this past year. I, too, trust things will be better next year, and soon we must turn our attention to the city's need to build more affordable housing, just as a general policy matter. It never ends – but let's take this holiday to rest a bit, count our blessings and press on in the new year!

Hi Miriam,

There may have been a little confusion re/ using the Hollywood BID office this Thursday. Since we got off track with the regular outreach meetings, we scheduled another meeting in our office this week.

However, beginning in September, we will have this room available for you on the fourth Thursday of the month at 10 a.m.

For August – so sorry, you'll have to find another location!

Where: Hollywood BID Office; 6562 Hollywood Blvd., Hollywood, CA 90028

Greetings Hollywood Outreach Providers:

This is the ***new*** calendar invite for our bimonthly **Care Coordination** Meetings [previously known as "Case Conference/Outreach Collaborative"] – intended for outreach workers & providers that service the Hollywood HUB.

These meetings take place the 2nd and 4th Thursday of every month from **10:00-12:00 pm**.

Locations vary:

2nd Thursday @ PATH

340 N Madison Ave., Los Angeles CA, 90004

4th Thursday @ Hollywood BID Office

6562 Hollywood Blvd., Hollywood, CA 90028

Care Coordination meetings are intended to focus on:

- particularly vulnerable folks
- collaborate on ongoing challenges & barriers
- discussing strategy on Hotspots and Encampments
- outreach / CES updates and developments occurring in the HUB
- collaborate with City and Community partners and members

Please forward to any relevant outreach providers in the Hollywood region if they are not included in the original invite.

If you have any questions or concerns, please let me know.

Thank you!

Hi Team,

So far we have collected 18 trash bags, the majority of which were at the corner of Carlos and Tamarind. I have attached an image of the BID's trash cans that are on every corner of the map that is attached as well. Any trash can that has our logo (also attached) affixed to it is a receptacle at which they can leave their bags.

Please let me know if you need anything else!

Dan, one of my friends who works for Ecclesia (their office is across the street from FPCH on Gower) brought to my attention about two weeks ago that the city had dropped off some big black cans for trash — presumably for that encampment that gathers near the underpass. However, they have not been emptied. Is there someone that could be contacted at LA San — since these are city receptacles.

See below, and you can contact Melissa directly, or give her a number she can call.

Many thanks!

Hi Kerry,

I haven't seen these trash cans emptied since I sent you pics a couple weeks ago.

They smell like something died in them!

Jeff, thanks for setting this up. I really respect the depth of the questions you and Brad are bringing to the table, and coming to answers and plans will help us prepare more effectively for introducing this resource into our neighborhood.

I had a couple take aways today also - -I am going to check with PATH to see if they have some outcomes to share from their experience with the 65 bed Fernwood Shelter – how many individual people did they serve in a typical year; average length of stay; where people ended up afterwards; how many may have come from out of the county, or out of state. Don't know if they have this, but I will check.

I am also going to check with the E-6 and the CES coordinator at the Center team to see if they have metrics re/ the percentage of people they are encountering in Hollywood who come from somewhere other than LA County.

Finally, I am going to check to see what type of access our service providers have to family reunification funds.

Thanks again – LAFH is truly an impressive organization.

Hi Steve,

These look fantastic! We found a few errors. Please see changes/corrections below:

- P1 Map - The font direction of "Fountain Ave" is opposite all the streets it runs parallel to. It is facing the proper direction on P2 MAP, in that it faces the same direction of the parallel streets.
- P1 and P2 Map – The "You Are The Star Mural" (#26) is on the east side of Wilcox. Both maps have it incorrectly labeled on the westside of Wilcox.
- P1 and P2 Map – The key lists #12 as "W Hollywood Hotel" and the map lists it as "The W Hotel". Please change this so both the key and map location read "W Hollywood Hotel".
- P1 and P2 Map – Las Palmas is spelled as "Las Plamas". Please correct all to "Las Palmas".
- P1 and P2 Map – The key lists #11 as "Fonda Theatre" and the map lists it as "The Fonda Theatre". Please change this so both the key and map location read "The Fonda Theatre".
- P1 and P2 Map – The key lists #60 as "Hollywood Roosevelt Hotel" and the map lists it as "The Hollywood Roosevelt". Please change this so both the key and map location read "The Hollywood Roosevelt".
- P1 and P2 Map – The key lists #64 as "Klimpton Everly Hotel" and the map lists it as "Kimpton Everly Hotel". Please correct the spelling and change all so both the key and map location read "The Kimpton Everly Hotel".
- P1 and P2 Map – The "Walk of Fame" stops at the south west and south east corners of Vine and Yucca. On the map, the "Walk of Fame" extends north to the 101 and that is not the case.
- Can we remove the "City of Los Angeles ATM machine" listing and dollar sign logos entirely from the map? The ones listed are mostly in banks and technically the City of Los Angeles, to my knowledge, does not have their own ATM machines.

Thank you and please feel free to call me if you have any questions.

Hello Rich,

Attached is a PDF of the updated P2 Pedestrian Directory Map artwork (both orientations) for your review.

We corrected and added the changes you had requested based upon your emails (as shown below).

Again as a reminder, the "You Are Here" locations are shown as a "star"/circle graphic

and only one per map location will be shown.

NOTE: Just so you know, we ended up removing the "You Are Here" location (next to the Hollywood YMCA),

since sign no. P2-26 will not be installed at this time, which also tied in with removing the "P" on Schrader.

Also, once the map artwork is approved by the Hollywood BID, then we will release it to TFN.

Thank you,

3. Can you add the newly opened "Kimpton Everly Hotel" that is on Argyle and Yucca in red on the attachment? ADDED
4. Is there a reason we have the building on the southwest corner of Hollywood and Vine on the map? I can't think of a reason to have it there, so please let me know. DELETED

Thank you, Rich.

If you could please provide us with an address and location I could have our contractor coordinate the drop off day and time.

Thank you.

Good morning Rich,

I wanted to follow up on a few items from our past meeting regarding the pedestrian improvement project at Hollywood:

- Available tree wells: Do you have a list or map of available tree wells where you'd like us to plant our trees? I have identified several wells along Hollywood and some of the cross streets. If you have a list of priority wells that the BID would like to have occupied, we need that information soon. I could work with an address list, or even a screenshot of google maps with these wells called out with arrows.

- Benches: During the meeting, we discussed delivering 3 benches to BID in lieu of installation. Can you let us know where to drop off these benches?

Thank you Rich,

Sean

Christi, I mentioned to Kris Larson, new Ent BID Pres/CEO, the work the Trust did in the past on the subject of lighting along Hollywood Boulevard. He and Rich Sarian of the BID have been working on a Cahuenga corridor lighting project, and I think it would be good to get together and share info, in particular the study you had an intern do awhile ago on some of the infrastructure issues and the like.

Can you send us all a copy of that study and let us know some dates to get together briefly so we know what they are learning via Cahuenga and what we learned earlier about Hollywood Boulevard? Definitely a project worth of collaboration and the BID has made some real progress already.

Greetings friends,

Confirming this meeting for Friday at Capitol Records. It is very important we have at least one property representative for adjacent properties in the room, as the organizers for this LA Phil celebration will be in attendance.

Devin Strecker will be coordinating this event, so please communicate with him to confirm your attendance (or your surrogate)

devin@hollywoodbid.org

Here is what I have with respect to RSVP's

AMDA – Tony Zimbardi

Capitol – Jim Kuha

Pantages – David Green

Avalon – John Lyons

h. Club – Kynderly Hart

Argent Ventures – Michael Gargano, tent

DOES ANYONE HAVE A CONTACT FOR EQUITABLE BUILDING AND ADJACENT RESTAURANT?

Council District 13 – Dan Halden

BID – myself, Genevieve Haines and Devin

When: Friday, January 12, 2018 11:00 AM-1:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: Capitol Records

Greetings friends, here is a cut/past of the email I received last week on this topic. Thank you Maureen for making the conference room available, and I understand that Jim will be there representing Capitol Records. I'll have a list ready to give to your security earlier that week and will work with Jim.

Dear Kerry,

On September 30, 2018, the LA Phil kicks off its centennial season with **LA Phil 100: Celebrate LA!** This free city-wide celebration will stretch from DTLA to the Hollywood Hills, from morning into the night. Walt Disney Concert Hall will be connected to the Hollywood Bowl with CicLAvia, LA's own open-streets festival. Created in collaboration with hometown innovators Community Arts Resources (CARS), this massive festival of music and performance features neighborhood pop-up stages and the best musicians and artists from every corner of the city. And it's all capped with a huge free concert at the Hollywood Bowl, featuring Gustavo Dudamel, the Los Angeles Philharmonic and very special guests.

I would like to reach out to you and key stakeholders as early as possible to explore how this program can contribute to the Hollywood community and have a positive impact as well. The event will take place on September 30, 2018 from 9 am to 4 pm. CARS together with the LA Phil are planning to produce a small "festival" including an outdoor music and dance stage with other cultural offerings. We would like to hold this festival on Vine Street between Hollywood Boulevard and Yucca. This festival will be at the most northern end of the still in planning CicLAvia route that will connect Hollywood with the Walt Disney Concert hall downtown.

We are also planning a bus shuttle service from this site for those participants who would like to visit the Hollywood Bowl. Shuttles will leave from a designated point (to be determined) and will be running continuously during the event hours.

I hope that we might be able to meet with you and any key stakeholders that you think would be appropriate in January of 2018. We would be happy to come to Hollywood, preferably near the site, to have this meeting.

For a teaser, here's a short one minute video of the highlights of the Celebrate LA! day being planned: https://www.youtube.com/watch?time_continue=2&v=1xveUsp0rxU

I look forward to working together with you on this very exciting project!

Sincerely,

Aaron

Beth, it would be the Department of Building and Safety. A phone number would be 311, or the direct line is 888 LA-4BUILD to request an inspection.

You can also enter the address on their website here:

https://www.ladbsservices2.lacity.org/OnlineServices/?service=plr

I've cc'ed Dan Halden with the council office if you have any additional questions.

Hopefully this is just temporary.

Jackie, I received your message. (Copying Dan Halden from the city council office.)

Can you please provide another representative from your property to attend this meeting on December 11 at 9 a.m.? We are securing each of the four property owners to meet with us (will include city attorney, LAPD, city council deputy) as there are issues occurring in that alley, and on your parking lot that is under lease, that are causing neighborhood complaints. We want to get this figured out in a harmonious way – and the only way we can do that is to have everyone in the room.

Please try to rearrange your schedule or assign another person to come. We won't hold this meeting until everyone is in the room. I'll give you a call later today to discuss!

Dan,

Kerry gave me the update below. This is a huge responsibility for Jose and I to take over that problematic parking lot but we're only willing to do it if we can get the gates up. Otherwise we are basically adding a huge headache with nothing positive to show for our efforts. Let me know when you can discuss. I think Kerry has done a great job setting this up, now we have to collectively figure out how to close all the loops.

I am in town but leaving next Monday for a week.

David, Errol and I had a very productive meeting with Jackie Duffie today. We explained all the progress that has been made in the alley – calming things down, cleaning things up. Errol presented the trash solution. She is very supportive.

I am sending along my handwritten notes – because what matters is the schematic of the parking lot with 16 spaces (Errol and I went out to count and confirmed this). What is envisioned here is this:

1. When the lease between Kumetz and Aziz comes to an end, she is willing to lease to you. She needs to check to see when that will be – but if Aziz is willing to relinquish his lease in advance of the expiration date, this could be moved along quicker. That is probably something best negotiated between you and Aziz, and once that is confirmed, talk to Jackie.
2. At a cost of $100/space per month, as the diagram shows, three would be rented by the Trash Collaborative, seven by you (not sure why I put "C" there), and the remaining 6 would be available to Jackie's tenants ("J"). That said, the lease would be $1,000 a month, and the Collaborative would pay you for the three spaces needed to access the trash compactor.

Calming down that parking lot (and removing the incentive to use it for valet parking and/or parties) should go a long way to appeasing Dr. Anthony. I had a productive conversation with him yesterday, and he can see there is visible progress. Ultimately, when the parking deal is consummated, I would recommend Errol and Dan go meet with him. If push comes to shove, and if I am still here in Feb, I could help. But, I think we are on a good course.

The ball is in your hands right now to work on the details of the lease. Good luck!

Kerry

Good morning Joseph and Kerry,

Per the last meeting held at the BID office on Friday, January 12, 2018, I would like to connect you with Lt. Gonzalo Barriga and Supervisor Steve Pedersen with our L.A. Sanitation Department.

Gonzalo and Steve have ordered the special trash bags marked "trash/Basura" and would like to meet with you and discuss the distribution and collection of personal trash from sidewalk tent dwellers.

I am afraid that I do not have contact information for the SLO, but please feel free to invite him to this meeting as well.

Thank you all!

Hi Katie,

I am no longer on the street closure committee; April (cc'ed here) now handles that and maintains Navigate Hollywood. I checked with her, and she said the event at the Chinese last night was not brought before the committee nor was it permitted to close the street or sidewalk. However, she happened to be walking by there last night and said it was some sort of country music event with live performance and filming, and that it did completely block the sidewalk and she had to walk in the curb lane to get by. She said she thinks there may have been traffic cones in the curb lane too. So, you would have to check with the Chinese Theatre or the council office – I've cc'ed Dan to this message also, so he can see what happened.

Thanks,

Devin

Hi Devin,

Great seeing you at yesterday's meeting!

Quick question- do you know what event/premiere and street closure closure took place on the Boulevard yesterday and last night between highland and Orange?

I believe it was something at the Chinese, but can't recall what it was. Maybe you have record of it from Navigate Hollywood?

Many thanks!

Katie

Hi Kerry,

Thanks for the response.

I attended the presentation that the Coro Fellow provided. I think alternative are with exploring. Having said that, a HCM will news review by OHR. That conversation will happen we just aren't ready to have it yet until the consultant is brought on board.

I would like to share that presentation with the consultant once we get to that point.

I'm going to share these thoughts with folks in the Chamber as well.

Hi Kerry,

Yes, it has been discussed and will likely be discussed as we continue. The challenge is that the Walk of Fame is a historic cultural monument (HCM) and it presents challenges when we want to modify it beyond the current scope. Having said that, we are looping in the Department of City Planning Office of Historic Resources (OHR). The BID, CofC and Trust, of course, will be looped into the conversation once we get rolling on this. Right now we are handling all the boring accounting stuff.

Perfect, thanks!

Are you aware of the motion that was presented by the office for improvements/repair of Hollywood Blvd? This was using excess CRA/LA bond funds.

Hi Kerry,

I hope you are well.

I am so embarrassed about not getting back to Frank. I started looking into this after I received the email with the attached letter and got side tracked. At any rate, I learned that the planner that originally handled the case for Blvd 6200/Eastown has since retired from the City. Department of City Planning staff is going through the file to see if the entitlements conditioned the community benefit and, if so, what triggers them. It is not unusual that community benefits are payable prior to the issuance of a certificate of occupancy (C of O). The C of O for this project has not been issued. The other factor for this is that there is a separate agreement for the offsite signage for the. Funds may also come from that site. I followed up today and they are getting back to me. I will update you.

I will also try calling Frank back. I attempted earlier this afternoon but his voice mail box was full.

Again, my apologies!

Craig

Hi everyone,

I'd like to arrange for all of us (CD13, CD4, SD3, BID, Bowl) to have lunch in Hollywood to share some ideas I've had, and brainstorm possible others, regarding traffic and events in Hollywood - the Bowl and the Blvd. Obviously this is separate from the advisory committee meetings; I'd like to be able to touch base with all of you separately and see what we can come up with.

Let me know if you can meet in Hollywood for lunch on Friday, July 13th.

Thanks!
Dan

Kris,

My name is Andrew and I'm an artist that lives in Hollywood. I'm reaching out to see if you have any utility boxes in the area that need of painting? I have a few in the works with CD4 at David Ryu's office but I've had issues figuring out who to contact for CD13. Here is a link to the one I recently completed in Hollywood. I also would love to paint some murals in the area as well. No worries if you don't have anything, just keep me in mind for future projects.

Thanks for your time,

Andrew

Hello all,

I want to start by saying thank you to everyone for the work you have done to make the opening of the Schrader Bridge Home site a success. Now that we have completed outreach, construction, and a month of successful operation of the site we feel that this weekly conference call is no longer needed.

Many of the topics we have been discussing overlap with the conversations that are currently happening in the weekly UHRC meeting and we want to make sure we are not taking up valuable slots on your already full calendars.

Dan and I will always be available to answer questions and assist in anyway possible. We also will not hesitate to reach out if there is something we need help with, as you have seen over the last 12 months.

With the site up and operating we realize the most important steps are still in front of us, finding long term housing solutions to our neighbors that need the most help. We have great faith in both PATH and the Center that they will do a great job and make a lasting change to Hollywood. None of this would have been possible without your assistance.

On behalf of Councilmember O'Farrell, Thank you!

Recurring Coordinated Conference Call re: Schrader Bridge Housing - OUTREACH

Hi everyone,

Now that the 1533 Schrader Blvd bridge housing project is under construction and we are in the "90 day/30 day" period, I am setting up a weekly "check-in" conference call to discuss outreach strategies, and to allow all agencies an opportunity to share information and coordinate.

This will be an opportunity for everyone to get on the same page and everyone is swimming in the same direction. The goal, of course, is to identify 70 individuals currently experiencing homelessness who will be able to move in to Schrader when it opens, ETA mid-January. I also want to make sure that our office is staying in touch with all of you, and monitoring the pulse of the area, throughout this period.

I am asking for the following agencies and entities represented on this call:

Mayor's Office
CD13
LAPD
LASAN
Park Rangers
LAHSA
PATH
The Center
Hollywood BID

Reception for Kerry and Leron

Hi Don,

As you probably have heard, both Kerry here at the BID and Leron at the Chamber are leaving their positions in the coming months. Both have helmed their organizations for over two decades, seeing Hollywood through some of its toughest time and biggest transformations. We are planning an event to honor both of them, in conjunction with Councilmember Mitch O'Farrell and his staff, including Hollywood Field Deputy Dan Halden who is cc'ed here. We wanted to do a reception at 11am on December 13, and our first choice would be at the Roosevelt. It would be a very brief reception, perhaps with a champagne toast and some speeches, before we head out on a bus to visit a couple of places where Kerry and Leron will receive lasting recognition.

Let me know if you think Roosevelt would be able to host us, and what the cost might be. Thanks so much!

Friends,

Tomorrow is the big day with the official community celebration of the NEW Hollywood and Vine Scramble crosswalk!

Please join us **tomorrow, Thursday 7/12, at 1:00 PM.** We will actually be gathering **in front of the Metro Red Line Station at 6250 Hollywood Blvd.** There will be a brief speaking program followed by the ceremonial first ***dance*** across the crosswalk, in partnership with dancers from the hit musical *On Your Feet!*

Let me know if you can attend. See you tomorrow!

Best,

Great! I would love that, but I don't think CD13 has the staffing ability to provide the photographer. Tony - see below. Thoughts? Maybe the Pantages wants to send someone up to Kerry's unit on the 5th floor of the broadway building? (Southwest corner - the "money shot")

Neighbors,

I would like to invite you to an upcoming community meeting to hear details on the upcoming Academy Awards and some other events that will be taking place on Hollywood Boulevard.

This will be an opportunity to hear directly from representatives in charge of planning this upcoming activity, and a chance to ask questions and offer feedback.

A flyer with details is attached. The meeting will be held at the Hollywood & Highland Center, 5th Floor Vantage Room, on **Tuesday, February 6, 2018, at 6:30 PM.**

An RSVP is suggested, but not required. Please RSVP to me and/or contact me with any questions.

Warm Regards,

Greetings,

This is a reminder that we are planning to meet tomorrow to discuss issues related to the use of the north section of the EaCa Alley.

Tuesday, December 11 at 9 a.m.

Thank you to all of you for agreeing to come – Dan and I thought it would be best if we had all the property owners together at one time, so that we can discuss how to move forward with a plan that respects all the needs of the owners in this section of the alley with respect to parking, access, trash removal, safety, noise, etc.

As you know, we started this discussion around the prospect of gating the alley, and that won't happen until there is agreement about the use of the alley in general. I hope this will be a constructive conversation.

Here is the address to the St. Anthony Medical Center and Dr. Anthony has graciously allowed us access to his conference room. If anything has changed and you are unable to attend, please let me know ASAP. Here is the address:

6368 Hollywood Blvd.

Come to reception area on 2nd floor.

Thank you – and I look forward to seeing you tomorrow. I'll also send out a calendar invite for those who prefer this.

Request for exemption from alley assessment -- Meet 3 p.m. April 19?

Dave and Aziz,

I received your letter in the mail on Friday relative to the alley assessment and the request for exemption of your property.

Thank you for taking the time to put your question in writing and submit your revocables.

As you know, the staff's interpretation of what constitutes the appropriate revocable permit to be exempt from the alley assessment is different than yours. To that end, I'd like to broaden the discussion, because I don't feel authorized to make this decision on my own. I'd like to include John Tronson, who was chair of the BID Renewal Steering Committee ten years ago when the alley assessment was created, and Dan Halden, because of his understanding of this alley asset for the city, and the range of revocable permits that can be issued by the city. I'm also copying Chad Lewis, chair of the HPOA.

I appreciate that you have both signed your petitions, and we can move forward, as there is a lot on the table to try to get this BID formed. However, if the group's assessment (or the board, if that is required) is to exempt your properties from the alley assessment, we can pursue a refund.

I know Dan is out of town for Spring vacation, and I'm thinking that with Chad's travel schedule, that perhaps we try to hold a face-to-face meeting just before the next board meeting on April 19.

Let me know if that is acceptable to you, and I'll work on everyone's schedule, and see if that would be a good time.

Kerry

Greetings Committee

Next week I will be at the CDA conference in Walnut Creek. Since I will be out of town, I checked in with the co-chairs of the Security Committee and recommended that we delay until the end of the month and make this a special committee meeting.

I am working on a position statement for Hollywood – with respect to what we are asking of the city vis a vis the homeless situation. Here is a description I laid out to both boards last week, after the LA Times' editorials on this topic:

> Meanwhile, I am working on an issues brief – I've been thinking about this quite a bit. I am encouraged that both boards have indicated a willingness to consider supporting initiatives to provide alternatives to ease the current encampment crisis in our neighborhood. I think the Hollywood business community has the potential to show the rest of the city how to be a partner with the city and the county in this new era (until the crisis abates). I have heard from you that you are willing to look at storage, temporary shelter (while we wait for a permanent shelter to be constructed on Vermont, which could take up to two years). I also think we should be actively looking at sites for HHH housing opportunities. You may have seen that there is an effort to secure the pledge of each council district to support 222 units of HHH housing in their district – in order to create a city-wide momentum on this (and forestall the influence of NIMBYs).
>
> http://herbwesson.com/unprecedented-homeless-housing-commitment/
>
> https://la.curbed.com/2018/2/21/17036870/los-angeles-homeless-housing-development-citywide-pledge

I will bring these ideas to the Security Committee for them to consider – and then their recommendation to both boards. I think it is going to be incumbent on the business community to lead in this area in order to stimulate urgency.

I hope to have this ready for your review by the end of the month.

So – the date for the Security Committee will be changed to **Wednesday March 28 at 10 a.m.**

Coordination Meeting re: Hollywood Area Trash Bag Pilot

Hi everyone,

As we've discussed, the City's Bureau of Sanitation has purchased trash bags that will be used as part of a pilot project in certain areas of the City, including areas serviced by the Hollywood and Sunset BIDs in Hollywood.

We are convening a meeting to discuss distribution and outreach strategies for the trash bags, which will be distributed to individuals experiencing homelessness in Hollywood.

Please RSVP on behalf of your organization and/or let me know if someone else will be attending in your stead.

This meeting will be on WEDNESDAY, MAY 2, 2018 at 10:00 AM.

Thanks,
Dan

Dan, had a terrific meeting with Matt today – indeed, they have narrowed in on the former Cinespace venue as the location for Rock of Ages – with anticipated shows 5+ days a week. It sounds very exciting – I think it is the perfect place for the show, and it will help to POSITIVELY activate that block between Cosmo and Ivar.

He would love to brief you and Mitch about his plans and the investments they will be making to the space – and is hoping Mitch might weigh in when they are approaching their opening in Q2 next year.

Putting the two of you together again – this is such encouraging news!

Hi Dan,

You may already know that Rock Of Ages is going to be coming back to Hollywood in February in a residency at the Emerson Theatre at Hollywood & LaBrea. I had been trying to help them get something lined up with the Chamber so they could maybe have a star ceremony on the Walk of Fame around the time of the opening of the show, but that doesn't seem to be possible, so they were wondering about having some sort of "Key to the City" celebration instead. Is that something your office might be able to participate in?

Hi Devin,

Apologies for the delay. I don't know about a Key to the City (I don't think we do those -- or at least I never have), but we'd be happy to arrange for a Certificate. Let me know if that would work...

Glad to hear Rock of Ages is coming back!

What are they looking to do? We can attend, provide certificate, and support to a certain extent, but we aren't able to take the lead on organizing. We can certainly be there, though.

Thanks Dan. Maybe the BID can spearhead, then. I know they want to feel "welcomed" to the neighborhood in some way, and their first choice of a star ceremony doesn't seem likely.

Hey – so to jump back on this – I think they want some sort of official city ceremony. I know the Chamber usually does ribbon cuttings, but does CD13 ever do something like this to welcome a major new attraction in the District?

Dan Halden <daniel.halden@lacity.org> Tue, Jun 12, 2018 at 5:04 PM
To: Devin Strecker <Devin@hollywoodbid.org>

Hi Devin,

There's not an official sort of ceremony that the City does that has any sort of formality to it. We can definitely get a certificate for them and, if a date can be provided, we can see if the CM is available to present it. (This far out, the schedule should be open.) But there is not a pre-designed official ceremony that the City does. We're definitely happy to highlight this in a positive way, however possible, since the CM is such a big supporter of live theatre.

Good morning members of the HPOA Strategic Planning committee & partners –

With the intent of coordinating travel planning for the Santa Monica site visit next Thursday, May 30th, please reply to this email and provide:

- An RSVP / regrets regarding your attendance, and
- Your plan to travel alone or if would like to carpool from Hollywood. Once we have a firm # of people carpooling, we coordinate specifics per car.

As a reminder, the current itinerary includes:

- 8:45 AM – Depart Hollywood for Santa Monica
- 10 AM – 12 PM – Meet with Kathleen Rawson, and Downtown Santa Monica team, tour improvements
- 12 PM - 1 PM – Group lunch / recap
- 1 PM – 2 PM – Carpool back to Hollywood

Let me know if you have any questions or comments!

Best,

Kris

Service Provider Help Needed ASAP: Homelessness at Tamarind and Carlos Avenues

Kerry Morrison <Kerry@hollywoodbid.org> Tue, Feb 27, 2018 at 9:15 PM
To: Daniel Halden <daniel.halden@lacity.org>

Dan, I fly back from Montana tomorrow night. Yikes. This looks pretty serious.

I have a call with the CAO's office Thursday afternoon re/ the idea about the Schrader Wilcox lot as a temporary shelter until a permanent shelter is created. If we had a temporary shelter, we'd have a place for people to go in a situation like this. I spoke with staff in the Housing Department and it will likely be two years before groundbreaking in Shrader/Wilcox. I'll let you know what I find out from CAO staff on Thursday.

Have you had a chance to brief Mitch on this idea?

The outreach teams don't have many options at this juncture, I'm afraid.

Hi everyone,

Good seeing some of you last week. The encampment in this area has grown. I just drove by a short while ago; also, please see below for an example of the emails we are getting.

I know that the population here is very service-resistant but I believe we need to step up a sense of urgency here, ASAP. Can we shift strategies in some way? Please help.

I will contact a few media outlet this evening. This is absolutely unacceptable. The focus will be on how negligent our city officials have been regarding this - namely Mitch O Ferrell who is our councilmember leader of District 13. He was warned 2 years ago about this and nothing has been done. I had come to his office with real solutions - not just complaints. I had brought pictures and maps of WHAT TO DO, WHERE TO DO IT and HOW TO DO IT. It was ignored. Now, we live in fear and we get our property stolen and vandalized. I refuse to wait for a murder to take place or for a women to be raped before something is done. This needs to be addressed NOW and with long term solutions - as proposed.

Take a look at these 2 pictures I took 30 minutes ago. This is what we live with.

Just this morning we found two grocery carts full of transients' belongings squeezed between planters in the cul-de-sac area most likely damaging some of the plants. It's just a matter of time they will find a way to put up a tent in that corner. What a waste of time and money thanks to our city officials who seem to not care at all. By the way, don't bother to call the cops to report it, they will only tell you as long as they don't block the sidewalk nothing they can do.
They already came this morning around 9 with the siren on to wake them up. Great service you expect from a hotel.

Dear Mayor Garcetti, and City Council,

I am one of many parents that is very concerned about the situation that has been growing worse and worse right next to the preschool our children attend at HOLLYWOOD PRESBYTERIAN CHILDREN'S CENTER.

We had a very close call a few weeks back when preschoolers were crossing the street for a fun-filled day of our annual "snow day" in the adjacent parking lot across from the school. I was one of many volunteer parents helping out that day when a situation was getting out of hand with some apparent homeless campers and a person driving in a car later described to the police as trying to run over some of the people at that encampment. I don't know exactly what the reason was, but the car came down the block seconds before the children crossed the street. Two of the people of suspect confronted by the person in the car was very high on drugs as I witnessed. The situation was getting bad with people yelling profanity and getting violent. Once the police arrived the person driving the car drove away. This could have turned into a very bad situation with children crossing the street and a car trying to run people over.

This encampment is too close to the preschool as it is getting much worse and attracting more of the wrong crowd one would want near a preschool.

I hope you will do something about it immediately for the safety of our children, parents, and the surrounding neighborhood.

Sincerely,

Douglas Morganstern

Hello,

I have witnessed countless acts of violence and disturbing the peace. My social life is nearly non-existent as no one wants to come somewhere they will be harassed and threatened. Part of the problem is city employees recommending they come here. This is completely unacceptable. I think to drive the point home I would suggest you do a dry run yourselves. Come see how bad it gets. bring your family. walk the street. It's bad many times throughout a given day, but it gets dangerous fast as the sun goes down. I'm getting tired of having my life threatened, knives pulled on me, dogs lunging at me, stepping in human urine and feces (perhaps we should send samples?), trash and broken glass all over the street presenting hazards and attracting rodents and bugs, watching people do drugs (and no i'm not talking alcohol or some weed - real drugs that come with real risks), in an area that not only houses me, but includes a school only a few hundred feet away. I'm tired of people breaking into the apartment complex and stealing mail, or getting naked and literally using a hose and threatening tenants here, while there are children in the building, or breaking into vehicles. I'm tired of the sanitation guys refusing to get everything.

I encourage you to invite them to your neighborhoods instead. I am confident this would cause some action. Or perhaps we could debate the fine points of coverage for the block on the other side of the freeway. One might even ponder the difference in responses and results.

Even if you don't care about me 😂, why don't we just consider the children for a moment. Do you think this is something children from toddlers on should be facing? Given everything that's been happening lately, can we even risk another shooter/shooting/murder/stabbing in the area?

I think we can do much better. Easily. Rapid response teams. Have BID do roll throughs and make calls to station for units. Enforce the multitude of (extra) laws put in place to clean up hollywood/highland. There is a huge difference between utilizing a piece of 'public' land (sidewalk) and 'living' on that same spot. Why not surrender a few empty city lots for homeless encampments..

I would appreciate a detailed plan, with daily/weekly steps the city will take. And please don't suggest arming the teachers (or my visitors (or me!)), appropriate plans for the issue please - I will continue tempting fate as I have no choice. Pretty sure an intern could whip something up - I challenge you to follow through. Earn your votes and the trust placed in you.

Best Regards,
Jesse

We know you are all well aware of these, and so are we. We are really trying to understand but we could no longer tolerate homelessness in our midst for obvious reasons our neighbors and we have earlier on and on, cited.

Voter-passed Proposition HHH and Measure H will take months (or maybe years) to implement. In the meantime that massive housing settlement funding, services and programs are in the works, please temporarily resettle these homeless people in the City's properties.

City Ordinance "6am-9pm tents down" should not apply to residential areas. There should be no homeless encampments in these private residential areas at all. The above ordinance should only be applied to homelessness in the City's properties. To date, it is reported that the City owns 9000 underutilized proprieties. Please let our homeless people make use of them, even on a temporary basis, and apply the 6-9 City Ordinance there but not here in our private residential areas please, please, PLEASE.

Mr. Council Member O'Farrell and Mr. Honorable Mayor Garcetti, please hear our pleas.

I came in LA in 1998 with great love for the city, and now I cannot wait to move as far away from it. And I will publicize its tragic fate.

Yes. I am ashamed of where I live and I will not have people over for dinner - even though I pay high rent and high taxes. The city is siding with the non-tax payers - and that is a real shame.

We have more and more people putting tents and piling the trash every single day. Is there anywhere else those unfortunate people could be placed please?

It is amazing that nobody cares about people that work hard and pay the rents in those buildings on Tamarind Ave., (which is the END street) and our quality of life is down bellow zero.
We can NOT even use our sidewalks and walk home anymore. I am totally ashamed where I live; nevertheless, I can not invite anybody to my home anymore.

Is it true that the residents here can not be protected and the QUALITY of live DOES NOT MATTER at all ??! This is DEAD END street.
Does somebody has to get hurt before something would be considered to be done to protect us ??!
It seems that nobody cares. Pretty disappointing indeed and scary for everyone; especially a girl.

Hi Dan,

Would it be OK for me to include news of the scramble crosswalk coming to Hollywood/Vine in our newsletter? I believe you said that's slated for May. Also, if you have any statistics for how much safer Hollywood & Highland has become after the scramble was installed there, that could be great to include.

If there's anything else you think we should include, please do let me know – I'm trying to send this to the printer by Friday.

Special BID Security Committee meeting this Wednesday

Hi Gita and Steve, this Wed, we are holding a special meeting of the BID Security Committee to do a deeper dive on the homeless situation and ascertain the committee's direction to the board(s) on topics related to a Hollywood shelter, supportive housing, storage and related issues. I've been advancing several ideas to both boards – and they have been receptive – but I want to get to the place where we have board action taken to give staff a firm footing to proceed to speak on behalf of the owners. Whatever comes out of this meeting will be taken to the two BID boards in April.

One of the topics will be the notion of a temporary shelter while we await the identification of a site for a permanent shelter. I seem to recall a conversation (perhaps in the context of the hearing on the women's shelter proposed for Gardner) that if a shelter is located in a neighborhood, there can be conditions attached thereto that will help to mitigate the impact on the directly adjacent stakeholders and surrounding blocks? I was wondering if one of you could come to the meeting on Wednesday, so we could explore that concept further.

Many thanks – let me know,

Kerry

David, I am in the office all day – give me a call when you have a moment.

Also, I am planning to organize a meeting of the Tourism District Overlay Zone on **Friday June 1 at 2 p.m.**

This is an organizing meeting for this group – who has agreed to assess themselves $250K above their regular BID assessment to pay for services unique to this area. Of course, this is the area most impacted by street vending and characters, CD vendors etc.

I am hoping you could come that day to give a brief update on the progress of the street vending ordinance, and anything else you want to share re/ the councilmember's priorities for this area. This seems to be a day that our key leaders can come, so I hope it works for you.

Dear members of the TDOZ –

On behalf of the TDOZ Chair Mike Harkins, we hope you can join us for a special meeting of the TDOZ to occur next Monday, April 29th at 1:30 PM. The meeting will be held at the HPOA office at 6562 Hollywood Blvd.

Given the impending deadline for determining the 2020 TDOZ assessment level, it is imperative that we get an action from the Steering Committee regarding a path forward. If the Steering Committee intends to solicit a vote of the TDOZ membership, decisions will need to be made regarding the voting methodology, the ballot language (inclusive of potential assessment amounts), timing of the vote, and tabulation procedures. According to bylaw, if the Steering Committee opts to not solicit a vote of the membership, the aggregate assessment level will automatically continue into 2020 unchanged.

Included on this invitation are all members of the TDOZ, beyond those whom serve on TDOZ Steering Committee. Attendance at the meeting by non-Steering Committee members is always welcomed, but not required.

Hi Adrian,
I located some documents that are responsive to this request. Would you like to inspect these during your visit to our office this coming Friday, 4/1 - since you'll already be here?

Thanks!

Adrian, before you head to Hollywood on Saturday morning, please stop on the south side of Sunset Blvd just **east of** Occidental Blvd and 2798 Sunset Blvd.
Please remove 2 shopping carts and any other items from this location.

Field Deputy Dan Halden: Hollywood

1. West side of Wilton Pl from Harold Way to Sunset Blvd: Please trim all low hanging branches, and remove all litter and debris from sidewalk and gutter. **PLEASE BE AWARE OF BUSY TRAFFIC ON WILTON PL.**

2. **South side** of Harold Way from Taft Ave to Wilton Pl: Please remove any litter, debris, palm fronds and bulkies that you can from the sidewalk outside of the frwy fence.

Thank you!

Rich,

Per our conversation the other day, here's Google street view: https://www.google.com/maps/@34.1015962,-118.3267714,3a,23.8y,234.98h,86.49t/data=!3m6!1e1!3m4!1sH1p7a7DjRYa3SQj1MFerHQ!2e0!7i16384!8i8192

Can the BID remove this trash can at the SW corner of Hollywood & Vine for **ONE DAY ONLY (Thursday 7/12)** to accommodate the H&V scramble celebration?

Hi Norma and Megan,

Hope you both had a lovely Thanksgiving. Sorry to bother you on a holiday weekend.

The annual Hollywood Blvd holiday lights have been installed but are only half working. The Hollywood Christmas Parade is tomorrow at 4pm and the lights need to be active in time for the parade.

CCing Kerry Morrison with the Hollywood BID. Kerry - can you please provide a map of the locations that are OUT, as well as any other pertinent information you have.

Norma and Megan - many thanks as always for any help you can provide.

Available by cell if need be 323-383-1327

Thanks,
Dan

Hi all, Dan, thanks for responding over the holiday!

I drove by this evening and saw that the holiday decorations have been installed, but are intermittently lit. I am attaching a map that my colleague Rich sent to the installer last week — but as I was driving, I cannot isolate exactly which ones are lit and which are dark. Is it possible to have someone ensure that there is power for all that have been installed in time for the parade tomorrow?

So very sorry for this late notice on a holiday weekend!

Kerry

Hi Frankie,
Can you fill this out for me to the best of your abilities? It looks like we will get the green light for holiday decoration installation, but in a different section along Hollywood Blvd. These are the alternate 19 poles we are looking to

TO: Security Committee

Since we will be doing a deeper dive on the homeless situation and possible policy responses, I'm passing along some materials for you to familiarize yourself with in preparation for the meeting.

Attached is a report prepared by the City Controller's office last fall about homeless encampments and the ways in which the city can/could respond. This is one of the most complicated things to navigate because of the legal settlement that was negotiated with the ACLU in the Lavan case. Please spend some time acquainting yourself with this.

Second, here are links to some of the more salient articles and editorials in the media from early this year. I have been so impressed how members of our two boards have taken the time to become informed on this complicated issue – and I look forward to a fruitful and spirited conversation tomorrow.

This is a good article that links to several of the salient efforts underway, including tracking HHH progress, the 222 campaign, etc. I'll give you a bit more insight into this tomorrow. Councilmember O'Farrell has signed onto the 222 pledge and we should take a careful look at potential sites for supportive housing in the core part of Hollywood. (He has been a terrific champion in this arena.)

Do you know who handles these questions at DOT? I have someone looking for space to erect a tent for a 2,000 person event.

Hi Dan,

Tonight is a more laid back event. Nothing strict timeline wise. Having said that, here is what I have planned:

5.00 pm – arrivals and coordination at the South West corner of Hollywood and Vine

5.10 – 5.15 pm – Start with introductions and background on the project

5.15 pm – Councilmember can say a few words

5.20 pm – Artist can say a few words

5.22 pm – Jeff Loeb can say a few words

5.25 pm – We remove the cloth, revealing Elizabeth Taylor!

5.27 pm – Bows to riotous applause 🙂

5.28 pm – Walk over to the Pantages Theatre

Since the Councilmember has to leave at 6.00pm I don't think he'll have time to say anything unless he would like to before he leaves.

Let me know if you

Greetings Cory and Mike,

Next Monday at 3 p.m., the members of the TDOZ will be meeting. These are the owners between Orange and McCadden. In the new BID, they are paying an additional $250,000 on top of their regular assessment to pay for whatever services they need. This will be an organizational meeting in preparation for their election of a steering committee in November.

I've invited David Giron in to brief them on the situation with the sidewalk vending ordinance. I'd like to make some time on the agenda for you as well, if there is anything you want to raise with them with respect to public safety in that very specific zone.

Trash compactor

Kerry Morrison <Kerry@hollywoodbid.org> Tue, Jan 15, 2019 at 10:46 AM
To: [redacted]
Cc: Dan Halden <daniel.halden@lacity.org>, [redacted] Errol Roussel <errol@kitchen24.info>, Rich Sarian <Rich@hollywoodbid.org>

Jackie - I've been doing some research on trash compactors - a potential solution for the Cahuenga alley neighbors — and perhaps even a pilot to show a positive vision for how trash can be efficiently and economically handled in this increasingly dense neighborhood.

Tomorrow we will meet a 4 p.m. at Kitchen 24.

The gentleman we wil be meeting with, Tom Reiman, has a lot of experience installing compactors in LA. He's done them in Old Pasadena - where their alley system is contingent upon a clean trash solution, and recently along an alley in Highland Park, in the 5900 block of Figueroa. His company also does them for Mimi's Cafe's throughout the country, and he recently installed one at the Mimi's on Los Feliz Boulevard.

When he comes tomorrow, we will look at the site (I already sent him a screen grab from google maps) and he will tell us about how this works.

I sent him info Errol Roussel had provided me (Errol owns Kitchen 24 and has been doing yeoman's work these past several years coordinating the trash dumpsters and paying the bills to Athens - for which he's been shorted by a few businesses, but that's the topic of another meeting). If we didn't have Errol's conscientious stewardship of this shared problem, I cannot imagine what state the alley would be in!

I am hoping that once Tom looks at this, and determines what is necessary to service 13 businesses, the outcome would be less expensive than what is currently the case. Plus, it will be hygienic, rodent free and more attractive.

Jackie, you and I should talk off line about what your expectations would be to rent this lot to someone who would manage the trash solution. The owners will have to pay these costs:

1. Monthly rental toward the compactor (we will learn more about that on Thursday, but it could be in the neighborhood of $250-ish a month)
2. Monthly Athens bill
3. Monthly share of rent of the parking spaces
4. Monthly share of someone to administer this

Right now, the bill is about $4600. Divided among the 13, that is $350/month to Athens.

We are looking at the possibility that the OWNERS would buy into this solution, and pass the costs to the businesses. That way, Errol won't get stiffed when a business doesn't pay, or leaves Hollywood. The owner should pay for the trash regardless of whether or not the business is occupied.

I know you will be going out of town after this meeting - and you said I could coordinate with Eric. I wanted to give you a heads up on what I've learned. I think we all will have a much better sense of what is possible when we meet with Tom Reiman on Wednesday.

I just got back from Montana, and see there has been quite a bit of action while I was gone. I have some questions and want to coordinate. Ana, I know Leron is on vacation.

Can we set up a conference call to discuss this? I think it could take 20 min.

Here are some times:

Wed Aug 1 – anytime

Thurs Aug 2 11 a.m

Please let me know ASAP and I will set this up.

Hello, BID and Chamber folks,

I hope you are well. You should already be aware of this pending work, but I wanted to double check and make sure you and your community are aware of **upcoming construction on Selma Avenue this summer.**

Please see the attached notices in English and Spanish. The City and its contractor, Comet Electric, are completing work on a **"Safe Routes to Schools"** pedestrian safety project on Selma Avenue. Improvements will be made to the street including upgraded curb ramps, sidewalks, curbs and gutters, sidewalk extensions, etc.

Work will begin **this Monday, June 11, 2018,** and will last until approximately Tuesday, August 14, 2018. The work has been specifically scheduled so it takes place during the summer, when school is not regularly in session.

- During the first phase of work (approximately five weeks), construction will take place on the **NORTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, eastbound traffic only.**
- During the second phase of work (approximately five weeks), construction will take place on the **SOUTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, westbound traffic only.**

Please note that **all driveways on Selma Avenue will be accessible during construction,** and safety signage and personnel will be in place during the construction. Side streets like Cherokee Ave and Schrader Blvd will be impacted during the project; we ask for your patience and understanding during construction.

I'm CCing Abdullah Sadozai and George Huang from the Bureau of Engineering, and Louis Perez from Comet Electric. All three gentlemen, in addition to myself, can assist with any questions or issues that need to be addressed.

Please make sure you distribute this information to your community, so that all Hollywood stakeholders are aware. :)

Thank you,

David, I need to pull the Tourism District Overlay Zone together for a meeting later this month, to begin to prepare them for a vote they will conduct in November to determine who will serve on their Steering Committee.

At this meeting, I'd like to have you come in and brief them on where we are with street vending, 56.11 and first amendment. Recall that this group will have $250K in their budget for 2019 – and they will be considering the most effective use of these supplemental funds to benefit that zone.

Would you be available any or all of these dates, and I will set this up:

Wed Oct 17 at 10 a.m.

Friday Octo 19 at 10 a.m.

Monday Oct 22 at 3 p.m.

Mond Oct 29 at 3 p.m.

Good Afternoon Kerry,

I am happy to come in on October 29th. If possible I would like to use the same format we've used in the past, meaning brief remarks followed by QandA.

Please let me know if that works. Thank you!

> Attached are photos of the encampment from this morning. In one of the photos, you can clearly see they are violating the 36-inch rule by not allowing enough room for people in wheelchairs or pushing strollers to get by. Yet, no one from BID or LAPD seems to ever enforce this particular ordinance violation (if it still is one; the laws/policies seem to change so fast it's hard to keep track of).
>

As noted to you before, one of these homeless people threatened my life in May, they continually trespass onto our property, illegally dump on our property, urinate on our property, defecate on our property, throw bottles filled with urine on our property, throw used tampons on our property, tie bags of trash to our chain-link fence, leave piles of trash on the street. Our clients are sacred to walk on the sidewalk past their encampment. Our clients are now being HARASSED by people in this encampment. The encampment clearly violates city laws/ordinances about leaving enough clearance on the sidewalk for people with strollers/bikes/wheelchairs to get by.

Gentlemen,

We would love to have the Councilmember help unveil the utility box on Hollywood and Vine for this event. It's Elizabeth Taylor's and was installed yesterday if you have the chance to check it out. We're working on press and celebrities as well. Your presence is also requested for what is sure to be an amazing evening! Details below.

Please let me know if the Councilmember would like to be one of the "unveilers". Also, anyone else from the office is more than welcome to join!

Thank you,

Hi Dan!

I was looking through the final mark-up set for Wayfinding from Hunt Design. Two of the signs are to be placed at the Schrader City parking lot and I have attached the page with all the info. What are your thoughts on these signs being installed, and/or should we have them fabricated and saved for a later installation date?

Interesting question! That is of course the lot where the City has proposed to build the temporary bridge housing. It is not yet an approved project, so I hesitate to make a final decision, but given the proposal, can we HOLD on fabrication for now and then cross the bridge once again depending on how Council decides to proceed with the project proposal?

Also, do you know how many signs are planned for the other City parking lot - the larger one - up Schrader? (The "Wilcox/Schrader" lot across from the LGBT Center.) That is also proposed to be turned into housing, although there will continue to be public parking underneath.

The Good News

1. Apparently there is interest to get this done by June.

2. LADOT has determined that the project can be processed though the less onerous 'preliminary engineering' method rather than a formal 'full construction' approach. This is very good news.

3. Using our drawings and specs Conduent (formerly Xerox State & Local), the City's parking systems vendor, has been soliciting bids from good contractors and is closing on a vendor.

4. The all-in price will likely be in $390,000 — $410,000 range, NIC the electronic signage at the entrances to parking lots and structures (not a BID issue).

5. The City, through Conduent, has provisionally agreed to pay for fabrication and installation for about 60 of the proposed 83 wayfinding signs, or about $280,000. These signs are located within the original project boundary set into Conduent's contract by LADOT in 2016.

6. The cost for the remaining 23 signs will be the responsibility of the BID. About $95,000.

7. However, 7 or so of these 23 signs were added to the program at the request of Metro, so there should be some Metro money to further reduce the BID cost. Note that exact numbers are going come along later. We will start the conversation with Metro.

8. The procurement will be executed 100% by Conduent; they will then be reimbursed by the BID and, hopefully, Metro, for their portions.

Still to Accomplish

9. LADOT has still not received comments from CalTrans environmental/historic structure review. Expected within 30 days. Is not known at this time what action will be needed. Hopefully little or none.

10. I don't think we, or the BID, has final sign-off from the Trust. We had adjusted a few WoF locations at their request.

11. There still may be review from Bureau of Street Services (BSS) and Bureau of Street Lighting (BSL). In Westwood this was needed but was not a big problem — may be handled/coordinated by the vendor.

In Conclusion

The BID should go to work assembling the $95K; if this goes well the money would be needed around June. Right now we do not need any 'push' from CD 13 — let's see how this shakes out in the next three or four weeks.

Hi Rich!

Ch 35 wants to do a story on the way finding signs. I'd like to share more info with the reporter... any chance you have a summary of the project?

Here you go:

- Hollywood is one of the premier travel destinations in the world, and it just got even more welcoming! The Hollywood Entertainment District is pleased to be part of the cooperative effort to bring new signage to the neighborhood to enrich the visitor experience.

- The first wave of signs are already making it easier for pedestrians to find their way around the Hollywood, with directions to local attractions, public transportation and other areas of interest in the Entertainment Capital of the World.

- Future phases of the Hollywood Wayfinding Signage Project will see map kiosks, wayfinding signage directed towards vehicles, and new electronic variable message signs.

- The design of the new signs hearken back to the Art Deco era of Hollywood, with a modern touch.

- The project has been a cooperative effort of the Hollywood Entertainment District business improvement district, the Hollywood Chamber of Commerce, Councilmember Mitch O'Farrell, the Hollywood Historic Trust, LADOT, and the County of Los Angeles.

- The Hollywood Entertainment District is a business improvement district (BID) that works to help deliver a vibrant experience in the entertainment capital of the world. Funded by local property owners, the BID supports beautification, street cleaning, security services and homeless outreach in Hollywood. Learn more about Hollywood at www.OnlyInHollywood.org.

Thank you, Gil!
I alerted them to the error yesterday and it should be fixed very soon. Happy to have your eyes on the streets!
Thank you again!
Rich
